V. ELOISE BRADT, *Social Worker*
MARGARET OTIS, Ph.D., *Psychologist*
LUCILE DEATHERAGE, *Head Teacher*

The Commonwealth of Massachusetts

TRUSTEES' ANNUAL REPORT

Belchertown State School, Belchertown, Mass.

To His Excellency, the Governor, the Legislature, and the Department of Mental Diseases:

The Trustees have the honor to present their third annual report for the year ending November 30, 1925.

We have now a total bed capacity of 750, of which 300 are for boys and 450 for girls. Having reached our capacity, and with no new dormitories in sight, the outlook is discouraging for the next two or three years to the people of Western Massachusetts who had hoped that the feeble-minded problem had been taken care of,—for the immediate future at least. A little relief will be offered from time to time when boys and girls whose mental and moral defects are not extreme and, after receiving a period of training at the School, are returned to the community. Already twenty-five boys and girls have become useful, self-supporting, self-respecting citizens under this plan.

The past year has been one of steady development. Lack of appropriations made it impossible to continue the much-needed building operations but work in grading, clearing the land and otherwise improving the property has gone on steadily. The farm has been greatly improved, giving the best kind of employment to a group of the older boys and girls.

The industrial work has been ably managed and many useful articles of clothing, as well as certain household furnishings and utensils, have been turned out.

The school department has steadily worked up until now we have great hopes from an enthusiastic, intelligent body of teachers.

Two meetings of special interest in acquainting professional groups with the work of the School have been held during the year. One was a meeting of the Probate Court judges of Western Massachusetts and the other a meeting of the Medical Societies of the same section, at which seventy-seven physicians were present. Much interest and enthusiasm was shown at both meetings and the work appeared as a revelation to the majority.

Educating the public seems to be an important part of the work of the School and will doubtless react to the advantage of both School and community.

Recreation claims some of the best efforts of members of the Staff and takes many forms,—from picnics and ball games in summer to movies and dancing in the winter.

Two musical comedies,—“Sally” and adaptations from “Rose Marie” have been given with great success. Besides several performances for the children, both were given before a selected group of interested people, many of whom came from a distance.

The situation of Belchertown with its close proximity to four colleges gives opportunity for clinics as well as furnishing practical help to students in the departments of education, sociology and psychology.

We urge the following building projects again this year:

1. An Administration Building with fire-proof vaults for records. The building now being used was built for a Storehouse and Bakery and is at the rear instead of being near the entrance where it properly belongs.

2. One Dormitory for Boys.

3. One Cottage for Employees. One should be built to house the new dormitory employees.

4. Garage. *The automobiles are still being stored in the boiler house against the law.*

5. School-house with Gymnasium.

6. Assembly Hall with Employees' Recreation-room.

7. Carpenter Shop (to include Machine-shop). This project is needed during the building operations and should be a fundamental part of School equipment.

We cannot close our report without expressing appreciation for the high type of service rendered by our Superintendent, aided by those faithful employees who have courageously carried on their work.

Respectfully submitted,

THEODORE S. BACON,
EDWIN C. GILBERT,
JOHN R. CALLAHAN,
FRANCES E. CHENEY,

ELIZABETH D. NASH,
FRED A. FARRAR,
JAMES L. HARROP,

SUPERINTENDENT'S REPORT

To the Trustees of the Belchertown State School:

The Superintendent's report for the year ending November 30, 1925, is hereby submitted:

	<i>Males</i>	<i>Females</i>	<i>Total</i>
Number enrolled November 30, 1924	304	380	684
Number actually resident November 30, 1924	290	362	652
Admissions during the year	39	103	142
School cases	19	31	50
Custodial cases	20	72	92
By transfer	2	32	34
From community	29	35	64
From other agencies	8	36	44
Whole number enrolled during the year	343	483	826

