Chaplin G. Tyler,  "  "  "  "  "  "  "  "  "  "  25 00

Total,  . . .  $1,863 77

Explanation.—The town officers’ services, which are charged to this appropria-
tion, properly belong to the appropriation for the payment of town officers, but that
appropriation having been recommended and based upon the salaries of officers for the
present year only, it was exhausted for that purpose, and the Selectmen were obliged
to draw upon the miscellaneous fund for the payment of these bills, which should have
been presented last year.
Recapitulation.

J. W. Smallcon, for iron, 33 75
G. X. Littlefield & Co., for iron, 12 59
Lead, oil and sundries, 17 04
Use of horse, 3 00
15 days labor at $3.00, 45 00
Railing R. R. Bridge at Greenwood, 17 64
W. K. Perkins for lumber, 1 44

Total expended, $491 29
Balance unexpended, 8 71

$500 00

The foregoing accounts comprise those which have come under the immediate supervision of the Auditors during the year, having been taken from the Auditors' books, and put into a condensed form. The accounts which follow are furnished by the various Town Officers after having been properly vouched for their correctness by the Auditors.

The total amount of orders drawn by the Selectmen is $42,073.72, being an excess of $136.86 over the amount of appropriations, caused by the overdrawal in the Poor Department. The net unexpended balances in the other departments amount to $513.14.

T. J. SKINNER, 
FREEMAN EMMONS, 
E. E. EMERSON, 
Auditors.
REPORT
OF THE
OVERSEERS OF THE POOR,
For the Year ending April 1st, 1876.

Expenses at the Almshouse.

Paid Joseph Tuttle, Keeper, salary in full, $350 00
For grain, meal and flour, 662 57
  groceries, 552 79
  meat and fish, 513 31

There is due from the town of Orleans for Mrs. Rufus A. Sloan, $60.00.

The increasing number of travelling vagrants has required the fitting up of an additional room in one of the outbuildings, at a cost of about thirty dollars, which has been charged to the account of repairs on buildings, whilst as a sanitary measure, brick vaults at a cost of eighty dollars have been constructed. The health of the inmates has been generally good, but one death having occurred during the year, that
of a nameless waif whose home for a few days was at the Almshouse. The number of tramps has increased from four hundred and twenty-nine in 1874-5, to four hundred and ninety in 1875-6; and the actual cost for lodgings and meals for these vagrants cannot be less than two hundred dollars.

Respectfully submitted,

JAMES OLIVER, DANIEL G. WALTON, CYRUS N. WHITE, } Overseers of Poor of Wakefield.

\[ \text{\textbf{Total: } } 1,890 50 \]
The Board of Selectmen would respectfully present to the town the following report upon the various matters that have been referred to them by vote of the town; also a condensed summary of the more important matters of public interest upon which they have taken action during the year.

**Town History.**

At the last annual town meeting, various propositions for reducing the price of copies of the Town History were made and rejected, therefore the Board have supplied such demand as there has been for the book at the original prices fixed by vote of the town. But six copies have been sold during the year, leaving seven hundred and fifty-three copies on hand. We have no special recommendations to offer in regard to the disposition of this property, but trust that the town will take wise action thereon.

**Chestnut Street Crossing.**

In compliance with instructions from the town, able counsel were employed to defend the suit brought by the Boston & Maine Railroad Company to recover from the town the expense of erecting and maintaining the gate at the above named crossing, and for salary of Gate Keeper. The case had been fully prepared for trial by the counsel for the town, who were confident of a decision in their favor, but the day previous to the time appointed for a hearing before the January term of the Superior Court for Suffolk County the Boston & Maine Railroad withdrew their suit. Thus endeth this lesson. It has been a somewhat expensive one to the town, but we trust not without profit to all parties interested.
Lighting Town Hall.

We were authorized, by vote of the town, to make such alterations in the manner of lighting the Town Hall as seemed for the interest of the town, with a view to effecting a saving in the expense for gas.

In October last the alteration was made by removing the four circles, containing fifty-one burners each, and putting in one centre fixture with fifty-two burners and a reflector, and eight new burners in the galleries, giving one hundred and forty-four less burners than before. During the five months that have elapsed since the change was made, the expense for gas has been $138.60 less than for the same months of the previous year, the Hall having been lighted nearly as many hours. The whole cost of the alterations was $270.66.

Gravel Pit New Salem Street.

The claim of Joseph Connell for additional compensation for land taken by the town for a Gravel Pit on New Salem street, was "referred to the Selectmen with discretionary powers," by vote of the town. On the 7th of July, 1875, a hearing was given to the parties interested, and after due consideration the Selectmen voted to allow Messrs. Connell and Kirk, the owners of the land, $37.50 additional compensation; this award was accepted, and a receipt in full for all claims against the town on account of the above named Gravel Pit was given.

Claim of Ellen Regan.

This claim being for compensation for land taken by the town to widen Highland Street, was also "referred to the Selectmen with discretionary powers." A hearing was given July 7th, and the Board subsequently voted not to allow the claim.

Claim of John B. Atwell.

Article 31 of the warrant for the last annual meeting, "to see if the town will refund to John B. Atwell a portion of the taxes paid by him upon his estate on Prospect street,"
was "referred to the Selectmen with discretionary power."

The subject matter of this article has been carefully considered by the Board, and we would respectfully report, that, in our opinion, the assessment made upon the estate of John B. Atwell on Prospect street was just and fair, and that the town ought not to refund any portion of the taxes paid by the said Atwell upon said estate.

