

## Noble Hospital - FY2014

---

### Community Benefits Mission Statement

It is our mission to improve the health of our patients through innovative care in a personalized environment that exceeds the expectation of our community.

### Target Populations

### Key Accomplishments of Reporting Year

Noble Hospital was involved with many area nonprofits in multiple projects and services to the community. We have again had a successful year in fundraising and actively shared information with the residents of the greater Westfield area. We continue to receive awards and accreditations for various departments.

### Plans for Next Reporting Year

During the year, various departments participate in many different events. In order to accurately submit our Community Benefits Report, we will update our existing form for staff members to fill out for each event they attend. This form and process are continuously updated in order to perfect the sharing of information. We are also looking at adding a form on our intranet for employees to access and submit information to the Community Development office.

## Community Benefits Process

---

### Select Community Benefits Process

### **Community Benefits Leadership/Team**

The Community Development Office oversees the Community Benefits Report. The Community Benefits Program is overseen by the Vice President of Community Development, who reports directly to the President and CEO, who in turn keeps the Board of Trustees apprised of Community Benefits activities. Participation in activities as a paid employee as well as in the role of volunteer is encouraged for all employees. Various Community Benefits activities are coordinated by Community Development office. The importance of the Community Benefits mission is understood and embraced at all levels within the organization. Cooperation is outstanding in all aspects of the process from identifying need, to designing a vehicle for response, to providing personnel to participate.

### **Community Benefits Team Meetings**

The subject of Community Benefits is an agenda item for the monthly meeting of department directors, who, in turn, bring the Community Benefits message to their respective employees. This includes discussion of various Community Benefits activities as well as the importance these activities play in the Hospital fulfilling its obligation to the community. Additionally, the Community Development staff (comprised of the Vice President and Community Development Coordinators) meet on a weekly basis to discuss various activities and develop planning strategies for key goals and objectives.

### **Community Partners**

We have positive working relationships with many organizations, groups, and businesses in the Greater Westfield area. Some of our Community Partnerships (existing and new) for FY 2014 are:
