At the request of the presiding officer, prayer was offered by the Reverend Richard A. Scioli, C.S.S., of Our Lady of Mount Carmel Parish in Springfield, as follows:

Prayer.

Let us bow our heads and invoke the name of Our God among us. Almighty and Most Gracious God, Creator of every person and nation,

We praise You that we have been called together in this Chamber as Your people to be of service to the citizens of the Commonwealth of Massachusetts with a keen and sensitive awareness of our local and global responsibilities.

In You, O God, we are united. Through You we have been given life, freedom, dignity, individual talents, worth and high destiny.

Our hearts today are filled with hope and joy as we inaugurate a
new year and term of state government for the people of Massachusetts.

Through Your guidance, O God, direct these Representatives to labor diligently and unselfishly. May they marvel at the rich diversity of faiths, cultures and life-styles which constitute their constituency. May this diversity afford our Commonwealth its opportunity for growth and advancement of all men and women, especially those among us who are poor, disenfranchised and ignored. O God, stir in the hearts of these Representatives an enthusiasm to address the challenges of our day with an openness of mind and spirit and a zeal for hard work. We pray that they never fall victim to mindless pettiness, self-absorption or personal gain. Rid from their lives anything that takes them away from listening to You first and secondly to those whom they have been entrusted to serve.

Bless our beloved Commonwealth of Massachusetts, its streets and neighborhoods. May every corner of this State experience not the hatred and violence of lawlessness and disrespect, but the love and peace that You shower upon us as gifts for our common good and benefit.

May all we do here and elsewhere, today and in the days to come, redound to Your goodness, for we are truly Your special possession.

Blessed are You, O God, for giving us a purpose and a destiny in human life. Amen.

Mrs. Parente of Milford moved that the prayer be spread upon the records of the House; and the motion prevailed.

The National Anthem then was sung by Mr. Patrick Buckley of Cambridge.

Order.

On motion of Mr. Manning of Milton,—

Ordered, That a special committee be appointed to wait upon His Excellency the Governor and inform him that a quorum of the members-elect of the House of Representatives have assembled, and that they are ready to take the oaths and affirmations of qualification.

Whole number of votes .............................................. 158
Necessary for a choice .............................................. 80

Charles F. Flaherty of Cambridge had ................................ 122
Edward B. Teague III of Yarmouth had ................................. 36

And Mr. Flaherty, having been declared elected, was conducted to the Chair by a committee consisting of Representatives Voke of Chelsea, Menard of Somerset, Toomey of Cambridge and Thompson of Cambridge, and addressed the House as follows:
My Fellow Members:

Thank you very much.

Reverend Clergy, my colleagues on both sides of the aisle, family and friends.

First of all let me express again the heartfelt gratitude of us all to the Dean of the House in presiding over our session to this point. Tony, thank you again.

Secondly, let me thank all of you — well not all of you — well let me thank all of you who count for once again giving me the high honor of electing me Speaker for the 1995-1996 session of the Legislature.

I promise you that my motive force in this office will continue to be a fierce determination to provide you with the very best service that rests within my ability to give.

Let me also thank my constituents, my friends and neighbors of the 27th Middlesex District for their friendship and support... for their tolerance and understanding and for their continuing commitment to the pledge they made to me the first time they elected me to this legislative body... they kept sending me back until I got it right.

Finally, for this part of my remarks. I want to send a special word of welcome to the thirty new members who join us today for the first time... 20 Democrats and 10 Republicans. I welcome you. We look forward to your input... your energy... your enthusiasm, your participation. This is not a place where you are expected to sit and listen and learn. This is the people’s House where you are expected to participate and do what you were elected to do... represent your constituents. In that regard, many of us who have been here for awhile will offer you advice on how best to do that. The best advice I can give you... is just to do what you think is right in each and every instance in which you are called upon to make a decision based on the information available to you at that time... regardless of the consequences to yourself of that decision.

If you can do that, the day you leave this Chamber for the final time you can hold your head as high as you held your hand today, when you were sworn in for the first time.

The addition of 30 new members today means that 64 of you have 2 years or less of experience in this body... 98 of you have 4 years or less experience.

In the 1991-1992 session, we had 5 special elections... in the past 2 years, we had 8 special elections. In the past year, we had the phenomenal occurrence of having 9 chairs of major committees leave this Legislature... 3 during the year and 6 who chose not to run for reelection.