R. L. G. ARMORY.

It will be seen by reference to the Town Reports for 1874-5 that the Selectmen paid to Capt. J. M. Cate for rent of Armory for 1874, one hundred dollars more than was returned by the State. This payment (of $400) was made upon the supposition that the State would allow that amount. When it was discovered, at the beginning of the present municipal year, that the State had returned to the Town Treasurer but $300, it was mutually agreed between the Selectmen and Capt. Cate that the amount overpaid for 1874 should be deducted from the amount due for rent for 1875, and the Board feeling confident, from representations made to them, that the State would allow $400 for the year 1875, paid to Capt. Cate $300, in the expectation that the previous overpayment would thus be balanced. But as the State have finally decided to pay but $308, there now remains a balance of $92, in which sum Capt. Cate is indebted in the town.

TAX COLLECTOR.

Mr. Abel F. Hutchinson was chosen to the office of Tax Collector, at the last annual town meeting, but failed to furnish a Bond for the faithful discharge of the duties of the office as required to do by the provisions of sec. 72, chap. 18 of the General Statutes; therefore the Board of Selectmen, on the 23d of August last, appointed Mr. Otis V. Waterman Collector pro tempore. Mr. Waterman furnished a satisfactory Bond and entered upon the discharge of his duties at once, his compensation being fixed at one per centum of the gross amount of the taxes collected by him.
Liquor Licenses.

On the first of May, 1875, the License Law, so called, went into effect, and numerous applications were made to the Board for licenses to sell spirituous liquors under the provisions of the law, but for reasons which have seemed to the Board good and sufficient all such applications have been refused, with the exception of that of Dr. J. D. Mansfield, who applied for a license of the fourth class, to sell spirituous liquors for medicinal and mechanical purposes, which was granted. For this license the minimum fee of $50 was paid to the Town Treasurer.

Claim of James French.

Acting under instructions from the town, the Selectmen came to a mutual agreement with Mr. French that his claim for reimbursement for moneys paid for certain tax titles, and for certain expenses connected therewith, amounting to about $500, should be submitted to George Wm. Phillips, Esq., as Referee. Hearings were had, both parties being represented by counsel, and the decision of the Referee was that the town should pay to Mr. French the sum of $185. This award is now pending in the Superior Court for Suffolk County on objections by counsel for the town.

Water Street Bridge.

At a town meeting held November 2d, 1875, the Board of Selectmen were instructed to repair the above named bridge and put it in a safe condition. The Board have not yet acted upon their instructions for the reason that we find the bridge to be in a safe condition and not needing repairs. In our opinion, the trouble, which the person who caused the article under which the above mentioned action was taken to be placed in the warrant, wishes to remedy, is wholly caused by obstructions in a part of the water-course situated on private land, and over which we have no control.
Claim of David Flanders.

This claim, which has caused some trouble and expense, originated from the refusal of the Board of Engineers to approve a bill of Mr. Flanders for services as steward of the Yale Engine Company, amounting to $32. The Board of Selectmen having been notified by E. A. Upton, Esq., Attorney for Flanders, that unless the bill was paid a suit would be brought against the town to recover the amount, took the matter into consideration at the regular meeting, November 18th, 1875. The Board of Engineers then stated their reasons for refusing to approve the bill, chief among which was the reason that, in their opinion, Flanders had charged for labor which had not been performed. In compliance with the unanimous decision of the Board of Selectmen an offer of settlement was then made through Mr. Upton, upon the following terms, viz.: To pay David Flanders twenty-five dollars in full satisfaction of his bill; or, should he refuse this sum, to refer the matter in dispute to any three disinterested persons; Flanders to choose one, the town to choose one, and these two to choose a third, the decision of the three to be final. This proposition was not accepted, and suit was brought in the Municipal Court for this District. The Selectmen deeming it to be for the interest of the town that the suit should be properly defended, and as there was not sufficient time in which to call a town meeting, employed Messrs. Eaton & Hamilton as counsel for the town. Before a decision was given by the Court, the counsel for the plaintiff withdrew the suit. The action has again been brought in the same Court; and, as we understand, is to be tried before a jury; but as the time set for trial is subsequent to the time for holding the annual town meeting the matter will be brought before the town for their action.

Fire Engineers.

During the progress of the before mentioned trial it was discovered that the Board of Engineers had been illegally chosen. This fact having been brought to our notice, at a
regular meeting of the Board held January 27th, Messrs. John W. Jenkins, Andrew J. Hutchinson and John H. Emerson were appointed Engineers of the Fire Department, to serve until May 1st, 1876, or until their successors are appointed.

**New Salem Street.**

The County Commissioners, together with the Selectmen, having viewed New Salem Street on the 23d of June, 1875, and said County Commissioners having then and there accepted said street, the Selectmen, at a regular meeting held June 24th, 1875, voted to accept the street from the contractor, Mr. G. W. Aborn, and to relieve him from further liability under his contract. The final payment to Mr. Aborn of $999.00 was made as follows: $940.98 being the unexpended balance of the original appropriation of $5,000—turned over to the chairman of the Board of Selectmen by Richard Britton, Esq., Treasurer of the Board of Road Commissioners—paid June 24th, 1875, and the balance due, $58.02, drawn from the miscellaneous appropriation and paid July 1st, 1875. In compliance with a vote of the town, passed at a meeting held November 2d, 1875, the street was "closed for repairs," and so remains to the present time. In our opinion the best interests of the town demand that some action should be taken for opening the street to public travel and making it safe therefor.