Discharged during year	34	24	58
Regular discharge	15	14	29
Visits confirmed	5	4	9
Escape confirmed	—	1	1
By death	14	4	18
By transfer	—	1	1
Number paroled during year	4	12	16
Number enrolled November 30, 1925	309	459	768
Number actually present November 30, 1925	294	435	729
Daily average number actually present	285.19	406.87	692.06
Applications for admission during the year			214

Admissions. There were admitted, by transfer, from the Department of Mental Diseases, 2 females; from Waverley, 1 female; from Wrentham, 2 males and 29 females. There were admitted from the community 37 males and 71 females, 8 males and 36 females being through some agency or the Division of Child Guardianship of the Department of Public Welfare. Of these admissions from the community, 11 were idiots with a mental age of less than three years; 33 were imbeciles with a mental age ranging from three to seven years; 55 were morons with a mental age ranging from eight to twelve years; 4 were borderline cases, 2 retarded normal, one a case of dementia praecox and two cases were unclassified. Of the female patients admitted during the year, 7 had borne one illegitimate child, 2—two illegitimate, 1—three legitimate and two illegitimate, 1—seven legitimate 2 illegitimate and 2 illegitimate miscarriages. Two female patients were pregnant when admitted. One boy admitted is the son of a patient here, two females admitted have each two brothers here, one female admitted has a sister here and one brother and sister admitted have a brother already here. In addition to these relationships, five pairs of sisters were admitted during the year. Seven children admitted were of Mongolian type of defect; two were cretins, three were hydrocephalic, one was blind, nine partly or wholly paralyzed, one was dumb, one was blind in one eye and also deaf and dumb. Eight children admitted had had former care at this School.

Applications. There were 214 applications for admission during the year.

Discharges. There were 57 discharges, 34 males and 23 females. Of these, 16 boys and 10 girls, including 5 boys and 4 girls discharged from visit at end of year, were discharged to relatives; two females were discharged to be committed to the Grafton State Hospital; three males were discharged to be committed to the Monson State Hospital; two females discharged to be committed to the Northampton State Hospital; one male discharged to be committed as a defective delinquent to Bridgewater; two females died while on visit at the State Infirmary,—one from tuberculosis and the other following confinement; one escape was confirmed; one female was discharged to town authorities of another state and one female was discharged to relatives at boat to go to the Azores. Fourteen boys and four girls died during the year. The causes of death were: pulmonary tuberculosis, 5; lobar pneumonia, 2; broncho-pneumonia, 2; chronic tuberculosis, 1; brain abscess, 1; chronic hydrocephalus, 1; hemorrhage into stomach, probably tuberculous, 1; mitral stenosis, oedema of lungs, 1; intestinal paralysis, 1; cardiac decompensation, convulsions, congenital megacolon, 1; leptomeningitis, 1; cerebral congestion due to embolism, vegetative endocarditis, 1.

Health. Viewed as a whole, the health of the pupils has been excellent. During the year the children have been given the Schick test and the reactors have been immunized against diphtheria. All have been inoculated against typhoid and paratyphoid fevers. Twenty-six children have been sent to hospitals for the following conditions or operations: ptosis eyelid, 1; acute or chronic appendicitis, 8; pulmonary tuberculosis, 4; tonsillectomy, 4; infected knee-joint, 1; ovariectomy, 1; observation, 4; scarlet fever, 1; X-Ray examination, 1; double mastoiditis, 1.

Educational Department. In June we were able to obtain the services of a competent head teacher so that the courses of study have been greatly improved.

In our numerous educational classes we have 111 boys and 178 girls who are receiving instruction in sense-training, kindergarten, grammar grades, gymnastics and music. The employment of a music teacher is facilitating the development of a pupil choir, an orchestra among employees, and individual musicalability.

In June four girls and four boys graduated from the school department, completing the highest grade taught in this School.

Industrial Departments. The two departments (boys' and girls' industrial) have continued to do most excellent work, occupying important places in the instruction and occupation of our children of both sexes.