Yesterday marked the 100th Anniversary of the first time the Massachusetts House met in this noble and classic hall... having moved from the Bullfinch part of the state House to this newer part
of the State House. There is perhaps no public building in all these United States more useful or magnificent. We meet here on the first day of its second century of use and we meet as members of the oldest and continuous legislative body in America and certainly no other holds a higher rank for general worth and attainments. Permit me if you will to review some of those attainments over the past four years.

When I first stood before you as your Speaker in 1991, I told you that my, and I hope your priorities, would be to improve the economy, education and the environment. There has, as we all know, been a welcome upgrade in our bond rating by the rating agencies on Wall Street. It was, as we know, the result of a joint effort by the Executive and the Legislature... doing what we were elected to do... work and govern together. Rather than sharpen ideological differences to mobilize our respective constituencies... we bridged the partisan divide and worked together to find common solutions to the problems of this state as reflected in the announcements of the upgrade for the first time in 1992. The last time our bond rating dropped in 1975 it took us ten years to get a marginal increase and this time we got a substantial increase in less than twenty months. Moody's Investor Service Center, in announcing the upgrade on September 9, 1992 stated, and I quote "Significant among the factors continuing and contributing to last year's positive results, was the improved communication and cooperation evident between the Legislature and the Executive branch in contrast to the situation which prevailed earlier. While policy and budget issues remain the subject of vigorous debate and dispute... the current process has avoided unsettling surprises in the conduct of fiscal policy and has permitted the resolution of issues." As standards set on the same day, the rating change also reflects much greater cooperation between the Executive branch and the Legislature in improved budgeting in both operations and capital. I think that Capitol Hill could take a lesson from Beacon Hill. I think that the lesson from the recent election for us and the one that preceded it in 1992 when 7 members were defeated from this body is that, in the past election, only 3 lost their seats. We are on the right course. We have our differences, to be sure, we minimize them to the extent possible, we debate them sharply and civilly, and we resolve our differences. In contrast if you will, with the gridlock in Washington and in contrast if you will, with the results of the national election and the election in Massachusetts... that people chose very carefully, elected a Republican Governor and Lieutenant-Governor and Treasurer, and a Democratic Attorney General, Auditor and State Secretary, and members are of both parties in each branch of the Legislature... a reflection of the appreciation that we are doing what we are elected to do... govern together and not bicker.

In addition to making the tough decisions necessary to get our fiscal house in order and to balance our budget each of the last four
years without borrowing or increased taxes we took other steps in the jobs creation of the Economic Development Fund to improve our economy.

We enacted the most generous research and development tax credit in the country . . . we increased our investment tax credit from one percent to three percent and five percent in enterprise zones. We created an Emergency Technology Fund to help new small businesses get off the ground in Massachusetts, a Capital Access Fund to provide financing to small businesses, an export fund, more money for tourism, more money for Massjobs and the Bay State Corporation, and the wide range of initiatives on jobs creation of the Economic Development Fund taken by this Legislature . . . indeed by this House.

In the area of education, we enacted an Education Comprehensive Reform Act that promises over 2 billion dollars in additional funding in the elementary and secondary schools of this Commonwealth over the next seven years. We are three years into fulfilling that commitment and we have already increased funding twenty-five percent for the grammar schools and high schools of this Commonwealth. More than that, we have imposed strict requirements for graduation, strict standards on teachers, and gave principals more authority and power to run their individual institutions. We have involved parents and encouraged more community participation in the decisions to be made relative to educating our kids with the results having been demonstrated already, especially in the cities of the Commonwealth to this point in time.

In addition, we enacted a public education law in regard to higher education in 1992 that consolidated the University of Massachusetts’ five campuses into a single university system, that reorganized the Board of Regents governing higher education in Massachusetts, that reorganized the way we govern our state colleges and community colleges. We have increased appropriations for the University of Massachusetts, for the community colleges, state colleges, and for scholarships for both public schools and private schools of higher education. We are committed in this Legislature to making our state universities world class institutions. The kids who graduate from the high schools in this Commonwealth will have an opportunity to get a higher education for a reasonable price and stay in this state and become productive citizens and taxpayers as ninety-one percent of the graduates of our state institutions normally do.