**Highway Department.**

In consequence of the office of Road Commissioners having been abolished by vote of the town at the last annual meeting, many of the duties that previously devolved upon that Board, have been discharged by the Selectmen. At a special meeting of the Board, held May 1st, 1875, the amount raised and appropriated for repairs of highways and bridges ($4,000) was apportioned as follow, viz.:
Centre District, $840 00 (9 miles of streets.)
North " 525 00 (5 " " )
East " 400 00 (5 " " )
West " 795 00 (8 " " )
South " 570 00 (5 " " )
Woodville " 370 00 (4 " " )
Reserved to pay highway bills of last year, 500 00

Total, $4,000 00

On the same day a written notification was forwarded to each of the Highway Surveyors, giving the amount apportioned to his District, calling attention to the laws governing the expenditure of the same, and recommending that ten per centum of the amount be reserved to defray the expense of removing snow; a list of the streets assigned to each district was also given to the Surveyor, and blank Monthly Pay Rolls upon which a detailed account of all expenditures made, with vouchers therefor, could be kept, and the same having been duly sworn to before a Justice of the Peace, presented to the Selectmen for payment at the first regular meeting in each month. This system of accounts has been adhered to by the Surveyors, and has we think been satisfactory to all parties.

**Summer Street.**

Acting upon a proper petition of citizens of the town, a duly notified public hearing having been given, the Selectmen reported to the town at a meeting held November 2d, 1875, in favor of laying out the new town way now known as Summer street. This report was accepted and adopted, $400 being appropriated to build said street. The contract for building the street was awarded to Messrs. E. F. Sweetser and Ezra Gowing, they being the lowest bidders at $297. This contract is not yet fulfilled.

**Orchard Street.**

The report of the Selectmen for laying out the new town way now known as Orchard street having been made and
acted upon at the same time and in the same manner as in the previously mentioned case, and $200 having been appropriated to build said street, the contract was awarded to Joshua White, he being the lowest bidder, at $190. This street has been built in a satisfactory manner and accepted from the contractor.

COTTAGE STREET.

This street was laid out at the same time and in the same manner as the two previously mentioned, and $500 appropriated to build it. Patrick Kenney, being the lowest bidder, was awarded the contract for building the street at $349. The street is now in process of construction.

OTIS STREET EXTENSION.

The Selectmen also gave a duly notified public hearing on Sept. 25th, 1875, to the petitioners for laying out a new town way over the private way now known as Otis Street Extension, and after due consideration, decided not to report in favor of laying out the street as petitioned for.

GREENWOOD STREET.

On Sept. 25th, 1875, the Selectmen gave a duly notified hearing to the petitioners for widening and straightening Greenwood street, but, as the only plan proposed at this hearing for improving said street seemed to the Board so entirely unreasonable and uncalled for, either by the citizens of that portion of the town (with one or two exceptions) or the public in general, and as any widening and straightening of the street would necessitate a large expenditure of money, the Board voted unanimously not to report the proposed alterations to the town.

Article 8th, of the warrant for a town meeting held Nov. 2d, 1875, which was referred to the Selectmen with instructions to report at a future meeting, was as follows viz.: "To see if the town will instruct the Selectmen to widen and straighten Greenwood street, giving them authority to employ
a Civil Engineer for that purpose, or what action they will take in the matter."

In accordance with the vote of the town, the whole matter was again considered by the Selectmen, and we would respectfully offer the following

**Report:**

In our opinion the proposed widening and straightening of Greenwood street ought not to be made.

**Railings Dangerous Portions of the Highway.**

At the last annual town meeting $500 was appropriated for railing streets. This has been expended by the Board in railing such portions of the highways as in their judgment were most dangerous. For a detailed account of the expenditures in the various matters reported upon, reference should be made to the auditor’s report.

" " " Horses " " 264
" " " Cows " " 205

Amount of Real Estate held by religious societies, and exempted by law from taxation, $144,500

Respectfully Submitted,

EDWARD MANSFIELD, DAVID PERKINS, ROBERT L. MURKLAND, Asseors of Wakefield.

Wakefield, March 3, 1876.
ENGINEERS' REPORT.

We herewith submit our Report of the Fire Department for the year ending March 2d, 1876.

FORCE AND CONDITION OF THE DEPARTMENT AND APPARATUS.

The Department consists of a Board of three Engineers and 132 Members divided as follows: One Hand Engine Company, Yale No. 1, 50 Men; one Hand Engine Company, C. Wakefield No. 2, 45 men; one Hook & Ladder Company, Washington No. 1, 25 men; one Chemical Engine Company, Chemical No. 1, 12 men; and one four-wheeled Hose Carriage. All the apparatus is in good condition at the present time. We have added to the Department, the past year, two hundred feet of two-inch linen hose, which we think is much superior to the two and a half inch hose.

There is at the present time belonging to the Department, 2500 feet of leather hose in good condition, and 250 feet of linen hose, which is not safe for hard service, except the two-inch linen hose purchased the past year.

FIRES AND ALARMS.

The losses during the past year have not been as heavy as the previous year. The Department were called out to thirteen alarms, five of which were working fires. The total amount paid by insurance companies was $2,530. Following is the list of fires and alarms for the year ending March 2, 1876: —
July 2. House on Melvin Street, owned by the John Caby estate. Loss $780. Insured for $1,900.

July 24. House on Hart Street owned by Dr. Jordan. Loss $75. Insured $2,000.

Sept. 3. Alarm caused by burning brush near Ice Houses.
Sept. 27. Alarm from Reading.
Dec. 3. Alarm from Stoneham.

Jan. 18, 1876. Alarm from Stoneham.
Jan. 21. Alarm from Woodville, caused by burning brush.
Feb. 11. House on Melvin Street, owned by E. A. Upton. Loss $100. No insurance.

Reservoirs.