The Girls' Industrial Department, for this year, have produced the following articles: 94 stuffed animals, 3 yarn animals, 36 bean bags, 44 work bags, 2 baskets, 6 bolsters, 81 caps, 305 yards of rag carpet, 39 dish cloths, 83 face cloths, 8 tray cloths, 3 buffet covers, 5 bureau drawer covers with crochet edge, 1 chair back cover, 7 stand covers, 1 table cover, 12 tables doilies, 20 dolls, 19 rag dolls, 72 inches of crochet edging, 58 handkerchiefs, 6 crochet hats, 32 kitchen holders, 1 table mat, 165 prs. mittens, 115 neckties, 1 pr. bead portieres, 5 napkins rings, 194½ yards rag carpets made into rugs, 10 rugs 1½ yd. long, 6 braided rugs, 1 croquet rug, 9 hooked rugs, 33 table runners, 16 scarfs, 274 bureau scarfs, 55 neck scarfs, 1 lamp shade, 1281 prs. socks, 6 bedspreads, 536 prs. stockings, 38 sweaters, 13¾ yds. tatting, 1 yoke.

The Boys' Industrial Department, besides doing much outside work, has produced in the same time 12 blocks, 1 book case, 2 knife and fork boxes, 2 boxes for silver, 250 vegetable boxes, 4 window boxes, 612 brooms, 48 brushes, 48 clothes brushes, 84 Jap brushes, 12 shoe brushes, 288 scrub brushes, 30 shoe daubers, 1 picture frame, 1 rug frame, 6 bottle holders, 1 ice mallet, 4 cone mats, 1 tooth-brush rack, 1 floor polisher, scenery for Assembly Hall, scenery for play "Rose Marie," 36 fly swatters, 802 yds. towelling. Repairs made to: 2 beds, 45 out-door benches, 2 food carts, 152 chairs, 5 cribs, 4 school desks, 3 clothes frames, 6 step ladders, 10 floor polishers, 122 floor rubbers, 4 hand polishers, 5 stair polishers, 69 settees, 2 hall settees, 5615 shoes, 5 sleds, 6 suitcases, 2 tables, 8 waste-baskets, 17 wheelbarrows, 2 window poles. 1771 hair cuts were given.

Services and Entertainments. Religious services are held each Sunday for both Protestants and Catholics. Special services have been held at the discretion of the Pastors.

Entertainments continue to be frequent sources of delight for the children. Formal entertainments in the temporary assembly hall are supplemented by ward parties, "hot dog roasts," walking parties, etc. Special programs are arranged for the various holidays. As much as is possible out-of-door life is arranged for the children.

Two special meetings have been held at the School,—important as placing the activities of the institution before specially interested persons. On May 15 the Trustees entertained the Judges and Registers of Probate of our district. Again on September 15 the Medical Societies of three counties were represented by seventy-five visiting physicians who took considerable interest in the training of the School.

An excellent radio set (portable) has been purchased for use on the various wards. Afternoon dances for the younger and lower grade children have been instituted on Fridays. This innovation is not only good social practice but was rendered imperative on account of the smallness of our temporary Assembly Hall which requires all entertainment, etc., to be duplicated that all may participate.

On May 25 the minstrel troupe of the employees of the Farr Alpaca Co. of Holyoke, very generously entertained the children with an excellent minstrel show.

Social Service Department. The Social Service interests of the institution are broadening to cover so much ground that it is difficult for one field worker to care for all our territory as thoroughly as is advisable. Another year we hope to add an assistant worker to our present force of one.

At the present time 20 girls and 6 boys are out on parole and earning their living. (For detailed report see another section of this report.) These children need a certain kind of family supervision plus periodical reports to and visits from the School.

In May it became necessary to give up the work at the Child Guidance Clinic in Springfield as the time involved was more than could be given by the Visitor.

Special Activities for the year. This year has seen it necessary to establish a waiting list.

Thirty-five additional beds were installed in September giving accommodations for 450 girls and 300 boys.

During July and August 137 children were out on vacation.

