FIREMEN'S RELIEF

SECTION 81. The sum of eighteen thousand dollars may be paid annually, from the state treasury to furnish relief to firemen injured in the performance of their duty at a fire or in going thereto, or returning therefrom, or while engaged in company drills, when such drills are ordered by the chief, acting chief or board of engineers of the fire department, or required by city ordinance or town by-law, and to widows and children of firemen killed in the performance of such duty. Payments on account of said relief shall be determined in manner and amount, on properly approved vouchers, by the commissioners on firemen's relief, in the same manner as other claims against the Commonwealth. Five hundred dollars of the amount hereby authorized may be expended for the traveling and incidental expenses of said commissioners.

SECTION 82. Any officer or member in active service in an incorporated protective department co-operating with a fire department, and any person performing the duties of a fireman in a town having no organized fire department, shall be entitled to the benefits provided by the preceding section.

SECTION 83. If a person entitled under either of the two preceding sections to the benefits provided in section eighty-one is killed, or dies within sixty days from injuries received, while in the performance of duties entitling him to such benefits, and his death is certified to the state comptroller by the town clerk and the attending physician or medical examiner, the state comptroller shall certify for payment to the executor or administrator of such persons, out of the appropriation annually made for the purpose, the sum of twenty-five hundred dollars for the use equally of his widow and minor children; or if there are minor children but no widow, to their use; or if there is no minor child, to the use of the widow; and if there is no widow or minor child, to the use of the next of kin if dependent on such deceased person for support.