Following is a list of Reservoirs and their location: Three on Main street in the centre of the town; one on Salem street, one on Park street, one on Elm street, near the house of James Eustis, one on Lowell street, near the Montrose school house, one on corner of School and Centre streets, (new one), one on Chestnut street, one on Albion street, one on the corner of Herbert and Richardson streets, one on Melvin street, (new one), one on the corner of Main and Oak streets, Greenwood. Also two stations to place engines on, at the east side of the upper lake. Also a reservoir on Crescent street, near Main, belonging to James H. Carter, Esq., which he has given permission to use in case of fire in that vicinity.

We wish to call the attention of the town to the necessity of providing in some manner for an increased water supply for fire purposes in that part of the town west of the Boston & Maine Railroad, also near the Franklin street school house.
In closing our report, we take this occasion to tender our thanks to the officers and members of the Fire Department for the prompt and faithful manner in which they have performed all duties as firemen; to the Board of Selectmen for their respect and courtesy shown the Board at all times; also to the citizens for their assistance rendered the Department the past year.

All of which is respectfully submitted,

J. W. JENKINS, Chief,
A. J. HUTCHINSON,
J. H. EMERSON,

Engineers
of the
Fire Department.

Wakefield, March 6, 1876.
POLICE REPORT.

BY-LAWS

OF THE

TOWN OF WAKEFIELD.

COMMONWEALTH OF MASSACHUSETTS.

Middlesex ss.

At the Superior Court, begun and holden at Cambridge, within and for the County of Middlesex, on the second Monday of December, being the fourteenth day of said month, Anno Domini 1874,

The following By-Laws adopted by the Town of Wakefield, at a legal town-meeting, held on the twenty-seventh day of July, A. D. 1874, were presented to this Court for approval, in Vacation, to wit, on the twentieth day of October last.

OBSTRUCTING STREETS.

Art. 1. No person except the Road Commissioners in the lawful performance of their duties, or those acting under their orders, shall obstruct any sidewalk or street, or any part thereof, or break or dig the ground of the same, without first obtaining a written license from the Selectmen or Road Commissioners therefor; and the person so licensed shall put and at all times keep up a suitable railing around the parts of any sidewalk or street so obstructed or dug up, as long as the same shall be unsafe or inconvenient for travelers, and shall also keep as many lighted lanterns fixed to such railing or fence every night from twilight in the evening through the whole night as the Selectmen or Road Commissioners shall direct.
OBSTRUCTING SIDEWALKS.

Art. 2. Whenever any sidewalk becomes obstructed or made impassable by reason of the erecting or repairing of any building or of doing any work, the persons doing or causing the same to be done, shall place a good and convenient temporary walk around such obstructions.

AWNINGS AND SIGNS.

Art. 3. No awning or sign shall be placed or continued over any sidewalk unless the support and every part of such awning or sign shall be at least eight feet above the sidewalk, without the written consent of the Selectmen, which consent shall state the time such obstruction shall be allowed.

DISORDERLY CONDUCT.

Art. 4. Three or more persons shall not stand in a group or near to each other on any sidewalk in such a manner as to obstruct a free passage for foot passengers for a longer time than five minutes, nor after a request to move on made by any of the Selectmen, Constables or Police Officers of the Town.

Art. 5. No person shall behave himself in a rude or disorderly manner, or use any indecent, profane or insulting language, in any public place in this town, or near any dwelling house or other building therein, or be or remain upon any sidewalk, or upon any doorstep or other projection from any house or other building, so as to annoy or disturb any person or obstruct any passage to the same. And every person so being or remaining as aforesaid, when ordered by any constable, police officer, watchman, or by the owner or occupant of any building, shall immediately peaceably depart and stay away therefrom.

DRIVING ON SIDEWALKS.

Art. 6. No person shall ride or drive unnecessarily on any of the sidewalks of any street, nor allow his horse or vehicle to remain upon a sidewalk a longer time than five
minutes together, except by permission of the Road Commissioners.

INJURY TO TREES.

Art. 7. No person shall tie or fasten any horse, cattle or team to any of the trees planted in any public highway, street or public lands in this town, nor drive into the same any nails, spikes, hooks or staples, nor affix any signs thereto.

PASTURING CATTLE.

Art. 8. No person shall pasture any cattle or other animals in any of the streets of the town with or without a keeper.

OBSTRUCTING CROSS-WALKS.

Art. 9: No person shall permit or suffer any horse or other animal, carriage or vehicle of any description, belonging to him, or under his charge, to stand or stop upon any cross-walk in this town for any purpose, except the taking up or setting down of passengers, or for a longer time than shall be necessary for such purpose.

MARKET STANDS.

Art. 10. No person shall stand for the purpose of effecting sales or for feeding of teams, upon any of the streets of the town, next to any private dwelling place, with wood, hay, produce, meat or other products of the farm for sale, nor near to any other building when objection is made by the owner or occupant thereof, provided that any such persons for the aforesaid purpose may occupy that portion of the streets next to any vacant public grounds, and that this by-law shall not apply to casual calls upon families occupying private dwellings.

FAST DRIVING.

Art. 11. No owner or person for the time being having the care or use of any horse or other beast of burden, carriage or draught, shall ride, drive or permit the same to go
at a faster rate than nine miles an hour in any street, way or public place in this town.

NUISANCES IN THE STREET, ETC.

Art. 12. No person shall place, or cause to be placed in any public street or way of this town the contents of any sink, cesspool or privy, nor place any rubbish or garbage in the same, except for the purpose of immediate removal therefrom.

Art. 13. No person shall throw a carcass of any animal into any of the ponds, streams or waters within the limits of this town, or suffer or leave any such carcass to decay on the surface of the ground, or to be insufficiently buried therein, near any building, street or public way or place.