In the last four years in the area of environment, the House of Representatives has made a significant difference to make certain that our natural resources are enhanced and protected . . . from the passage of legislation showing that the proper disposal of solid hazardous and low-level radioactive waste to landmark legislation protecting the Commonwealth’s precious water supply . . . to providing the capital funds necessary to revitalize and preserve our state parks system . . . the House of Representatives has made a particular significant difference.
In addition, we took the leadership providing money allowing sewer rate relief to the constituents of the Massachusetts Water Resources Authority, in particular, but also to all the citizens of the Commonwealth, and we increased the amount this year to another ten million dollars.

The great national health care debate of 1994 ended with a whimper, being the victim of overwhelming ambition and partisan excess. To our collective credit, the health care debate in Massachusetts has not suffered a similar fate. We made progress in health care reform and produced results on health issues.

In 1991, Massachusetts enacted market insurance reforms providing greater protection to small groups of businesses of twenty-five or fewer employees and these protections now extend to ninety-two percent of the state’s businesses. This prohibits insurers from rejecting group members due to pre-existing conditions and limitations of waiting periods to six months, and restricts insurers from charging any group more than any other.

In 1991, we created a state betterment program to provide free reduced-cost preliminary prevention health care services to low-income and uninsured children from birth to age six. In 1993, the program was expanded to cover children up to age twelve. Presently more than twenty thousand children who otherwise would not have health insurance are eligible for doctor’s office visits, prescription drugs, emergency room care, immunizations, and other benefits through this program.

In 1992, we authorized the administration to seek a waiver from the federal government in order to implement a Medicaid Managed Care Program. We launched an initiative to enroll Medicaid beneficiaries and managed care through freedom of choice under the Social Security Act and today nearly four hundred and seventy thousand recipients are currently enrolled in either one of the fourteen HMOs or the primary care clinic program. Researchers at the University of Massachusetts recently concluded that this law saved the Commonwealth nearly twenty million dollars in the first year of its implementation.

We have enacted first in the nation mammographic standards that assure safe and effective mammograms by standardizing the qualifications for radiologic machines and radiologic technicians.

We have enacted an indigent drug law that allows physicians to dispense free prescription drugs distributed through voluntary programs established by pharmaceutical manufacturers. A great boon for the elderly.

We had a historic breast cancer initiative established as part of the 1993 fiscal budget. This program currently allocates over five million dollars to a four-part initiative to deal with the problem of breast cancer. We also have the only state-based breast cancer research grant program in the nation.

We have authorized nurse practitioners to expand upon their responsibilities and duties as a means of providing greater and
Remarks of the Speaker.

quicker health care services to our constituents and at the same time controlling costs. We have also undertaken a wide variety of other initiatives in the health care field. To be sure, in the absence of immediate health care reform on the federal level, we are now going to tackle that problem ourselves. As you know, we just postponed the effective date of the employer mandate under the universal health care law for another eighteen months and also at the same time created a special commission to make recommendations within one year as to what we in Massachusetts must do to further reform health care for our constituents.

We have taken action on a number of other subject matters which are areas of great concern to the constituents that we collectively represent.

I do not want to consume any more of your time and list them all ... but just let me cite a few ... as an example ... the way we have made a difference in the lives of the people of Massachusetts.

In the area of domestic violence ... in 1992 we created the crime of stalking ... in 1992 we created a state-wide registry of domestic violence offenders and violators.

In 1993 we enacted legislation allowing the admissibility of evidence in previous abuse into domestic violence cases.

In 1994 we required that anyone who has a restraining order because of a domestic violence investigation, and who possesses a firearm, has to surrender that firearm and his or her ammunition and his or her firearm identification card.

In 1994 ... last week ... we reformed the warrant system with regard to domestic violence cases and that bill was signed into law by the Governor on December 28, and just yesterday, the last day of the session, the Senate enacted a bill that we had previously enacted with regard to inter-jurisdiction arrests in domestic violence cases that allows people to be arrested without a warrant in particular instances.

We have funded one hundred thousand dollars for a training unit for domestic violence in the Trial Court and one hundred and fifty thousand dollars for battered women regional projects in the Office of the Supreme Judicial Court and provided one million, three hundred thousand dollars for violent offender prosecution units in the district attorneys' offices of the Commonwealth. Last year we added another million dollars to the shelters for battered women.

We enacted a comprehensive truth in sentencing law that means "if you do the crime you do the time" which requires people to serve at least two-thirds of their prison sentence before they are eligible for parole but eliminates the so-called Concord sentence.

