Introduction

How to use this guide:

This document is intended as a Commonwealth reference guide to obtain specific supplies, services and equipment for emergency and non-emergency situations from existing Statewide Contracts and Multi-Department Contracts¹. Also listed is the Hazardous Incident Response Equipment (HIRE) Contract, HLS01 identifying vendors with specialty supplies, services and equipment having a total cost under \$200,000. Plus, two MEMA designated Statewide “Disaster Debris Services” Contracts for Monitoring and Management are included as HLS02 and HLS03 for use.

This guide allows users to identify commodities, services or equipment in three ways:²

1. **Quick Reference Table:** Identifies supplies, services or equipment that are available through Statewide Contracts and Multi-Department Contracts that are contained in this booklet.
2. **Contract Reference Index:** Provides a quick reference for locating the most commonly used emergency items and navigating this booklet.
3. **Alphabetical Listing of Statewide Contracts:** Provides a convenient listing of Statewide Contracts, Multi-Department Contracts and associated contact information during normal business hours, except where noted. For after hour emergencies please contact an OSD staff person below using their cellular phone number or MEMA directly.

For emergency situations occurring during regular business hours additional resource support is available through the following departments including OSD:

Operational Services Division (OSD).....	617-720-3300
Department of Public Safety.....	617-727-3200
Massachusetts Emergency Management Agency.....	508-820-2000

Other Emergency numbers, regardless of the time of day are:

State Police.....	617-727-2917
For all other emergencies.....	911

1. Utilization and Availability of Federal Supply Schedules (FSS) in an emergency:

The General Services Administration (GSA) has authorized state, local, territorial, and tribal governments as eligible ordering entities to access all Federal Supply Schedules for the purchase of goods and services when expending Federal grants funds in response to Public Health Emergencies (PHE) declared by the Secretary of Health and Human Services under § 319 if the Public Health Services Act, codified at 42 U.S.C. § 247d. Entities are responsible for ensuring compliance with all rules, regulations, and requirements stipulated in the grant funding, by the granting agency, as well as any applicable state and local procurement regulations.

Ordering entities may include terms and conditions required by statute, ordinance, regulation, or order to the extent that these terms and conditions do not conflict with the terms and conditions of the GSA Schedule contract. Both government entities and Schedule contractors are part of this program on a voluntary basis. All orders should include reference to the FSA number.

2. Accessing Contracts via the Internet:

When access to the Internet is available all referenced contracts are available at www.comm-pass.com under Contracts. Click “Contracts”, then Contract Search (right panel), enter “Document Number” and press “Search.”