Art. 14. No person shall at any time whatsoever carry into or through any public street, any contents of any sink, cesspool or privy in any vehicle which shall not be effectually covered and water tight, nor suffer the same to remain standing unnecessarily in any such street, nor remove from their premises the contents of any cesspool or privy between the hours of six o'clock in the morning and six o'clock in the evening, unless by the written consent of the Selectmen or Board of Health.

DEFACING FENCES, ETC.

Art. 15. No person shall make any marks, letters, or figures of any kind upon any wall, fence, post, tree, building, or structure, without the permission of the owner thereof.

FIRE ARMS.

Art. 16. No person shall fire or discharge any gun, fowling piece, pistol, fire arm, or set fire to any materials known as fire works, or other combustible matter, or throw any such lighted fireworks in any of the streets or avenues of this town.

BONFIRES.

Art. 17. No person shall make any bonfire or other fire in any of the streets, avenues or public ways of this town.
COASTING.

Art. 18. No person shall coast in any of the streets or public walks of this town.

BATHING.

Art. 19. No person shall bathe or swim without personal covering, in any public or exposed place in this town.

BALL PLAYING.

Art. 20. No person shall throw stones or other heavy missiles, nor play at base ball or foot ball within any of the public streets or public grounds of this town without permission of the Selectmen first obtained.

PENALTIES.

Art. 21. Every violation of any of the foregoing by-laws shall be punished by a fine of not less than two dollars, nor more than twenty dollars, to be recovered by complaint before any District Court or any Trial Justice of juvenile offenders in the County of Middlesex.

DISPOSAL OF PENALTIES.

Art. 22. All penalties recovered for the violation of either of the foregoing by-laws shall be paid into the Treasury of the town to such use as the town, from time to time, shall direct.

Special By-Laws of the Town of Wakefield, concerning Truant Children and Absentees from School.

Section 1. Any minor between the ages of seven and fifteen years, convicted of being an habitual truant, or of wandering about in the streets and public places of this town having no lawful employment or business, not attending school, and growing up in ignorance, shall be committed to any institution of instruction or suitable situation to be provided by the town, or provided by law, for the purpose, for
such time not exceeding two years as the Justice or Court having jurisdiction may determine. Any minor so committed may upon proof of amendment, or for other sufficient cause shown upon a hearing of the case, be discharged by such Justice or Court.

Sect. 2. Justices of district courts, trial justices for juvenile offenders, and judges of probate within and for the County of Middlesex, shall have jurisdiction of the offences described in Section one.

Sect. 3. The School Committee of the Town shall appoint and fix the compensation of two or more suitable persons, to be designated as truant officers, who shall, under the direction of said committee, inquire into all cases arising under these by-laws, and shall alone be authorized, in case of violation thereof, to make complaint and carry into execution the judgment thereon. The compensation of such officers shall be paid from the treasury of the town.

Sect. 4. It shall be the duty of the School Committee and of the Superintendent and Teachers of the public schools to report the names of any person or persons violating the provisions of these by-laws to the truant officers of the town.

PROSECUTORS AND COMPLAINANTS.

Art. 23. It shall be the duty of the Selectmen, Constables, Police Officers and Watchmen, to prosecute every violation of the foregoing by-laws, by complaint as hereinbefore mentioned. All prosecutions shall be commenced within three months of the violation of the by-law.

And afterwards, to wit: at this present term of said Court, viz: on this twenty-third day of February, A. D. 1875, said By-Laws, being seen and understood by the Court, are approved.

In testimony that the foregoing is a true copy of record, I hereto set my hand and affix the seal of said Superior Court, this thirty-first day of March, A. D. 1875.

THEO. C. HURD, Clerk.

CHARLES F. HARTSHORNE,
Town Clerk.
In presenting their annual report, the Committee take pleasure in saying that the interests confided to their care have received much attention, and are believed to be in as good condition as, from the means afforded them, the citizens of the town could well expect.

They gladly bear witness to the fidelity of the teachers, to the general obedience and studiousness of the scholars, and to a good degree of co-operation on the part of parents. Few difficulties have arisen during the year either from discipline, or sickness, or loss of teachers, or any other cause; and progress in study has been uninterrupted.

Grading.

One of the difficult questions with which a School Committee in a town like ours has to deal, relates to the grading of the schools. On the one hand, it is desirable to gain the advantage that comes from system; and on the other, it is desirable to escape the evils that come from running the schools in one mould. The best results of education are lost, both when the course of education does not follow some defined and settled plan; and also when a plan is followed so closely, and with such attention to details, as to make the procedure mechanical and formal.

With the increase of scholars, it is, of course, necessary to introduce more systematic methods, and establish more minute and careful grading. The risk of making the schools more formal—more like pieces of mechanism, which may,
indeed, work beautifully to the spectator, but, after all, result in the loss to the pupils of individuality and wholesome ambition—is increased thereby. The more minute the grading, the more uniform will be the impression upon the minds of the children. The teacher, when expected to impart instruction upon but few things, will be likely to contract habits of speaking and drilling that will, unconsciously to herself, have a mechanical effect.

The concert exercises, and the necessary confinement of all the scholars to small rounds of exact duties and the unvarying daily routine, do have a tendency to assimilate minds to each other, and give a shade of truth to the remark that the graduates of our highest public schools resemble each other as closely as so many peas. It is not possible wholly to avoid evil effects of this nature. The number of scholars in public schools make it inevitable that there should be system more or less exact, and all must, to some extent, come under the system.

The Committee, however, have endeavored to adjust, so far as they could, the demands made upon scholars to peculiarities of mind, and to the varying circumstances of the pupils—such as frail health, or necessary absence for various reasons. We are reluctant to consent to the dropping of any study laid down in the course of study; yet we are not blind to the fact that it is better to keep a scholar in school, though some study be omitted, than to drive him from school by compelling him to go through a certain unvarying course. Indeed, whatever variations from the general system it seems wise to sanction in particular cases, we are always ready to approve.

