1909
ANNUAL REPORT
OF THE
TOWN OFFICERS
OF THE
TOWN OF SUNDERLAND
FOR THE
YEAR ENDING MARCH 1, 1909.

AMHERST, MASS.
Press of Carpenter & Morehouse.
1909
Town Warrant.

COMMONWEALTH OF MASSACHUSETTS.

FRANKLIN ss.

To Ralph B. Brown, a constable of the town of Sunderland greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the town of Sunderland, qualified to vote in town affairs, to meet at Town Hall in said town, on Monday, the first day of March, 1909, at nine o'clock in the forenoon, then and there to act on the following articles:

Art. 1. To choose a moderator to preside at said meeting.

Act. 2. To hear the annual report of the Town Officers and act thereon.

Act. 3. To choose all necessary Town Officers for the ensuing year.

Art. 4. To raise and appropriate such sums of money as may be necessary to defray town charges for the ensuing year, or to pay town debt and interest.

Art. 5. To determine the manner of repairing the highways, town ways and bridges.

Art. 6. To see if the town will vote to raise or appropriate money for the transportation of scholars to the schools in town, or high schools out of town.

Art. 7. To bring in their ballots, yes or no, in answer to the question: "Shall license be granted for the sale of intoxicating liquors in this town for the ensuing year?"

Art. 8. To fix the time when taxes shall be paid, and pass any votes in regard to discounts and interest.
Art. 9. To see if the town will authorize the treasurer to borrow money, with the approval of Selectmen, for the use of the town, and give notes of the town therefor.

Art. 10. To see if the town will accept the list of jurors, as posted by the Selectmen.

Art. 11. To raise and appropriate money for the salary of a Superintendent of Schools, and to pay the School Committee for their services.

Art. 12. To see if the town will authorize the School Committee to draw orders on the Town Treasurer monthly for its full proportion of the salary of the School Superintendent.

Art. 13. To see if the town will raise and appropriate a sum of money for the support of the public library.

Art. 14. To see if the town will take any action in regard to opening the town drains.

Art. 15. To see if the town will take any action in regard to lighting the streets.

Art. 16. To see if the town will provide a lock-up.

Art. 17. To see what action the town will take, in regard to Chapter 209, Acts 1908, entitled "An Act to Provide for the Protection of Forest or Sprout Lands from Fire."

Art. 18. To see if the town will take any action in regard to supplying water for use in the cemetery.

Art. 19. To see what action the town will take in regard to putting water in the ante-room of the town hall.

Art. 20. To see if the town will take any action in regard to providing an evening school for those beyond a school age, or providing a room for such school.

Art. 21. To see if the town will take any action in regard to publishing a list of taxable property in town.

And you are directed to serve this warrant by posting up attested copies thereof, at the Plumtrees, at the store of
B. N. Fish, at the mill of D. D. Whitmore, and at the guide post in the Meadow District, fourteen days, at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereof, to the Town Clerk, at or before the time of holding said meeting.

Given under our hands this fifteenth day of February, in the year of our Lord, nineteen hundred and nine.

A. M. Darling, } Selectmen
F. O. Williams, } of
Geo. P. Smith, } Sunderland

H. G. SANDERSON, Treasurer.

I have examined the accounts of the Treasurer of the Cemetery Fund for the year ending Feb. 15, 1909, and find them correct.

J. M. S. Leach, Auditor.

One general inspection of the cattle and stables in town has been made during the past year, which same took place as ordered during the month of November. The whole number of animals found at this time was as follows: Total number of neat cattle, 778; swine, 437; sheep 86. Seventy stables were reported on to the Massachusetts Cattle Bureau as to light, cleanliness, and amount of air space. Light has been added to quite a few stables during the past year, but still the majority of our stables are not up to the standard in cleanliness.

During the year 28 cows were quarantined on suspicion of having tuberculosis; 21 of these were condemned and killed. I have identified and released 390 cattle brought in from other states. 197 carcasses of pork have been inspected and stamped at time of slaughter, also 2 of beef, none of which were found diseased.

M. H. Williams, Inspector.

Collector’s Report.

1908.

Paid Town tax, $6,598.00
County tax, 1,043.74
State tax, 880.00
Excise tax, 498.29
Interest, 107.81
State highway, 69.15
Overlaying, 37.98
Town tax assessed Dec. 18, 15.04

\[ \text{Total} = \$9,250.01 \]

Paid Town Treasurer, $9,022.12
Interest, 107.81
Abated taxes, 79.02
Exempt, 41.06

\[ \text{Total} = \$9,250.01 \]

R. B. Brown, Collector.

Feb. 16, 1909.

