

Baystate Mary Lane Hospital - FY2011

Community Benefits Mission Statement

The charitable mission of Baystate Mary Lane Hospital, a member hospital of Baystate Health (BH), is to improve the health of the people in our communities every day, with quality and compassion. Baystate Health's Community Benefits Mission is to reduce health disparities, promote community wellness and improve access to care for vulnerable populations. Baystate Mary Lane Hospital is committed to meeting the identified health and wellness needs of constituencies and communities served through the combined efforts of Baystate Mary Lane Hospital member organizations, affiliated providers, and community partners.

Key Accomplishments of Reporting Year

Baystate Mary Lane Hospital offered more than \$700,000 in community benefits in FY 2011. Other accomplishments included our continued partnership with Quality EMT Educators of Worcester to offer Basic EMT Training to community members. To date over 90 community members (22 community members in FY 2011) have taken the EMT Basic Course. In December 2010 Baystate Mary Lane Hospital sponsored the first Paramedic Training program. A total of 15 EMT Basic candidates enrolled in this new class held at the hospital two nights a week through 2011. BMLH physicians shared their expertise beyond the walls of the hospital by offering high quality training and continuing education programs at no cost to EMS providers in our communities. The close working relationship between Emergency Physicians and EMS providers is essential to ensuring that patients receive the highest quality care in the field. BMLH provided critical support and resources to the community at large through our Support Groups including; Alcoholic Anonymous, Caregivers Support Group, Quilting Support Group for those touched by Cancer, Diabetes Support Group, Grieving Support Group, Hepatitis C Support Group & WIC Sponsored Breast Feeding Support Group. In addition, BMLH and its staff offered over 100 outreach programs providing a variety of education and wellness seminars to the community at large at no cost. These programs were presented by physicians, nurses and staff that work at the hospital and addressed ways to live healthier by offering a variety of educational opportunities and health screening. Lectures and screenings were offered at the hospital and in community settings including area schools and senior centers, and promoted disease prevention, behavior change, and healthier lifestyles for community members of all ages as they addressed health topics including H1N1, Lyme Disease, Nutrition, Osteoporosis, Diabetes, Stroke Prevention, Exercise, Women's health issues including HPV and Cervical Cancer, Men's Health and much more.

Plans for Next Reporting Year

In FY 2012, Baystate Mary Lane Hospital will continue to work with the Community Benefits Advisory Council, the Patient and Family Advisory Council and the Quaboag Hills Community Coalition to address community health needs. Together they will develop community health planning strategies and stimulate collaborative opportunities among public health and community leaders to build a healthier, safer community. Baystate Mary Lane Hospital will continue to provide quality services through our Community Outreach Program, Support Groups and EMT Training throughout the Baystate Health Eastern Region, serving Hampden, Hampshire and Worcester counties. In addition, BMLH will continue its expansion of its EMT Training program to include Paramedic Training to ensure that patients receive the highest level of pre-hospital care needed in the field.

Community Benefits Process

Select Community Benefits Process

Community Benefits Leadership/Team

Baystate Mary Lane Hospital Community Benefits Advisory Council and the Baystate Health Board of Trustees are actively involved in overseeing community benefit programs and expenditures. In July 2010, the Baystate Health Board of Trustees approved and assigned oversight of community benefits to the Board's Governance Committee. Through its regular board meetings, internal hospital meetings and leadership activities, Baystate Health is actively involved in shaping community benefits provided by the system. For FY 2011 the System Vice President for Government and Community Relations and Public Affairs, under the direction of the Sr. Vice President for Strategy & External Relations, supervised the Director of Community Health Planning and Community Benefits Manager. Additionally, the Director and Manager work collaboratively with the Public Relations & Community Relations Specialist at Baystate Mary Lane Hospital to oversee the community benefit plan; community health needs assessment and annual data collection and state and federal reporting of community benefits.

Community Benefits Team Meetings

The Baystate Health Board Governance Committee meets minimally two times per year and has a community benefits charge of advocating for community benefits at the Board level and throughout the health system; integrating the community benefits plan into the health systems strategic plan; periodic review of community health needs assessment data; approval of a community benefits mission statement and health priorities; review impact of community benefit programs in promoting health of the community; and ensure MA Attorney General and IRS community benefits compliance. Annually, the System Vice President for Government and Community Relations and Public Affairs and Director of Community Health Planning present a system-wide community benefits update to the full Board of Trustees. The Baystate Mary Lane Hospital Community Benefits Advisory Council met quarterly in 2011. In 2012 the CBAC expanded its membership and increased its meeting frequency to monthly in preparation for an upcoming community health needs assessment. The Community Benefits Advisory Council (CBAC) brings a community lens and filter for interpreting the findings of the community health needs assessment process and setting priorities. The CBAC provides a community perspective on how to increase wellness and resilience opportunities for optimal health for an entire population; guidance in matching Baystate Mary Lane Hospital resources to community resources, thus making the most of what is possible with the goal to improve health status and quality of life; and policy advocacy to assure and restore health equity by targeting resources for residents: (a) with a high prevalence or severity for a particular health concern, or (b) who face with multiple health problems and limited access to health care, or (c) who lack access to health care because of financial, language/culture, legal or transportation barriers, and/or who possess physical or mental disabilities. Participants on the CBAC for Baystate Mary Lane Hospital represent greater Ware and Quaboag Hills constituencies and communities that the hospital serves. CBAC members are responsible for reviewing community needs assessment data and use this analysis as a foundation for providing the hospital with input on its community benefits planning process.