We also highly prize that versatility in teachers which enables some of them to break up monotony, and arrest the evil effects of mere mechanical attention to duties, by introducing variety in exercises, and awakening, by various means, the curiosity and natural love of inquiry of scholars.

The grading of our schools has, within a few years, undergone modifications. Children entering the Centre Primary School, No. 1, at the age of five, spend one year in each of
seven schools, and at twelve reach the Advanced Grammar School. In the Ward schools the grading must be very different. The West Ward and the Franklin Street schools are the only others in which more than one grade is possible, and these have but two. The Montrose and North Ward schools are large, but not large enough to be divided.

To those persons who think highly of minute grading, this will appear to involve misfortune to the scholars in the outer Wards; but the evil is not an unmixed one. If those pupils do not have the advantages of close grading, they do not suffer from the evils of it; and, so far as our experience has yet gone, we find that when scholars reach the Advanced Grammar School, the advantage of the superior grading of the Centre schools, though perceptible, is not so great as it might be expected to be. Competent teachers in the outer Wards, with all the disadvantages of inferior grading, furnish about as good material as those of the Centre schools.

Occasionally, a class of superior excellence will come up through the grades of the Centre schools, and, being large, and having been associated together for some time, and become emulous of each other, will throw into the shade, for the time, scholars who have come in by twos and threes from the outer wards; but after a year or two real excellence finds its level, and at graduation little difference can be discerned.

In the High School some option is allowed to the scholars in the choice of studies. Formerly, all were expected to pursue the same branches; but experience has taught us that, as some scholars cannot become interested in, and will never want to pursue, certain studies,—Latin for example,—it is not wise to insist that they shall devote time to them. There are, therefore, practically, three courses of study in the High School—an English course, a mixed course, and a classical course. With the present teaching force in the school we have allowed scholars to choose their studies to an extent quite as great as is wise. The more studies, with a given teaching force, the less time can be spent upon each. Did we deem it best to employ another assistant in the school we could meet more fully the wish of some parents to have
their children study only such branches as, in their view, would be useful. In consideration, however, of the cost of the High School as compared with that of other schools in town, we are not satisfied that it would be just to expend a larger sum in sustaining it. At the same time we are confident that the best interests of the school, judged by itself, would be promoted should we add to the teaching force employed in it.

The Schools.

The year has been one of continued prosperity. The teachers have, without exception, labored diligently and successfully. The schools are large, and some of them difficult; but the Committee have found very little to reprove or correct. It is deemed a matter for congratulation that so few changes have occurred during the year. The influence and the skill which experience and continuance in the same school give a teacher, are of great value to the school and to herself. The question of transferring a teacher from one school to another, or of promoting a teacher, sometimes comes before the Committee; but it is one which, if a teacher is successful in the place she already fills, they never like to consider.

At the same time, they are not unmindful of the fact that a teacher who has proved her fidelity and ability by years of successful service, has some claim to that recognition of her services which advancement to a more responsible post gives. Circumstances, however, have not, for some time past, given that opportunity for showing such recognition, which, were the teachers less permanent, would be given. While, with so few exceptions, the teachers meet our wishes by remaining at their posts, there is opportunity neither to appoint teachers from without, of whom we think well, nor to promote those already in our service.

One teacher whose departure from us was much regretted, Miss Abbie F. Nye, resigned her post in January. She was a very valuable teacher, and by her faithful labors during eight years as assistant in the High School, did much to
make its instruction thorough, and its influence elevating. She carried with her to her new sphere the sincere respect of the Committee, the high regard of the Principal, and the affection of many pupils. Her resignation was tendered in the middle of a term, when it would be altogether unwise to transfer to her place any teacher already employed, and Miss Eliza M. Greenwood was appointed temporarily to fill the vacancy. Her success, however, induced the Committee to continue the appointment.

We do not think it necessary to pass the schools in review, and point out what we might deem the special excellences or defects of each. No brief remarks would convey any very valuable information regarding them.

It is a standing regret of the teachers that so few parents visit the schools, and learn for themselves concerning the difficulties of which complaint is sometimes made, and consult with them regarding the best method of controlling those inclined to be unruly, and awakening the ambition of those who are inattentive and dull. With this regret the Committee sympathize. It is not difficult to understand how it happens that parents leave the schools almost wholly to the teachers and the Committee; but the evil flowing from such neglect is very great. Parents have no higher duty than that which relates to the training of their children. Teachers are their assistants in this matter, and the parent and the teacher should have a common understanding about the methods to be pursued, and ends to be aimed at.

Often does the remark reach the ear of the Committee, "The teacher does not understand my boy." How should the teacher understand your boy? Have you ever talked with her about his temperament and other peculiarities? The child has been under your eye from infancy. You know all about him—his failings and his excellences—and could, if you would take the time to do it, put the teacher in possession of points that, perhaps, the child, in his natural timidity, would conceal from her for years. To say nothing of many irritations which intercourse between parents and teachers would allay, it is quite certain that it would give the
teachers great advantage in all efforts to awaken the interest of the children in studies.

SINGING.

In the wish to reduce expenses, it was determined, a year ago, to dispense with the services of the teacher of Music. Some of the Committee consented to the measure with great reluctance, while none wished that instruction by a special teacher in that branch should be permanently discontinued. It does not admit of doubt, that there will be serious loss if no such teacher is employed. The effect of the instruction of the former teacher, Mrs. Grover, yet remains; but many of our teachers have far too little acquaintance with the best method of teaching music, to permit the hope that they can keep the schools at the point of excellence at which they now are. A competent teacher could be secured at considerably lower rates than those formerly paid; and our conviction is very decided that the grant for schools the coming year should be sufficiently large to enable the Committee to employ such a teacher.