Farm. The farm operations show a substantial profit for the year. Out of thirteen dairy herds in the institutions under the Department of Mental Diseases, Belchertown's has stood third in milk production for twelve months. In addition to the ordinary farm activities there has been accomplished much in special lines of permanent improvements, viz: 300 feet of tile was laid in field called "The Flats" which will add $\frac{3}{4}$ acre of land, making this field oblong in shape.

200 feet of tile was laid in swamp-land opposite Farm Colony, adding 2 acres of land which was tilled this year.

Brush, boulders and ledges were removed from land opposite Town Farm adding $1\frac{1}{2}$ acres, making this piece of land 10 acres of tillable ground.

500 feet of ditching and straightening of brooks was necessary, between and at the rear of these two pieces of land.

$2\frac{1}{2}$ acres of new land at the main entrance will be available for crops in 1926.

5 acres of wood land was cleared.

3 acres of land in front of the Superintendent's house were reclaimed and put into tillable condition.

The table of farm products for the year is given in pounds, as follows: Asparagus, 448; beans, string, 9084; beans, dry, 2613; beans, Lima, 3371; beans, shell, 319; beets, 13,206; beet greens, 3675; cabbage, 11,680; carrots, 25,883; cauliflower, 14; celery, 4102; Swiss chard, 2390; sweet corn, 8530; cucumbers, 6251; pickle cucumbers, 6300; egg plant, 1579; lettuce, 1727; onions, 15,132; parsley, 9; parsnips, 3093; peas, 3025; green peppers 2043; pumpkins, 11,252; radishes, 5403; rhubarb, 328; scallions, 141; spinach, 2156; summer squash, 4465; winter squash, 11,235; tomatoes, green or ripe, 33,408; turnips, 34,218. Other farm products were: 15,000 feet logs; 600 cords wood; 12 bbls. No. 1 apples; 145 bbls. apples, seconds; 220 qts. maple syrup; 9 lbs. maple sugar; 3172 qts. strawberries; 1 bu. crab apples; 1 bu. plums; 204 tons ensilage corn; 2340 bu. potatoes; 144,825 qts. milk; 2678 lbs. beef; 553 lbs. veal; 20,915 lbs. pork and the poultry products amounted to \$4078.

Canning Department. The canning department has proven its worth as an adjunct to our culinary processes, one employee and several pupils canning and preserving. Following is a list of the products canned in No. 10 cans which have an average weight of $6\frac{1}{4}$ lbs: peas, 76; blueberries, 38; string beans, 1096; carrot marmalade, 45; apple sauce, 429; tomatoes, 942; pumpkin, 480; tomato mince meat, 31; Chili sauce, 120; picalilli, 204; squash, 222; pepper relish, 258; cucumber relish, 36; beets, 37; cucumber pickles, 76; cucumber pickles, sweet, 372; green tomato pickles, 43; ten-day pickles, 23; mixed pickles, 16; pickled beets, 12. The following were canned in quarts: chicken, 306; blueberries, 30; string beans, 62; plums, 5; carrot marmalade, 2; tomatoes, 16; pumpkin, 1; Chili sauce, 36; mustard pickle, 63; squash, 14, pepper relish, 11; cucumber, relish, 21; cucumber pickles, 9; sweet cucumber pickles, 104; Nancy Hanks pickles, 21; pickled beets, 24; watermelon pickle, 11; 500 qts. from rhubarb purchased; 554— $2\frac{1}{2}$ cans and 57—No. 10 cans, from apples purchased and 240 gallons of cider.

Grounds. Much work has been done on roads and grounds this year. A great deal of this enterprise will be hidden but represents a vast amount of patient labor. The athletic field has been enlarged and improved. Many large rocks and stumps have been pulled or blasted.

During the summer a School cemetery has been developed, located in a pine grove across the state highway and away from the main institution.

Progress of Building. Appropriations for new buildings were few this year, being limited to small amounts for a root cellar and poultry plant. Work on both these projects and on the pigery (allowed in 1924) has been started.

The Superintendent's House was completed and occupied in June. Two other cottages are under process of repair.

