

SENATE . . . . . No. 408

---

---

By Mr. Weeks, a petition of Joseph D. Ward, William D. Weeks and another for legislation to provide for the retention in service beyond the maximum age for retirement of certain skilled persons. Pensions and Old Age Assistance.

---

---

**The Commonwealth of Massachusetts**

In the Year One Thousand Nine Hundred and Sixty-Six.

AN ACT PROVIDING FOR THE RETENTION IN SERVICE BEYOND THE  
MAXIMUM AGE FOR RETIREMENT, OF CERTAIN SKILLED PERSONS.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 Section 91 of chapter 32 of the general laws as most recently  
2 amended by chapter 749 of the Acts of 1963, is hereby further  
3 amended by striking out in line 19 of the first sentence thereof,  
4 the words "for a period not to exceed one year".

The first part of the work is devoted to a general survey of the history of the science of the earth, from the earliest times to the present day. The author discusses the progress of geology, and the discovery of the earth's structure, and the history of the earth's surface.

### The Geology of the Earth

By the Rev. J. W. Dawson, F.R.S.

The author discusses the progress of geology, and the discovery of the earth's structure, and the history of the earth's surface.

The second part of the work is devoted to a general survey of the history of the science of the earth, from the earliest times to the present day. The author discusses the progress of geology, and the discovery of the earth's structure, and the history of the earth's surface.

The third part of the work is devoted to a general survey of the history of the science of the earth, from the earliest times to the present day. The author discusses the progress of geology, and the discovery of the earth's structure, and the history of the earth's surface.

The fourth part of the work is devoted to a general survey of the history of the science of the earth, from the earliest times to the present day. The author discusses the progress of geology, and the discovery of the earth's structure, and the history of the earth's surface.