As will be remembered by many, a highly successful concert, under the direction of Mrs. Grover, was given by several hundred scholars in the Town Hall, last summer.

The pleasure and surprise which the attainments in music, of very young scholars, then occasioned, are not yet forgotten; and many families would deem it a great misfortune if regular instruction by a special teacher were not renewed.

Graduation.

The closing exercises of each class, on leaving the High School, are becoming more and more matters of general interest to the public.

This is, of itself, excellent testimony to the valuable results reached by the education provided by the town. It is no slight proof of thoroughness in study, and acquaintance with good methods of expressing thoughts, that young persons of the age of those graduating at our High School can present to our intelligent people so attractive entertainments. If criticism and complaint regarding our schools were common—
as, happily, they are not—it would be a ready answer to them to point to the results year by year presented for the judgment of all capable of judging. We do not challenge comparisons between our High School and Academies or endowed schools; and yet the actual ends attained by us are not inferior to those reached in many schools of such character. All graduating classes are not equally large or equally intelligent; but it is a matter for congratulation that every class is a good witness to the liberality of the town, and the fidelity of teachers.

The graduating exercises of the last class were held in the Town Hall, June 30th, in the presence of a large audience. Rev. Wm. F. Potter, then Chairman of the School Committee, presented the diplomas.

Graduates of 1875.

Frank F. Cutter, Susie D. Turnbull,

George A. Tyzzer.

School Houses.

It was said in the last report that the condition of the school property was such that but little money for repairs would be required; and, as a matter of fact, little has been expended. Much attention, however, has been paid to many matters about and within the houses; and, in respect to most of the buildings, the remark made for the past year will be true for the coming one. One or two of the buildings, however, will need the expenditure of more money than they required last year. The means of heating some of the rooms have been changed—coal stoves taking the place of those suitable for burning wood. The janitors have faithfully performed their duties, at rates considerably below those paid in previous years. The Committee have changed their method of exercising oversight over school property. Whereas it had been the custom to appoint one member for
each district, at the beginning of the current year a sub-committee was appointed to take charge of all the houses; and the result has been that many things which, under the old system, were overlooked, have received attention and correction.

**Additional School Accommodations.**

The crowded condition of the primary school on Franklin street compelled the Committee to procure another apartment, and establish during the summer months a branch school, which was put under the charge of Miss M. Clara Sweetser, and afterward of Miss M. A. Wiley. With the return of cold weather the number of scholars decreased, and the two schools were reunited, but being very large two teachers were still employed. It has now been several years since this school began to be overrun with pupils, and the evil has continued without abatement. Various methods of relief have presented themselves to the Committee. There is a question of locality connected with the matter. Many of the pupils come from that portion of the town lying west of the Boston & Maine Railroad, and the inquiry has been raised whether the interests of the people living there do not require a school building in their own neighborhood.

The reasons in favor of the plan are:

1. The crowded condition of the schools on Franklin street, and the primary schools in the Centre and the West Ward, making it necessary that additional accommodations should be provided somewhere.

2. The steadily increasing population of that portion of the town.

3. The distance of those families from the public school houses.

4. The danger to which the children are exposed in having to cross three railroad tracks, over which there are not less than fifty trains daily—a danger so great as to lead some families to keep their children at home.

The chief objection to the plan, and the only one that has suggested itself to the Committee, exists in the burden of expense it would impose.
With the desire of ascertaining all the facts in the case, a sub-committee was appointed last year to examine the whole subject, and report. That service was performed; and the committee would then have presented the report to the town, but for their disinclination to advise any farther expenditure of money for school accommodations. The subject, however, has again forced itself upon us, and another sub-committee has been instructed to re-examine it, and their report has been made. The committee desire to refer the whole matter to the town, and having done this their own responsibility will be discharged.

The facts obtained by both the committees above named are condensed, and stated below in brief form:

The whole number of dwelling houses included in the following limits—to wit: Boston & Maine Railroad on the east, Broadway on the south, Town line on the west, and West Chestnut street on the north, is one hundred and five. These houses average two tenements in each, capable of holding, on an average, four people each—eight hundred and forty inhabitants,—representing one hundred and fifty scholars, one-fifth of whom are already provided for in the High and Grammar schools, leaving one hundred and twenty scholars. By actual count, the number of children between four and twelve in the section described is eighty-five.

The discrepancy in the two results is owing, doubtless, to the fact that some dwellings are vacant, as well as to the fact that all computations from the number of dwellings must be inexact. Yet in the prosperity all are looking for, the dwellings will doubtless be filled. Putting the number, however, at the lowest figure, it will not fall below seventy-five, and that seems quite too large a number to crowd into the different schools, or to send across railroad tracks. The attention of the town is invited to the subject.

**Expenses.**

Mindful of the expressed wish of the town, and fully perceiving its wisdom, it has been the aim of the Committee during the past year to keep expenditures at as low a point as was consistent with efficiency in the schools. In most respects we have been successful.
Owing to circumstances over which we had no control, and chiefly the sickness of Mrs. Grover, we were not able to manage the matter of the musical exhibition in such a way as to pay as much as we hoped towards the expense of the new singing books introduced into the schools.

On the whole, however, it was deemed no loss that some of the books should be made the property of the schools; and the benefit of them to the pupils has, probably, compensated for their cost to the town, or certainly will do so.