We have reformed our bail laws to enable judges to consider dangerousness as a condition as to whether or not to allow a defendant to go back on the streets after arraignment.
We have made home invasion and carjacking felonies and increased the penalty for drug trafficking. We made child abuse a felony.

We enacted comprehensive judicial reform to introduce new lines for accountability and responsibility in the court system of the Commonwealth.

You have heard me say many times at this microphone that "powerless kids need powerful friends" and here on Beacon Hill we have proved that powerless kids and indeed all of the kids in Massachusetts have powerful friends.

I have talked before about education reform and about the health security act.

We enacted a major Child Hunger Relief Act in Massachusetts and fully funded it in the two years since it was enacted.

We enacted major legislation in regard to lead paint poisoning.

In the handling of foster children within the Department of Social Services, we have increased the number of caseworkers to reduce the number of cases they have to deal with separately.

We have enacted the first housing bond bill in seven years providing money for low-income housing, low-income disabled housing, public housing renovations and reconstruction, community development action grants, lead paint abatement... allowing the Commonwealth alternate forms of rentals in owner-occupied housing... provided fifty thousand dollars for established housing and home ownership and a program to get young couples starter money for their first home.

We were able to do all of that and more. I will not consume all of your time to go over what we have done for the municipalities over the last four years and what we have done in many other areas of governmental activity.

While restoring fiscal stability to our economy and to our Commonwealth, we did this without borrowing and without raising taxes and while seeing our budget increase in the last four years from twelve billion dollars in fiscal year 1990 to thirteen billion dollars, to fourteen billion dollars, to fifteen billion dollars, to sixteen billion dollars in our current fiscal year. It is a record of which we can be proud and a record of which we have to build on.

We know that we are going to have to revisit the question on welfare reform. You know this House acted on a major reform and was successful and overrode the Governor's veto... the other branch wasn't. This House also overrode the many line items that affected the spending and again... the other branch didn't.

We are going to have to revisit that and revisit it quickly.

We need to resolve the differences between the two branches on the rivers bill.
We hope we can add to our record on the building of a new Boston Garden, and finally providing for a new school track facility that will open in March of next year. We hope to resolve once and for all the issue of whether we are going to have a convention center or megaplex or multi-sports dome facility. I intend to bring together all the parties that were involved in that debate over the last year and get them together for the first time in the same room. With everybody putting all their cards on the table, we can resolve the issue before they leave the room, one way or another, so we can get along about our business.

But in all of that, we need to do what we have done for the last four years . . . and that is minimize our differences . . . debate them sharply . . . honestly . . . but bridge that partisan gap and work together to find common solutions to the problems facing our Commonwealth.

In closing let me offer this peroration on this the first day of the second one hundred years of the Massachusetts House of Representatives meeting in this beautiful hall.

May the true voice of the people always be heard in this Chamber. May the people inspire us . . . their Representatives . . . and may we . . . their Representatives . . . in turn inspire the people.

May this building, as long as one stone stands upon another, be the temple of constitutional liberties.

Let these walls connect with the loftiest hopes and ambitions of free and honest men and women.

May we forever be formed a clear source of wise, just and equal legislation of an intelligent, fair-minded high soul people that are true to the purpose of the Creator directing all their efforts, to the end that this shall be a government of laws and not of men and women.

That you very much. God bless you. God bless the Commonwealth.

Statement of Representative Teague of Yarmouth.

Mr. Teague of Yarmouth asked unanimous consent to make a statement; and there being no objection, he addressed the House, as follows:

Mr. Speaker, members of the clergy, colleagues, relatives, and friends, thank you for allowing me a few moments to speak to you today.

Greater thanks go to the people I represent — the 38,000 residents of the towns of Dennis, Yarmouth and Brewster who have honored me by allowing me to represent them for another two years in the Great and General Court of the Commonwealth. I never expected to have this responsibility when I moved to Cape Cod some eighteen years ago. I am forever grateful to the voters of my district.

Several weeks ago, Mr. Speaker, you said that politics is one of the great sports played in the Commonwealth. If it is true, the people
in this Chamber are players on the field, not observers on the sidelines, and each member must be prepared to make his or her contribution. Politics is not a spectator sport. This Chamber is not the House of spectators, rather in it reside participants in the greatest political experiment in history — American democracy.