Needs for 1926. These continue to be the same as for 1924 and 1925. We are hampered by lack of bed space. Our children, particularly the boys, cannot be properly classified on account of lack of room. We need an Administration and a School Building in particular. No garage for our automotive equipment still constitutes a serious lack. Our temporary assembly hall is quite inadequate and is so small that it necessitates the duplication of all entertainments. If we are to successfully compete with similar schools we must procure necessary buildings and equipment.

Acknowledgments. Friends of the institution have made the following donations: Amherst School children, toys, etc; Children's Aid, Northampton, Christmas packages; Mr. & Mrs. J. A. Osborn, Christmas packages; Springfield High School of Commerce, books, magazines, remnants and games; Mr. & Mrs. Romanowski, Christmas packages; Mrs. Breen, toys; Mr. Micheal Selvin, ten dollars; Dr. H. M. Watkins, magazines; Mr. J. W. Jackson, magazines; Rev. Mr. Hilliard, magazines and Sunday-school papers; Clapp Memorial Library, magazines.

GEORGE E. McPHERSON, M.D.

Superintendent.

CHANGES IN STAFF

J. O. Villeneuve, M.D., appointed as Assistant Physician December 3, 1924, resigned September 8, 1925.

Rena M. Bigalow, M.D., appointed as Assistant Physician October 1, 1925.

Miss Lucile Deatherage appointed Head Teacher June 9, 1925

Miss Ruth Gegenheimer resigned as Social Worker September 20, 1925.

Miss V. Eloise Bradt appointed as Social Worker November 1, 1925.

REPORT OF SOCIAL SERVICE DEPARTMENT

To the Superintendent of Belchertown State School:

During the year ending November 30, 1925, the activities of the Social Service Department have so increased that the number of cases referred has doubled the number of the previous year. Six hundred fifty cases were handled, one hundred fifty-eight of which were cases outside the school, three hundred forty-two continued cases, eighty-one new, and sixty-nine renewed from previous year.

Much of the social worker's time has been spent in supervising the twenty-six pupils who are on parole from the school. Twenty of these are girls. One of the girls is now married. Eleven pupils are paroled to their relatives and the remaining are working elsewhere. Some are doing housework, others are working in factories, on farms, in laundries, or working for the railroad company. The wages range from \$3.00, which includes maintenance and part of the clothing furnished, to \$25.00 per week which one of the boys receives for his outside work.

During the year the social worker investigated eleven placement homes. One girl was returned to the school, but placed out again, a boy was placed with his former employer, and two boys changed their placement homes. One of the above boys was living with his sister and her family, but as the brother-in-law did not prove to be a good influence for the boy, he was placed under the supervision of his mother who had been living alone. The other boy quarreled frequently with his brother who was also living with the aunt's family. The parole pupil is now living in a lodging house near his aunt's home and seems to be doing well.

Sixty-six homes and social investigations were made during the past year to assist in deciding whether or not the pupils should be permitted to go on a vacation. Nineteen personal cases were handled, such as attempts to locate relatives, or to investigate why the pupils had not received news from home. Twelve cases were referred for discharge.

Among other activities of the department, there are the monthly meetings at the State House with other social workers. These meetings include case studies, lectures, and discussions. Formerly assistance was given at the Child Guidance Clinic at Springfield, but because of the increasing number of cases to be handled at this institution, the social worker gave up the work at Springfield. Miss Knight, Director of the Division of Mental Hygiene then took charge.

As the Social Service Department was without a worker from September until November, there are no reports for these months. The new social worker greatly appreciates the assistance that the Superintendent and members of the Staff have given her.

Respectfully submitted,

V. ELOISE BRADT, *Social Worker.*

TREASURER'S REPORT

To the Trustees of the Belchertown State School:

I respectfully submit the following report of the finances of this institution for the fiscal year ending November 30, 1925.

CASH ACCOUNT		
Income	Receipts	
Board of Inmates:		
Private	\$1,008.00
