

Massachusetts Grade 7 Immunization Survey Results 2013-2014

The Massachusetts Department of Public Health Immunization Program is pleased to make available the 2013-2014 Massachusetts grade 7 immunization survey results by school. Please be aware that the data are limited in a number of ways, including those listed below.

- Data release standards do not allow for data to be shared for schools with fewer than 30 reported students in grade 7. Schools that reported fewer than 30 students in grade 7 are indicated (†).
- Not all schools return their survey. Schools without data due to non-response are indicated (*).
- Data were collected in the fall, but immunization data are often updated throughout the year and rates (during the same school year) may be higher than reported due to additional children receiving immunizations or bringing records to school. Also, the student body is dynamic and as students arrive and leave school, the immunization rates are impacted.
- Children are allowed a medical or religious exemption to one or more vaccines.
- Children without the required number of doses of vaccine do not necessarily have an exemption on file.
- Children without a record of vaccination, but with serologic proof of immunity to certain diseases (measles, mumps, rubella, hepatitis b and varicella), meet school entry requirements, but may not be counted as vaccinated.
- All data are self-reported by the schools and discrepancies may exist. The Immunization Program continues to work with schools to resolve discrepancies and update immunization data, when possible.

Data definitions:

*	School did not respond to survey
†	School reported fewer than 30 total students, so data cannot be released
2 MMR	2 doses of MMR (measles, mumps and rubella) vaccine
3 Hep B	3 doses of hepatitis B vaccine
Immunity to Cpox	2 doses of varicella vaccine or a reliable history of chickenpox disease
Tdap	1 dose of Tdap (tetanus, diphtheria, and pertussis) vaccine
Exemption	Medical and religious exemptions combined

- * Indicates school did not respond to the survey
- † Indicates school reported fewer than 30 total students, so data cannot be released
- 2 MMR** 2 doses of MMR (measles, mumps and rubella) vaccine
- 3 Hep B** 3 doses of hepatitis B vaccine
- Immunity to Chickenpox** 2 doses of varicella vaccine or a reliable history of chickenpox disease
- Tdap** 1 dose of Tdap (Tetanus, diphtheria, and pertussis) vaccine
- Exemption** Medical and religious exemptions combined

- Data were collected in the fall, but immunization data are often updated throughout the year and rates (during the same school year) may be higher than reported due to additional children receiving immunizations or bringing records to school. Also, the student body is dynamic and as students arrive and leave the school, the immunization rates are impacted.
- Children are allowed a medical or religious exemption to one or more vaccines
- Children without the required number of doses of vaccine do not necessarily have an exemption on file.
- Children without a record of vaccination, but with serologic proof of immunity to certain diseases (measles, mumps, rubella, hepatitis b and varicella), meet school entry requirements, but may not be counted as vaccinated.
- All data are self-reported by the schools and discrepancies may exist. The Immunization Program continues to work with schools to resolve discrepancies and update immunization data, when possible.

*School did not respond to the survey
 †School reported less than 30 total students, so data cannot be released
 Exemption data represents medical and religious exemptions combined