The members are not here only to serve their constituents during the two-year term, but to carry on the unique American philosophy, culture, and tradition that have brought us to this place.

Our American Constitution is a virtual mirror image of the Massachusetts Constitution crafted by John Adams. He, and others like him, laid the foundation of our political structure based on individual liberty and a system of checks and balances. If Adams was the architect, we are the laborers and craftsmen continuing the same work in the same city.

The question is, “Will we build on the foundation that has made Massachusetts not only the cradle of liberty, handmaid of industry, trader to the world, headquarters for the abolition of slavery? Will we remain the Mecca sought by thousands of immigrants for hundreds of years, seeking two things — freedom and opportunity?”

We should build on the foundation set by our predecessors, remembering that the founders were imminently practical men with a keen understanding of human nature and good common sense.

Mr. Speaker, we have the chance to create opportunity for society in the Commonwealth, but that opportunity is for individuals who pursue it — girls, boys, men and women, young and old, of all description. We all hope for success, but our effort in this Chamber is to guarantee not results for individuals, but opportunity.

During the next two years, as for the past two hundred, the members of this House will have the unusual opportunity to debate the great issues facing the Commonwealth. Every member has the opportunity to initiate, consider and debate any matter of public policy. Few people in the history of the Commonwealth have that chance to act on behalf of not only their constituents but the millions of citizens of Massachusetts. I urge the members to seize this opportunity.

Across the nation we have seen sweeping changes in the political landscape. Somehow, Massachusetts was untouched. Critics say it is because Massachusetts is behind the times or because Massachusetts has always been different. I am a firm believer that Massachusetts is special. This House must set an aggressive agenda to keep Massachusetts a special place. We cannot afford to sit back and watch the rest of the country pass us by.

As a House we need to put forth new ideas and see them through. Too many times good ideas are offered and never acted upon, yet the end of politics is action.

We need to set forth on a new journey of cooperation for the benefit of the Commonwealth and our future generations. Opportunity is ours. To avoid change would be a tragic mistake that could cost us dearly well into the next century.
It is up to this Legislature as a body to not allow the younger generation to be tainted with complacency. We need to enhance the unlimited possibilities of the American dream here in Massachusetts.

By forging new relationships between business and government, we can create opportunities, not mandates and further stagnation.

As the new Minority Leader, I ask the members not to watch the Legislature work but to be a part of the dynamic. We are here to challenge the status quo and to be never satisfied, because each day our world is changing.

Our plans must be focused in on the year 2000 and beyond, not just 1995. The changes we make will have consequences that can never be ignored. We must start working today to lessen the impact of government on our daily lives and financial well-being.

For example, I think we agree reforming welfare is a must. The system has failed, and what could be worse than to keep the failed system in place? Welfare should not replace the American dream. We should replace welfare.

Mr. Speaker, as leader of the Republican party, I guarantee you that we of the Minority party will use this opportunity, sometimes as your ally, often as your adversary, and always intending to seek the best results possible for the people of the Commonwealth.

Mr. Speaker, I want to take a moment to recognize some people who have joined us in this historic Chamber today.

I would like to introduce my mother and my father, Edward and Margaret Teague, recently of the town of Westford. Mom and Dad are the parents of fourteen children, all of us raised in the city of Lowell. I am elated they could join us today, and want to publicly thank them for everything they have done.

The most important person in my life is my long-suffering wife, Kathy. She bears the burden of my frequent absence and the further, perhaps heavier burden of my presence. I want to thank her for her support during my sojourn into political life, and the wonderful job she has done as mother to our children.

They are with us today. Kathy and I are very proud of Ed and Matt, who are members of the Corps of Cadets at the United States Military Academy at West Point. Our daughter, Kathleen Joy Delia Teague, is in our opinion the prettiest and best girl in the state. Christian is our youngest son, preparing to compete with his brothers.

Mr. Speaker, I once again thank the members of the Republican Caucus for their confidence in me and promise to work as hard on their behalf as they do for their constituents.

Ms. Lewis of Bridgewater then moved that the statement made by Mr. Teague be spread upon the records of the House; and the motion prevailed.
Distinguished Guests.

The Speaker thereupon introduced former Speaker of the House of Representatives, Thomas W. McGee of Lynn, and former Representative and former Senate Minority Leader, David H. Locke of Wellesley.

