WEEK OF JULY 27, 2014
LEASED SPACE SOUGHT FOR STATE AGENCIES**

The Division of Capital Asset Management and Maintenance Office of Leasing and State Office Planning is advertising the availability of the Requests for Proposals (RFPs) listed below. The RFP includes the Lease Proposal form, instructions for submitting proposals, and the Commonwealth standard lease and associated documents. Please note that proposals must be received at the Office of Leasing and State Office Planning at the address listed above by the submission deadline. Proposals received after the deadline will not be considered.

You may request an RFP by writing to the address listed above, telephoning the Office at 617-727-8000 x31355, or by coming to the Office at the address listed above. When requesting a copy of the RFP, please include the name, address, and telephone and fax numbers of the person to receive the RFP; if you mail in your request, please enclose a business card with this information. Allow up to nine business days for receipt of the RFP by mail. If submitting a proposal by mail or other delivery, please allow sufficient time for receipt of the proposal at the appropriate office as mail is routed internally from a central point. These Request for Proposals can also be obtained through the Internet at: <http://www.commbuys.com>

Unless otherwise noted, the Commonwealth is seeking a five-year lease.

**CONTRACTORS SUSPENDED OR DEBARRED
 BY THE
 DIVISION OF CAPITAL ASSET MANAGEMENT**
 (Last Updated 3/12/12)

Please note that this list consists of individuals and firms suspended or debarred by the Division of Capital Asset Management pursuant to [M.G.L. c.29, § 29F](#) and [M.G.L. c.149, § 44C](#) and **does not include individuals or firms suspended or debarred by the Massachusetts Department of Transportation or any other agency of the Commonwealth of Massachusetts** with authority to suspend or debar under [M.G.L. c.29, § 29F](#) or [M.G.L. c.30, § 39R](#). This list also **does not include individuals or firms suspended or debarred by the Massachusetts Office of Attorney General** pursuant to [M.G.L. c.149, § 27C](#) and [M.G.L. c.149, § 148B](#) and the **Massachusetts Division of Industrial Accidents** pursuant to [M.G.L. c.152, § 25C](#). In addition, the United States Government also maintains a list of contractors suspended or debarred by federal agencies net at <http://epls.arnet.gov>. Public awarding authorities are advised to check the Central Register and [Commonwealth Vendor Debarment Lists](#) for updated information regarding the suspension or debarment status of any individual or firm.

Please be advised that applicable law prohibits firms suspended or debarred by either state entities or the federal government from submitting bids or proposals to any Massachusetts public agency or entity. The law also prohibits public agencies and entities from soliciting or considering bids or proposals from suspended or debarred individuals and firms and prohibits execution, renewal or extension of contracts with an individual or firm suspended or debarred by any of the above referenced state or federal governmental entities.

Debarred or Suspended Firm/Individual**	Address	Status	Effective Dates

****Note: At the present time there are no firms or individuals currently suspended or debarred by DCAM. Please be sure to also check the DOT, DIA and AG lists referenced above. Also, where DCAM Certification is required for your project pursuant to M.G.L. c. 149, §44D, please be sure to check www.mass.gov/dcam/certification.**

Re: **Jonas E. Junior**

Dear Secretary Galvin:

Please be advised that Jonas E. Junior, of 191 Sheridan Avenue, Medford, MA 02155, is debarred from engaging, directly or indirectly in the construction of public works, within the meaning of the Prevailing Wage Law (M.G.L. c. 149, §§ 26 - 27H, inclusive), anywhere in the Commonwealth, including but not limited to bidding and contracting, for a period of one year, as provided for by M.G.L. c.149, § 27C(b)(3), beginning, July 10, 2014, through July 9, 2015. Jonas E. Junior violated M.G.L. c. 149, § 27C(b)(3), by failing to comply with civil citations. Jonas E. Junior may complete all remaining public works projects for which he was contracted on or before July 9, 2014.

Very truly yours,

A handwritten signature in black ink, appearing to read "Andrew H. Cahill".

**CONTRACTORS DECERTIFIED BY THE
DIVISION OF CAPITAL ASSET MANAGEMENT**

The following contractors are decertified by the Division of Capital Asset Management from bidding on public building work pursuant to M.G.L. Chapter 149. To determine if a contractor is currently certified by DCAM, please check for the contractor's name on DCAM's certified contractors' listings (at www.mass.gov/dcam under Contractor Certification on the "Related Links" menu). In addition, if you are seeking information on debarred contractors specifically, please be sure to also check information posted by state agencies in the Secretary of State's Central Register publication, as well as with the Massachusetts Attorney General's Office, Department of Industrial Accidents, and Massachusetts Highway Department. These agencies and their contact information can be found at the State of Massachusetts web site accessed at www.mass.gov.

