
Petition of George M. Munier for legislation to authorize the Granby Telephone and Telegraph Company of Massachusetts to borrow money (filed on December 19, 1962, by the Secretary of the Commonwealth, under the provisions of Section 5 of Chapter 3 of the General Laws, as most recently amended by Chapter 31 of the Acts of 1956). Power and Light.

The Commonwealth of Massachusetts

In the Year One Thousand Nine Hundred and Sixty-Three.

AN ACT AUTHORIZING THE GRANBY TELEPHONE AND TELEGRAPH COMPANY OF MASSACHUSETTS TO BORROW MONEY.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 The Granby Telephone and Telegraph Company of Massa-
2 chusetts is hereby authorized to borrow an additional sum, not
3 exceeding two hundred thousand dollars, and to execute bonds,
4 notes or other evidences of indebtedness payable to any person,
5 or to order and to deliver such bonds, notes or other evidences
6 of indebtedness in consideration of such loan, and to mortgage,
7 pledge or hypothecate any or all of its assets as security there-
8 for; provided, however, that all of the provisions of chapter
9 one hundred and sixty-six of the General Laws, except as spe-
10 cifically otherwise provided herein, shall be applicable and
11 shall govern the said loan or any part thereof, or bonds,
12 coupon notes or other evidences of indebtedness issued here-
13 under, including specifically the provisions of sections four,
14 five and six of said chapter one hundred and sixty-six.

The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) in the case of a linear operator. The second part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The third part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator.

THE EXISTENCE OF A SOLUTION

Let us consider the system of equations (1) in the case of a linear operator. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) in the case of a linear operator.

The second part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The third part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator.

The fourth part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The fifth part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The sixth part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The seventh part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The eighth part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The ninth part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator. The tenth part is devoted to a study of the problem of the existence of a solution of the system of equations (1) in the case of a nonlinear operator.