In one other respect the plans of retrenchment laid last year were not fully met. It was proposed to the Committee, before the last annual meeting, that the school year should be thirty-eight, instead of forty weeks in length. They assented to the proposal; but after thoroughly considering all the reasons for and against the plan, its wisdom seemed to be doubtful, and they returned to the former arrangement. It has been found possible, however, to dismiss besides the Music teacher, two assistant teachers, and one teacher in the Training School, and, without diminishing salaries, to bring expenses within the limits prescribed.

The Committee desire to call the attention of the town to the fact that the schools with two or three exceptions are large; and that only teachers that are above the average in point of ability can be safely intrusted with them. A few hundred dollars saved by such reduced appropriations as would result in the loss of four or five of our best teachers would be money thrown away. A little misplaced economy of this sort would turn the pride we may now justly feel in our schools into shame.

Inasmuch as a Committee has been appointed by the town in part to determine what amount of money will be needed for the schools the coming year, we forbear to make any recommendations.

Number of children between 5 and 15 years of age, May, 1875, 1013.

The School Expenses may be found in the Town Auditors' Report.

The School Calendar is not inserted because of the confusion that a possible change in the length of the school year would occasion. For the dates of the beginning of the terms the Citizen & Banner may be consulted.
REPORT OF THE TRUSTEES
OF THE
BEEBE TOWN LIBRARY.

Twenty years ago a number of gentlemen of liberal culture, and actuated by true public spirit, caused to be inserted in the town warrant an article for an appropriation for the establishment and maintenance of a Public Library in South Reading, and at the annual meeting advocated the measure with strong argument and convincing eloquence; and five hundred dollars were granted by the Town for the beneficent purpose. About the same time the resources of the new Library were largely increased by generous donations of books and money from individuals and organizations.

Our argosy thus fairly launched, entered at once upon a voyage of usefulness and glory, and richly freighted with the additions of successive years, not only flaunted its flag of Freedom and Intelligence on the breezes of general prosperity, but through billows of bankruptcy, the squalls of panics, and the unwholesome calms of business stagnation, its worth amid prevailing fear and disaster becoming even more conspicuous, with ensign "still full high advanced," has unloaded its precious stores of knowledge and entertainment to a hungry and appreciative population.

May our good Ship of Books, wafted by soft zephyrs, or blown by prosperous gales, still sail on and on through seas of popular favor, until in the world's Millenium it shall furl its sails by an Elysian shore, "whose waters are amber and whose sands are gold."

Twenty years is not a long period of time, but it has proved long enough to bring a generation of shouting school-boys forward into the front ranks of "men the workers,"—long enough to increase the number of books in our Library six-fold,—long enough to cover from sight, though not from memory, the form of many a good and trusted friend of the Beebe Town Library. The survivors of that earlier company,
who in eighteen hundred and fifty-six stood sponsors for the infant institution, with no lack of ready recruits from another generation, must close up the ranks and occupy, though they may not fill, the vacant places, until the summons comes to follow.

No events of special significance affecting the Public Library, have occurred during the past year, but it has continued to be a centre of good influences, radiating to every part of the town.

The sage remark of old Polonius, "Neither a borrower nor a lender be," is not highly esteemed among the friends and patrons of the Library. We prefer the remark of Burke, "He that borrows the aid of an equal understanding, doubles his own; he that uses that of a superior, elevates his own to the stature of that he contemplates."

To borrow still further, "Books are the true levellers. They give to all who will faithfully use them the society, the spiritual presence, of the best and greatest of our race. No matter how poor I am, no matter though the prosperous of my own time will not enter my obscure dwelling, if the Sacred Writers will enter and take up their abode under my roof, if Milton will cross my threshold to sing to me of Paradise, and Shakespeare to open to me the worlds of imagination, and the workings of the human heart, and Franklin to enrich me with his practical wisdom, I shall not pine for want of intellectual companionship, and I may become a cultivated man, though excluded from what is called the best society in the place where I live."

We quote once more, and this time it shall be from the English Fox: "Nothing is more delightful than to lie under a tree, in the summer, with a book, except to lie under a tree, in the summer, without a book."

A brilliant writer has lately printed a volume and devoted one chapter to the "Abuse of Reading," wherein is much wisdom, and given up another chapter to abusing Town Libraries, intimating that their shelves contain a small proportion of valuable and useful books, and that the youth of towns, to a large extent, weaken and debase their minds by exclusive reading of such books as "Mrs. Fanny Firefly's
highly seasoned love stories for girls, and Mr. Samuel Sensation's boy-novels, and spiced preparations of boned history, which are got up, like the port-wine drops of the confectioners, to tempt and to sell."

In behalf of our Library, and in behalf of our people, we resent and repel an insinuation so unfounded. While freely admitting the great popularity of the story-tellers, and regretting that our taste is not more cultivated and refined, we are sure our purchasers and borrowers have exercised a much better and wiser discrimination than the author above quoted would have his readers believe.

The Trustees recommend that two hundred dollars, in addition to the dog-taxes, be appropriated for the maintenance of the Library the ensuing year.

"And here, to-day, the dead look down,
The kings of mind again we crown;
We hear the sage's word: we trace
The foot-prints of our human race.

Here Greek and Roman find themselves
Alive along these crowded shelves;
And Shakespeare treads again his stage,
And Chaucer paints anew his age.

As if some Pantheon's marbles broke
Their stony trance, and lived and spoke,
Life thrills around the alcoved hall,
The lords of thought await our call."

AUDITORS' CERTIFICATE OF EXAMINATION.

The Auditors in fulfillment of their duties, herewith present to the Town the reports of the various Town Officers, and would certify that they have examined the accounts of such officers as have had charge of expenditures or collections of moneys, and find them correct and properly vouched for.

(Signed)

T. J. SKINNER,
FREEMAN EMMONS,
E. E. EMERSON,

Auditors.