PUBLIC NOTICE

DESIGNER SELECTION BOARD

PUBLIC NOTICE

APPLICANTS PLEASE NOTE:

The following requirements were implemented on the following dates and continue to be requirements.

May 2014

Brief Resume of ONLY those Prime Applicant and Sub-Consultant personnel requested in the Advertisement. Include Resumes of Project Managers. Resumes should be consistent with the persons listed on the Organizational Chart in Question # 6. Additional sheets should be provided only as required for the number of Key Personnel requested in the Advertisement and they must be in the format provided. By including a Firm as a Sub-Consultant, the Prime Applicant certifies that the listed Firm has agreed to work on this Project, should the team be selected.

May 2013

Reasons for Rejection of Applicants

The following list which would result in a Board determination that the application missing the following information will be considered ineligible for further review and the applicant is ineligible for selection either as a result of violation of provisions of law, provisions of Executive Order or rules properly established by the Board would include:

1. Application not signed by a Principal of the firm.
2. Applicant firm is not a designer as defined in Chapter 7C.
3. Applicant firm is not of the type (i.e. A, A/E, E) requested in the advertisement.
4. The P.I.C. of the prime applicant does not meet the requirements of the advertisement.
5. Failure to include resume of one or more of personnel listed on the organizational chart or otherwise required.
6. Application does not include both MBE and WBE.
7. MBE and/or WBE goals are met with non-requested prime or sub-consultants.
8. Ownership requirements as defined by Chapter 7C not fulfilled.
9. Application does not include all requested sub-consultants.
10. All sub-consultants must be registered in the Commonwealth of Massachusetts when such registration is available.
11. Section #12 of the application is not answered with "Yes" or "No".
12. No Master File Brochure on file.
13. Failure to supply sub-consultants acknowledgement form.

February 2013

DSB Application Update – Section 7 - Resume

Brief Resume of ONLY those Prime Applicant and Sub-Consultant personnel requested in the Advertisement. Confine responses to the space provided on the Form and limit Resumes to ONE person per discipline requested in the Advertisement. Include Resumes of Project Managers. Resumes should be consistent with the persons listed on the Organizational Chart in Question # 6. Additional sheets should be provided only as required for the number of Key Personnel requested in the Advertisement and they must be in the format provided. By including a Firm as a Sub-Consultant, the Prime Applicant certifies that the listed Firm has agreed to work on this Project, should the team be selected.

DSB MASTER FILE BROCHURE (Updated January 2011)

In addition to the individual application form separately filed for each specific project, architects, engineers, planners, construction managers, and related construction industry consultants who wish to be considered for appointment as program consultants, designers, or construction managers on state projects under the jurisdiction of the Designer Selection Board must submit current (within one year of application) credentials in the form of a master brochure as specified on the new DSB Master File Brochure (Updated February 2011), (attached herein). Applicants may supplement the required material with their printed brochure, including pictures and illustrations and any other information which the applicant deems essential to be representative of his or her capabilities. Please utilize return receipt if an acknowledgment is desired. All material shall become the property of the Commonwealth, may be disposed of without notification, and shall be considered public information.

Electronic copies of the forms are available at the following Commonwealth's Web site: www.mass.gov/dcam/dsb

CHAPTER 579

In accordance with Chapter 579 of the Acts of 1980 all contracts for designer services for all capital facility projects entered into on or after January 1, 1982 shall conform to those provisions specified in this act. Some of the major changes mandated by this legislation include the following:

1. Lump sum design fees may be set by the Commissioner prior to DSB selections process, or negotiated after the DSB selection process. (See M.G.L. C.7C, §50). If designer's fee is negotiated, he must file a truth-in-negotiations certificate. (Revised to M.G.L. C.7C, §50 per Chapter 165 of 2012).
2. There can be no change in consultants from those named on the DSB application unless approved by the Commissioner and reported to the DSB. The director may require a Consultant employed by the designer to obtain and maintain liability insurance.

