ANNUAL REPORT

Secretary's Office, Dec. 15, 1934.

To Michael Zack, *Director of Registration*:

Sir:—In compliance with the requirements of chapter 112 of the General Laws, the Board of Registration in Veterinary Medicine submits its annual report for the fiscal year 1934.

Three persons have applied for registration during the year, all of whom have been examined. All of these applicants were graduates of veterinary schools authorized to confer degrees in veterinary medicine.

The number of individuals examined this year is three, and the results are given in the following table:—

	Examined.	Registered.
July examination,	3	3

The following men successfully passed our examinations during the year:—

<i>Name</i>	<i>Graduate of—</i>
Babson, Osman,	New York State Veterinary College.
Murch, Ralph Gordon,	New York State Veterinary College.
Trudeau, Armand Eugene,	New York State Veterinary College.

Since the organization of the Board, Jan. 1, 1904, 577 certificates of registration have been issued.

During the year the Board has held four meetings and one examination.

According to the rules of the Board, all applications for examination must be made upon blanks furnished for this purpose by the secretary, and returned to him at least three days before the date of examination, properly executed, and accompanied by the fee of \$15. A ticket or letter of admission to an examination, showing the date and the applicant's number, is issued on the receipt of this application. Tickets are also issued to rejected applicants entitled to a re-examination if applied for three days before the date of examination. By a ruling of the Board, if there are a sufficient number of applicants, examinations are held twice annually. The law requires that these examinations shall be wholly or in part in writing, in the English language, and shall be of a scientific and practical character. They shall include the subjects of anatomy, surgery, physiology, animal parasites, obstetrics, pathology, bacteriology, diagnosis and practice, therapeutics, materia medica and veterinary dentistry, and shall be sufficiently thorough to test the applicant's fitness to practice veterinary medicine. There is usually an average of eight questions in each subject, and the answer to each question is marked on a scale of 0 to 100, after which the applicant's general average is computed. In this connection it should be borne in mind that the name of the applicant is unknown to any examiner, with the exception of the secretary. Each examination book bears a number, upon which the examiner reports his rating.

Since its organization the Board has held 58 examinations.

During the life of the Board there have been 719 applicants for registration in veterinary medicine; of this number 577 were granted registration, 137 were refused registration, and 5 have not appeared for examination.

For the purpose of convenience the "correspondence school" is listed as a school, although it was not chartered and had no right to issue degrees. It is to be noted that 14 men, graduates of this school, have been examined, who assumed that they had received a proper training in veterinary medicine, yet failed by our examination to demonstrate any knowledge of veterinary science. The result shows the absolute impracticability of teaching veterinary medicine by correspondence.

Graduates of the following veterinary schools are now eligible to membership in the American Veterinary Medical Association:—

- Alabama Polytechnic Institute, College of Veterinary Medicine.
- Colorado State College, Division of Veterinary Medicine.
- Indiana Veterinary College.
- Iowa State College, Division of Veterinary Medicine.
- Kansas State Agricultural College, Division of Veterinary Medicine.
- L'École de Médecine Vétérinaire, Université de Montreal.
- Michigan Agricultural College, Division of Veterinary Science.
- New York State Veterinary College, at Cornell University.
- Ohio State University, College of Veterinary Medicine.
- Ontario Veterinary College, Toronto University.
- State College of Washington, College of Veterinary Science.
- Texas Agricultural and Mechanical College, School of Veterinary Medicine.
- University of Pennsylvania, School of Veterinary Medicine.

During the past year the Board has investigated complaints against four individuals.

The receipts of the Board, which according to law have been paid into the treasury of the Commonwealth, have been as follows:—

Form C, fees at \$15, \$45.00

The expenses of the Board have been as follows:

Salaries \$513.34

Expenses:—

Printing \$ 52.75

Travel 136.34

Special services 79.25

Postage 8.93

277.27

Total \$790.61

Respectfully submitted,

LANGDON FROTHINGHAM, *Chairman.*

ELMER W. BABSON, *Secretary.*
