Lt. Governor Karyn Polito’s Schedule for Thursday, July 13, 2017

BOSTON – Tomorrow, Lt. Governor Polito will join Transportation Secretary Stephanie Pollack, Acting Highway Administrator Jonathan Gulliver, elected officials, and municipal leaders to review the progress of the Belmont Street Bridge Replacement Project in Worcester, while highlighting hundreds of millions of dollars that have been invested in roadway and bridge projects across Central Massachusetts.

In the coming weeks, the Baker-Polito Administration will be visiting MassDOT Highway Districts to highlight the positive regional impacts of over $2.8 billion spent since 2015 on highway construction projects and bridges, pavement, intersection and sidewalk improvements, and bike lanes, while also having authorized over $700 million in Chapter 90 local transportation funding for cities and towns. An additional $30 million has been invested through Complete Streets and Municipal Small Bridge programming to support local transportation planning and community bridges not eligible for federal aid.

Later, she will sign a Community Compact with the town of Webster.

Thursday, July 13, 2017