Community Partners

Baystate Mary Lane Hospitals' community partners include; Best Oral Health Program, Boards of Health, Mass Department of Public Health, Chamber of Commerce, Public Schools and School Nurses, Fire & Police Departments, Quaboag Hills Community Coalition, Quality EMS Educators of Worcester, Senior Centers, The Carson Center at Valley Human Services, TRIAD Ware Council, Trinity Episcopal Church, Ware Adult Learning Center, Ware Domestic Violence Task, Ware Public School Advisory Committee, WIC/SNAP Nutritional Program.

Community Health Needs Assessment

Date Last Assessment Completed and Current Status

In FY 2010, BMLH completed a thorough planning and community needs assessment process based on "A Planned Approach to Community Health," which matches the six-step model outlined by the Association for Community Health Improvement. There was particular emphasis on community engagement in this process according to the most recent upgrade to the AG's Community Benefit guidelines.

1. Establishing the assessment infrastructure
2. Defining the purpose and scope
3. Collecting and analyzing data

4. Selecting priorities (engage the community)
5. Documenting and communicating results
6. Planning for action and monitoring progress

The FY 2010 community needs assessment process gathered information and reviewed data from a number of sources, including:

1. Healthy People 2010 indicators collected by the Massachusetts Department of Public Health and the Centers for Disease Control and Prevention were major sources of data for community health needs assessment and planning information.
2. The Massachusetts Department of Public Health, several of its websites, Mass CHIP, and key MDPH staff provided county-level and locality-based data for municipal and neighborhood geographic areas.
3. Morbidity and mortality data was drawn from internal Baystate Health hospital discharge data and statewide data sources. These data, which generally include reason for hospitalization and length of stay, can contribute to measuring the burden and cost of illness and disability in the community.
4. Both by internal and external respondents in the health care, human service and public health field and unaffiliated stakeholders (community residents) participated in focus groups.
5. The Community Benefits Advisory Council, hospital advisory board members, and local community coalitions and task forces played a key role in helping the hospital identify community health needs.
6. Existing community needs assessment data (United Way, Pioneer Valley Planning Commission, and Community Action Programs) was included in this assessment.
7. Surveys of community stakeholders - expert testimony and resident (lay) opinions – were use to identify and prioritize community health needs.

Consultants/Other Organizations

The following organizations/community stakeholders were surveyed:

1. Best Oral Health Program
2. Boards of Health Mass DPH
3. Chamber of Commerce
4. DPH/School/RN's
5. Fire & Police Departments
6. Pro Casino Group
7. Quaboag Hills Community Coalition
8. Senior Centers
9. The Carson Center at Valley Human Services
10. TRIAD Ware Council
11. Trinity Episcopal Church, Ware
12. Ware Adult Learning Center
13. Ware Domestic Violence Task
14. WIC/SNAP Nutritional Program

Emergency Medical Technician Training

Brief Description or Objective

Baystate Mary Lane Hospital partners with Quality EMS Educators of Worcester to offer Basic EMT Training to community members. Strained town budgets make EMS training and education a challenge for many rural fire/ambulance squads. To date over 90 community members have taken the EMT Basic Course. EMS providers are a vital part of the safety infrastructure of our community, and the first link in the chain of care for our residents. Many of the candidates that have completed this EMT course are now providing essential emergency care in the communities they live in.

Program Type

Community Education, Community Participation/Capacity Building Initiative, Health Professional/Staff Training, Mentorship/Career Training/Internship

Target Population

- **Regions Served:** Belchertown, Brimfield, Brookfield, Hardwick, Monson, New Braintree, North Brookfield, Palmer, Ware, Warren, West Brookfield
- **Health Indicator:** Access to Health Care, Other: Elder Care, Other: First Aid/ACLS/CPR, Other: Homebound, Other: Public Safety
- **Sex:** All
- **Age Group:** All Adults
- **Ethnic Group:** All

Financial Assistance Counseling**Brief Description or Objective**

For over ten years, Baystate Health has provided financial counseling services to inpatient and outpatient individuals who have concerns about how to pay for care. Financial Counselors are dedicated to identifying and assisting patients who are unable to pay their estimated care prior to treatments or who have large existing balances. This assistance includes linking patients to available funding sources such as Medicaid and Medicare and determining whether they are eligible for charity care or for Baystate's Financial Assistance Program.
