

Department of Workforce Development

Regional LMI Profile Series
**Massachusetts Occupational
Employment Distribution by Industry**
Volume 3 of 6: Service Jobs

Report #4B
SEPTEMBER 2005

Preface

Massachusetts Occupational Employment Distribution by Industry is based on the Occupational Employment Statistics (OES) Survey, conducted semiannually by the Massachusetts Department of Workforce Development (DWD) under the auspices of the United States Bureau of Labor Statistics (BLS).

The current release includes data collected during a 3-year period ending in 2003. It was compiled and produced by the Economic Analysis Office of the Department of Workforce Development's Division of Career Services. A companion series – *Massachusetts Industry Staffing Patterns* – uses the same data to profile industries, i.e., presents the data in an industry-by-occupation format.

If you have any questions regarding *Massachusetts Occupational Employment Distribution by Industry*, please contact:

39-9099	Personal Care and Service Workers, All Other.....	3-102

Introduction

Massachusetts Occupational Employment Distribution by Industry – which reflects the unique mix of occupations and industries in Massachusetts – is a tabulation of employment levels sorted first by occupation and then by industry. Figure 1 shows, for example, that:

- 390 computer programmers worked for newspaper, periodical, book and directory publishers; and 810 computer programmers worked for software publishers.
- 3.1 percent of all employed computer programmers worked for newspaper, periodical, book and directory publishers; and 6.5 percent of all employed computer programmers worked for software publishers.

SOC 15-1021		Computer Programmers		
NAICS	Title	Jobs	Percent	
5111	Newspaper, Periodical, Book, and Directory Publishers	390	3.1	
5112	Software Publishers	810	6.5	

Figure 1. Sample Occupational Profile

Breaking down jobs by occupation and industry helps to:

- Identify the industries that employ the most workers in particular occupations
- Track the effect of technological changes on the demand for workers by occupation and industry
- Create and evaluate job training programs
- Foster job development

Based on survey responses submitted by more than 28,000 employers, *Massachusetts Occupational Employment Distribution by Industry* is an important tool for analysts because it eliminates the need to extrapolate occupational profiles from national statistics. State and national profiles often differ significantly.

The data in this 6-volume set includes:

- Every occupation in which at least 100 Massachusetts workers are engaged
- Every industry that employs at least 1,000 workers in Massachusetts
- Every occupational/industry stratum (e.g., the number of lawyers working in the legal services industry) whose occupational percentage (e.g., the number of lawyers working in the legal services industry divided by the overall number of employed lawyers) equals or exceeds 1 percent

Two systems are used to classify the 639 occupations and 347 industries covered by the present publication:

- The Standard Occupational Classification (SOC) System. Bureau of Labor Statistics (BLS). U.S. Department of Labor. 2000.
- The North American Industry Classification System (NAICS). U.S. Census Bureau. 2002.

Volume 1 of *Massachusetts Occupational Employment Distribution by Industry* breaks down the state's jobs:

- by occupation
- by major industry sectors and by occupation

Volumes 2 through 5 break down the state's jobs:

- by 2-digit NAICS code and by occupation
- by 3-digit NAICS code and by occupation
- by 4-digit NAICS code and by occupation

For a handy synopsis of the data contained in this series, see the tables starting on page XIII.

How to Read the Data

Occupational profiles are listings of industries and employment levels by occupation. Figure 2 shows the layout used to present this data in *Massachusetts Occupational Employment Distribution by Industry*:

SOC 23-2000		Legal Support Workers		
NAICS Code	NAICS Title	2003 Jobs	Percent	
52	Finance and Insurance	440	5.5	
524	Insurance Carriers and Related Activities	210	2.7	
5241	Insurance Carriers	140	1.7	

Figure 2. Sample Profile

Occupations, shown at the top of each page, are sorted by SOC code. Industries, listed vertically below occupations, are sorted by NAICS code.

The example above indicates that:

- 140 legal support workers were employed by insurance carriers in Massachusetts in 2003.
- 1.7 percent of all legal support workers employed in Massachusetts in 2003 worked for insurance carriers.

Two- and three-digit NAICS codes are rollups – i.e., subtotals. Every worker in code 5241, for example, is included in code 524; and every worker in code 524 is included in code 52.

Care must be taken not to inflate job counts by including rollups. Adding code 524 to code 5241 in the example above will cause the jobs in code 5241 to be counted twice.

The same warning applies to SOC codes. SOC code 23-2000, for example, includes codes 23-2011, 23-2091 and 23-2092 as shown in Figure 3:

SOC	SOC Title	2003 Jobs
23-2000	Legal Support Workers	7,860
23-2011	Paralegals and Legal Assistants	6,300
23-2091	Court Reporters	300
23-2092	Specialty Trade Contractors	330

Figure 3. Hierarchy of Occupations

Adding code 23-2000 to code 23-2011, 23-2091 or 23-2092 will cause jobs to be counted twice.