Organization of the House.

Mr. Haley of Weymouth then moved that the House proceed to the election of a Clerk, that the election be by acclamation, and that Robert E. MacQueen of Weymouth be so elected Clerk of the House; and this motion was seconded by Representatives Sprague of Walpole and Mariano of Quincy. The motion unanimously prevailed; Mr. MacQueen was elected by acclamation; and the declaration thereof was made by the Speaker.

The Clerk then qualified by taking the following oath, administered by the Speaker:

Whereas, you, Robert E. MacQueen, are chosen Clerk of the House of Representatives of the General Court of Massachusetts, you do swear that you will truly enter all votes and orders thereof, and that, in all things relating to your office, you will act faithfully and impartially, according to your best skill and judgment. So help you, God.

A communication from the Clerk, announcing that he had appointed Bartley J. Joyce of Burlington, Assistant Clerk of the House, and Steven T. James of North Andover, Second Assistant Clerk of the House, was read; and the communication was placed on file.

Mr. LeLacheur of Lowell then moved that the House proceed to the election of a Sergeant-at-Arms of the General Court, that the election be by acclamation, and that Michael J. Rea, Jr., of Billerica be so elected Sergeant-at-Arms.

There being no objection, — Mr. Finneran of Boston moved that the bill be amended in section 68 by striking out the four paragraphs contained in lines 313 to 358, inclusive, and inserting in place thereof the following five paragraphs:

"Wage payments under TEMP shall be limited to the amount a family of the same size and resources would be eligible to receive as a cash payment under subsection (e). The hourly wage rate to be paid under TEMP to a recipient shall equal the minimum wage, or as may be necessary, shall equal the minimum wage adjusted to bring the total income of the family to the payment standard established by said subsection; provided that no recipient participating in TEMP shall work less than twenty-four hours nor more than forty hours per week. The department shall calculate said wage prior to the recipient’s commencement of participation in the TEMP program. A recipient shall earn the wage for the number of hours actually worked based on the wage so calculated, but not exceeding the total income to which the family would be eligible to receive as a cash payment under subsection (e).

A recipient who is working at least twenty-five hours per week in employment other than TEMP, and who is required to participate in TEMP because of insufficient income, may substitute job search for work under TEMP. The parent may substitute one hour of job search for each hour the parent would otherwise be required to work under TEMP. Wages paid under this section shall not be considered wages for the purposes of any other statute, rule, regulation, or collective bargaining agreement.

The department is directed to seek from the federal government a waiver of the provision that denies eligibility to those families in which a recipient works more than one hundred hours per month so that said provision applies only to applicants and not to recipients of assistance under this chapter or chapter one hundred and seventeen A.

In order to be eligible for a TEMP payment under this subsection, a recipient must be engaged in a job search, so that the combined hours from employment under TEMP and the job search equal forty per week. Payments under TEMP shall not exceed a period of two years in total. The commissioner may in his discretion waive the two year limit upon a finding that certain, exceptional circumstances require the continuing participation of the recipient in TEMP. If a recipient or recipients fail to satisfy the work requirements of this
section, the department shall not provide the family with any assistance under this chapter or chapter one hundred and seventeen A.

The department may authorize payments to public or private entities providing job placement or job training services to recipients eligible under transitional assistance program. Payments shall be made only to entities approved by the department. A recipient must work at least thirty-five hours per week in order to be eligible for a payment. The department shall ensure that any such entity receiving state funds provides training programs that recognize the needs of working families and are flexible with regard to required hours of participation. Participants in TEMP are eligible for such payments only after having worked at a TEMP job for at least six months. The department is further authorized to pay for reasonable transportation expenses needed to participate in such services.

The amendment was adopted.

Mrs. Cleven of Chelmsford then moved that the bill be amended in section 68 by inserting after the word "subsection.", in line 80, the following sentence: "Children of recipients who are not eligible for assistance under this clause shall be eligible for a monthly voucher equivalent to the increment of assistance for essential non-perishable items."

After debate on the question on adoption of the amendment, the sense of the House was taken by yeas and nays, at the request of the same member; and on the roll call 39 members voted in the affirmative and 110 in the negative.

[See Yea and Nay No. 31 in Supplement.]

Therefore the amendment was rejected.

