—

AN ACT RELATIVE TO PREGNANT AND POSTPARTUM INMATES IN STATE PRISONS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

- 1 SECTION 1. Chapter 127 of the General Laws, as appearing in the 2004 Official Edition, is
2 hereby amended by striking out section 118 and inserting in place thereof the following:—
3 Section 118. The department of correction shall provide a fulltime perinatal case manager,
4 credentialed in childbirth education and with knowledge of high-risk pregnancy and perinatal
5 addiction issues.
6 Female inmates, upon admission to a correctional facility, shall be screened and assessed for
7 pregnancy, postpartum status and issued written material, in a form understandable by each
8 inmate, outlining mandated services for pregnant and postpartum inmates.
9 Pregnant and postpartum inmates shall not be housed with any inmate suspected of having a
10 communicable disease that is required to be reported to the department of public health by statute
11 or regulation, which is capable of spreading by casual contact, and which could adversely impact
12 pregnancy.
13 Pregnant and postpartum inmates shall have full access to appropriate prenatal and postpartum
14 care at the correctional facility in which they are housed and at supporting medical facilities with
15 expertise in assessing perinatal addictions. Prenatal care shall include:
16 a. Pregnant inmates shall receive appropriate vitamins and iron supplements.
17 b. Pregnant inmates shall receive a diet with accommodations for nutrients essential to a
18 safe pregnancy and reviewed by a registered dietitian.
19 c. Pregnant women shall have access to nutritional programs such as the Women, Infants
20 and Children's Program.
21 d. Pregnant inmates, including pregnant inmates in closed custody units or room
22 detention for disciplinary reasons, shall be permitted the opportunity for a minimum of 30
23 minutes of ambulatory movement each day to prevent thrombosis.
24 e. Pregnant inmates shall be given maternity clothes and adequate provision of
25 appropriate undergarments.
26 f. Pregnant inmates shall have access to labor and delivery care in an accredited hospital.

27 g. Pregnant women who are being released from confinement in state and county
28 correctional facilities before childbirth shall be offered referral resources to food and
29 nutrition programs for themselves and for children who are born while the women are
30 confined in facilities.

31 Pregnant inmates shall have access to prenatal/childbirth education classes taught by a certified
32 childbirth educator and shall have access to education videos and materials.

33 The prenatal case manager shall provide access to the department of social services and/or
34 designated infant/child caretakers as well as the support necessary to develop a custody plan for
35 the newborn after delivery. This includes telephone calls to check on the well-being of the infant
36 after the mother returns to prison.

37 The department of correction shall provide qualified screening for postpartum depression and
38 psychosis.

39 Pregnant and postpartum inmates shall have access to mental health/HIV/hepatitis counseling,
40 including screening and counseling for depression.

41 The department of correction shall use alternate transportation and restraints with pregnant
42 inmates. Pregnant inmates beyond the first trimester shall not be shackled during transportation.
43 Waist chains shall not be used and pregnant inmates shall be handcuffed only in the front.
44 Pregnant inmates shall be transported in vehicles with front facing car seats, seat belts, and
45 shoulder harnesses. Pregnant inmates shall not be cuffed to exam tables or labor beds during
46 medical examinations and labor and delivery.

47 The Perinatal Case Manager shall provide discharge planning to assure safety and continuity of
48 care for pregnant inmates, with particular attention to access to uninterrupted daily Methadone
49 dosing for those pregnant inmates titrated on Methadone for the protection of the unborn child,
50 and for any other high medical issues.

51 In order to assure the adequate provision of these critical services to pregnant and postpartum
52 inmates, on site monitoring and evaluation, including interviews with inmates, shall be provided
53 by the department of public health.

54 The department of correction shall provide adequate funding to assure the continuity of these
55 services as well as to assure the purchase of supplies and educational materials necessary for the
56 program to function well.