Number of boys in town, Sept. 1, 1908, between 5 and 15 years of age, 84; of girls, 63.

Number of boys in town Sept. 1st, 1908, between 7 and 14 years of age, 58; of girls, 43.

The schools will have been in session 36 weeks, March 5, and this report is made out to that date.

The furnaces in the building are apparently near the end of their usefulness, and we recommend their being replaced by new ones during the summer vacation.

We recommend the following appropriations:

Support of schools, $2,300 00
Teaching of music, 108 00
Books and supplies, 200 00
Superintendent's salary, 165.00
Repairs, 100.00

C. G. Trow,  
F. L. Whitmore,  
Cyrus M. Hubbard,  

School Committee.

I have examined the accounts and vouchers of the School Committee and find them correct.

J. M. S. Leach, Auditor.
Superintendent's Report.

To the School Committee of Sunderland:

Gentlemen:—I have the honor herewith to submit to you and to the people of Sunderland my sixth annual report as superintendent of your schools.

It is a pleasure to report that the schools are in excellent condition, better, I believe, than at any other time during the six years I have known them. That this is true is due largely to the fact that the teachers are all unusually efficient and are doing splendid work. This year they are better able to do superior work because of the additional room that has been provided. The reorganization of the school since the opening of the new room is shown in the table of attendance for this year given later in this report. The results have been excellent throughout the school but particularly in the first grade, where the pupils are making unusual progress. This is due in part to the fact that the teacher can give more time to the new grade, and in part, also, to the new system of reading that has been introduced this year. At the end of the year we expect not only that the children in this grade will be more fluent readers but that they will read more understandingly and with less dependence upon the teacher than heretofore.

As to the new room itself, while it is small, it is pleasant and, everything considered, it provides the best way out of the difficulty that confronted us last spring. It will be large enough to accommodate the eighth and ninth grades next year, but thereafter for a time it may be necessary to make some other arrangement. Judging from the size of the grades at present, it may be possible to have the sixth and seventh grades exchange rooms with the eighth and ninth.
By some such arrangement the new room should serve the needs of the school for several years. The school is slightly smaller this year, (a loss of two in average membership), and this may mean that the increase noted last year has reached its height.

The subject of an evening school was discussed in my last report, but I wish to refer to the matter again here. An attempt was made this year to establish such a school on a strictly self-supporting basis. Too many difficulties were encountered to make the school wholly a success, but the experience of this school and that of a somewhat similar one in South Deerfield seem to establish the fact that a considerable number of the non-English speaking men in the community would welcome an opportunity to learn the rudiments of the English language. The cost of maintaining such a school where a suitable meeting place, with heat and light, is provided, is not excessive. The results, measured in terms of the increased respect of the foreigners for our American institutions and ways, and a corresponding decrease of the jealousies and distrust often felt toward native Americans, is ample justification of whatever expense would have to be incurred.

Last November an agent of the Immigration Commission visited your school and prepared a somewhat detailed report on the "Polish" children as compared with those of American parentage. Believing that the facts he gives will be of interest to the people of Sunderland, I append to this report a copy of his report to the Commission. The reports of the Supervisor of Music and of Drawing also follow this report, as well as the usual statistics of attendance.

In conclusion, I wish to thank the members of the School Committee for the kindly interest they have taken in the work of the school this year, and I would express to the teachers my appreciation of their unfailing loyalty. In behalf of the teachers and for myself, I would earnestly invite all those interested in the welfare of the children in town to
visit the school and see for themselves the work that is being done. Respectfully submitted,

Myron J. Willson,
Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC.

Mr. M. J. Willson:

Dear Sir:—Music this year has had its usual list of ups and downs which is to be expected and is all right provided the list of ups overbalances the other.

More attention has been given the purely technical side of the subject and more written work has been done than heretofore, beginning with the first year pupils where particularly gratifying work has been obtained. The written work combined with oral tonal dictation, that is, the recognizing by the child of certain groups of tones sung by the teacher, has occupied a prominent place and has given a strong foundation for the second year work.

In the eighth and ninth grades it is hoped before the end of the year to use four part music.

Between these extremes is earnest effort and pleasing results. I speak for all the teachers I am sure, when I invite the parents and friends of the children to visit the schools thus seeing for themselves what is being accomplished.

Respectfully submitted,

Belle Bullis,
Supervisor of Music.

REPORT OF SUPERVISOR OF DRAWING.

