REPORT OF THE GREYLOCK COMMISSION.

The period covered by this report extends from Jan. 1, 1903, to Jan. 1, 1904.

The Greylock Commission now consists of John Bascom (Williamstown), Francis W. Rockwell (Pittsfield) and W. H. Sperry (North Adams).

The land purchased during the present year has been 546 acres; the whole amount of land now belonging to the reservation is 5,460 acres. The two appropriations made by the State, of \$25,000 and \$20,000, are now exhausted. The 546 acres purchased during the present year cost \$7,209.

We have received from the county for current expenses \$1,500. This has been expended on roads and on the buildings at the summit. One new trail has been opened in the direction of Adams. There are now two roads to the summit, and three trails.

The number of visitors to the summit during the year has been unusually large, approaching 10,000.

We are greatly in need of better accommodations. The completion of the reservation will require the purchase of some 2,000 acres more.

JOHN BASCOM,

Chairman.

WILLIAMSTOWN, MASS.