There being no objection,—Messrs. Finneran of Boston and Cahill of Beverly moved that the bill be amended in section 68 by inserting after line 18 the following paragraph:

"'Child of record', the youngest child of a recipient receiving assistance on July first, nineteen hundred and ninety-five, or said youngest child at the time a family first applies for assistance after said date, or said youngest child at the time a recipient re-applies and is determined eligible for assistance under the provisions of this act; provided, that a child born to a woman who was pregnant on said date, or at the time of first applying for assistance after said date, shall be the child of record. The designation of child of record shall not change if the child no longer lives in the household, or subsequent children are born to the recipient, provided that said designation may change for a former recipient of assistance who re-applies for assistance if the department determines said former recipient is eligible for assistance consistent with the provisions of this act;";

by striking out the sentence contained in lines 67 to 80, inclusive, and inserting in place thereof the following two sentences:

"(d) Subject to federal approval of a waiver, the schedule of assistance payable to recipients shall be revised to provide that an increment in assistance shall not be provided to a family in which a recipient gives birth to a child subsequent to the child of record during (1) said family's period of eligibility for assistance,

The period of eligibility for assistance referenced by clause (1) shall include the period during which a recipient is determined to be exempt pursuant to the provisions of subsection (f), the period of eligibility established pursuant to the provisions of subsection (i), and the period of eligibility established pursuant to the provisions of subsection (j)”; by striking out the paragraph contained in lines 113 and 114 and inserting in place thereof the following paragraph:

“(3) recipients in their third trimester of pregnancy, or recipients with a child of record under the age of two years;” ; and, there being no objection, by inserting after line 328, as amended, the following paragraph:

“The department shall not make any incremental cash payment, or incremental wage payment under TEMP, because of the addition to a family of any child born after the ‘child-of-record’.”.

Therefore Rule 1A was suspended.

There being no objection, — Representatives Fox of Boston, Cabral of New Bedford, Richie of Boston and Finneran of Boston moved that the bill be amended in section 68 by striking out the paragraph contained in lines 121 to 140, inclusive, and inserting in place thereof the following paragraph:

“(g) The provisions of subsections (h) and (j) shall be subject to the approval of demonstration waiver applications to be submitted by the department to the federal government. The plan of assistance established by subsection (j) is hereinafter called the ‘transitional assistance program’ and shall be implemented as a demonstration project in municipalities to be selected by the commissioner. The commissioner shall select for participation in said program municipalities in which the cumulative number of recipients who are not in exempt categories of assistance pursuant to subsection (d) total twenty percent of the statewide total number of recipients. calculation of said cumulative number shall be based on the distribution of recipients by municipality on the date said waiver application is submitted to the federal government. The provisions of subsection (h) are hereinafter called the ‘limited benefit program’ and shall be implemented throughout the remainder of the commonwealth. Recipients shall participate in the program implemented in the municipality in which they were residing as of February first, nineteen hundred and ninety-five, or for recipients determined eligible for assistance subsequent to said date, in the program applicable to the municipality in which they reside at the time of application for assistance. A recipient moving to a municipality not subject to the program in which they are enrolled shall remain enrolled in the program in which they were initially enrolled. Families who would be eligible for benefits under subsection (f), (h) or (j) are ineligible for benefits under chapter one hundred and seventeen A of the General Laws.

The amendment was adopted.

There being no objection, — Messrs. Scibelli of Springfield, Caron of Springfield, Swan of Springfield and Murphy of Springfield moved that the bill be amended by inserting after section 68 the following section:

"SECTION 68A. The commissioner is hereby authorized and directed to consult with the chief executive officers of municipalities that are required to participate in the transitional assistance program established by subsection (j) of section sixty-eight as selected by the commissioner pursuant to subsection (g) of said section. The purpose of such consultation shall be to afford such communities, including but not limited to municipal officials familiar with local human service needs, the opportunity to identify job placements that would benefit from the efforts of recipients participating in the TEMP program established by said subsection (j) and whose placement in said positions would benefit said recipients. Any placements recommended to the commissioner shall not displace municipal employees or any other gainfully employed persons in said municipalities. The commissioner shall further consult upon the recommendation of any such chief executive officer with human service, social service, health care and other organizations in such municipalities for the purpose of identifying other TEMP placements and opportunities. The consultation required by this section shall not apply in any other community not so selected pursuant to subsection (g) unless the number of TEMP placements in any such community exceeds one hundred.”.

The amendment was adopted.
