

HOUSE No. 1723

By Mr. Weinberg of Boston, petition of Norman S. Weinberg and Samuel Harmon for repeal of the law relative to the appointment of a State House physician. Public Service.

The Commonwealth of Massachusetts

In the Year One Thousand Nine Hundred and Sixty-Eight.

AN ACT RELATIVE TO THE APPOINTMENT OF A STATE HOUSE
PHYSICIAN.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

- 1 Section three of chapter four hundred and forty of the acts 2 of nineteen hundred and fifty-one is hereby repealed.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data. The second part of the document outlines the procedures for handling discrepancies. It states that any variance between the recorded amounts and the actual amounts should be investigated immediately. The third part of the document provides a detailed breakdown of the financial data for the period covered. It includes a table showing the total revenue, expenses, and net profit. The final part of the document concludes with a summary of the findings and a recommendation for future actions. It suggests that the company should continue to monitor its financial performance closely and take steps to improve its efficiency.

The following table provides a detailed breakdown of the financial data for the period covered. It includes a table showing the total revenue, expenses, and net profit. The data is presented in a clear and concise manner, making it easy to understand. The table is as follows:

Category	Revenue	Expenses	Net Profit
Total Revenue	1000000		
Total Expenses		750000	
Net Profit			250000

The table shows that the company has a net profit of 250,000 for the period covered. This is a significant achievement and indicates that the company is operating efficiently. The revenue is 1,000,000 and the expenses are 750,000. The net profit is 250,000. This information is crucial for the company's financial planning and decision-making. It allows the company to identify areas where it can reduce expenses and increase revenue. The net profit is a key indicator of the company's financial health and is used to determine the company's ability to pay dividends and reinvest in the business. The company should continue to monitor its financial performance closely and take steps to improve its efficiency. This will ensure that the company remains profitable and competitive in the market.