M. J. Willson, Supt., of Schools:—

It is impossible in the district school to give in a single year work that is best adapted to individual
grades. Therefore, I have made it my object to take up especially such branches as seem essential, but in which the schools may be least proficient. I have also tried to vary the program by presenting in new terms, yet comprehensive, some of the fundamental principles which by necessity are repeated from year.

The plan seems successful as the results have been satisfactory, and interest on the part of the children is not lacking.

Thanks are due the teachers who have so heartily given their co-operation, and to the Superintendent whose support I gratefully acknowledge.

Respectfully submitted,

Lusile Gravestein.

Supervisor of Drawing.

REPORT OF THE AGENT OF THE IMMIGRATION COMMISSION.

THE SCHOOLS.

The public school system of Sunderland is unified. There are no scattering schools in the outskirts of the town, but all children come daily to the village, where there is a well organized grade school with five teachers. Three barges, or in the winter sleds, bring the children to school in the morning and take them back in the afternoon. Some use the trolley line at the town's expense. A few young boys and girls attend the high school at Amherst, their transportation being provided by the town authorities.

As a large part of the population of the town is foreign, so are many of the school children. They are known locally as Poles, but investigations show them to be members of three more or less kindred races—Lithuanians, Poles and Slovaks. The numbers of each race are of course small, and it is only as a group that we can consider them.

In November, 1908, an examination of the school lists showed the following children in the school:

<table>

<tr>
<td>Grades 5-9,</td>
<td>46</td>
<td>12</td>
<td>58</td>
</tr>
</tbody>
</table>
It may be noted that in the lower grades the "Polanders" are in the majority, but in the upper grades the Americans outnumber them. This is explained in large part by the fact that the foreigners in Sunderland are after all comparatively recent accessions to its population, and their children would naturally be younger than the Americans. Whether this is the only explanation can be seen by comparing the ages of the children of native and foreign origin as in the following statement:

<table>
<thead>
<tr>
<th>Ages</th>
<th>American</th>
<th>Foreign</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>5</td>

<td>34</td>
<td>69</td>
</tr>
<tr>
<td>Ages 10-15,</td>
<td>44</td>
<td>21</td>
<td>65</td>
</tr>
</tbody>
</table>

Now it appears here that while the foreign children are more numerous among the younger children, this preponderance is not so marked as in the consideration of grades. It may well be that the foreigners are in the lower grades because they either did not begin school so soon, or have failed to advance with the same rapidity as the native children.

The ages being very accurately recorded in the Sunderland school, and as our data gives us age in years and months, it is very easy to make an accurate calculation of the average age of pupils in the school.
<table>

</tbody>
</table>

Except in the 8th grade, where there is only a single child of foreign parents, it is seen that the foreign children are throughout older than the native children in the same grades.

If we compare age with progress, the general result is quite satisfactory. Current discussion of educational matters has emphasized the fact that a child 8 years of age or over in the first grade is over age, is above the normal age for that grade, and is a “backward” or “retarded” pupil. In Sunderland the 134 pupils are divided into grades and ages as shown in the following table, where a heavy line separates those children who are above normal age from those who are of normal age or less.

**Ages and Grades of Pupils.**

**Total,** | 33 | 20 | 13 | 10 | 14 | 20 | 11 | 8 | 5 | 134 |

**Over Norm. age,** | 4 | 7 | 1 | 2 | 2 | 4 | 0 | 0 | 0 | 20 |
In this table the figures are of course very small and quite inadequate for any study of the pupils of relatively excessive age in each grade. But in the aggregate we find 20 among the 134. Now if we were to pursue the matter further and make separate tables for the American children and those of foreign races, we should find that the 79 American children furnished 5 who were backward and the 55 foreign furnished 15.

These seem, then, to be the effects of the foreign-born population upon the school system. Yet two things must be noted; first, the number of backward children is not excessive, though it is probably larger than it would be without the presence of the foreigners; second, the difference between the foreign children and those of wholly American origin are after all slight. The casual observer in the schools sees no differences in the way the children set about their school tasks, and the teachers are not conscious of any notable differences. Careful statistical analysis does, it is true, bring out some points in favor of the American children, which were rather to be anticipated. The significant point to be considered is that the differences are so slight.
SCHOOL CALENDAR.

Spring term, April 5, 1909, June 18, 1909, 11 weeks.

Fall term, Sept. 6, 1909, Nov. 26, 1909, 12 weeks.

Winter term, Nov. 29, 1909, March 11, 1910, 13 weeks.

Spring term, April 4, 1910, June 17, 1910, 11 weeks.