Section 50

- (a) In the selection of a designer when the fee for design services has been set by the commissioner prior to the selection process, the commissioner shall appoint a designer from among the list transmitted to him or her under §49. If the commissioner appoints any designer other than the one ranked first by the board, he or she shall file a written justification of the appointment with the board.
- (b) When the fee for design services is to be negotiated, the commissioner shall review the list transmitted by the board, and may exclude any designer from the list if a written explanation of the exclusion is filed with the board. The commissioner shall then appoint a designer based on successful fee negotiation. The commissioner or persons designated by him or her shall first negotiate with the first ranked designer remaining on the list. Should the commissioner be unable to negotiate a satisfactory fee with the first ranked designer within thirty days, negotiations shall be terminated and negotiations undertaken with the remaining designers, one at a time, in the order in which they were ranked by the board, until an agreement is reached. In no event may a fee be negotiated which is higher than a maximum fee set by the commissioner prior to selection of finalists. Should the commissioner be unable to negotiate a satisfactory fee with any designer initially selected as a finalist by the board, the board shall recommend additional finalists in accordance with the provisions of this chapter. The commissioner may require a finalists with whom a fee is being negotiated to submit a fee proposal and include with it such information as the commissioner requires to provide current cost and pricing data on the basis of which the designer's fee proposal may be evaluated.
- (c) All fees shall be stated in designer's contracts and in any subsequent amendment thereto as a total dollar amount. Contracts may provide for equitable adjustments in the event of changes in scope or services.

ELIGIBILITY REQUIREMENTS FOR ALL APPLICANTS TO THE DSB

1. Submission of the DSB Master File Brochure (Updated February 2011) in the format required, and at least annually, continuously update same.
2. Updating of the DSB Master File Brochure (Updated February 2011) when there are significant principal or key personnel changes in a firm.
3. Receipt of applications from designers who are full time employees of another firm shall disqualify the applicant.
4. A person may not submit more than one application as a "prime" applicant on the same project. The applications of any such applicant shall be considered disqualified. This rule does not preclude a person applying as a "prime" applicant even though that applicant is also listed as a consultant on one or more other "prime" applications on the same project. For the purposes of this paragraph the term "person" means an individual, corporation, association, partnership or other legal entity.
5. Simultaneous receipt of applications from individuals or group of individuals who are associates or who are involved in an association or corporation filing for the same project shall disqualify the applicants.
6. Applicants agree to execute the current forms of the Commonwealth of Massachusetts Contract for Study Services (Revised 11/10) and Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 2/10) (which replace the former DCAMM Form C-2 or the DCAMM Form C-3 and their successors).
7. Chapter 7C, § 51 requires that on public design contracts where the total design fee is expected to exceed \$10,000 or for the design of a project for which the estimated construction cost is expected to exceed \$100,000 the designer shall:
 - a) File its latest CPA or PA audited financial statement with the Division of Capital Asset Management and Maintenance (DCAMM), and continue to do so annually throughout the term of the contract;
 - b) Submit a statement from a CPA or PA that states that they have examined management's internal auditing controls, and expresses their opinion regarding those controls.
8. Every application or statement filed pursuant to this section shall be sworn to under penalties of perjury. A designer, programmer or construction manager who has been determined by the Board to have filed materially false information under this section shall be disqualified by the Board from further consideration for any project for such time as the Board determines is appropriate. **UNSIGNED APPLICATIONS WILL NOT BE CONSIDERED BY THE BOARD.**

ADDITIONAL REQUIREMENTS FOR DESIGNERS PROVIDING PLANS & SPECIFICATIONS

(a) Certification that the applicants' legal entity, if applying to perform design services other than preparation of studies, surveys, soil testing, cost estimates, programs, or construction management is a designer as defined. The definition of a design professional as listed in M.G.L. C.7C, §44 follows:

"Designer," an individual, corporation, partnership, sole proprietorship, joint stock company, joint venture, or other entity engaged in the practice of architecture, landscape architecture, or engineering, which satisfies the following:

- (i) if an individual, the individual is a registered architect, landscape architect, or engineer; (registered in the Commonwealth of Mass.)*
- (ii) if a partnership, a majority of all the partners are persons who are registered architects, landscape architects, or engineers; (registered in the Commonwealth of Mass.)*
- (iii) if a corporation, sole proprietorship, joint stock company or other entity, the majority of directors or a majority of the stock ownership and the chief executive officer are persons who are registered architects, landscape architects or engineers, and the person to be in charge of the project is registered in the discipline required for the project.*

[Note: This requires that the chief executive officer and a majority of the directors or a majority of the stock ownership be registered architects, landscape architects or engineers, and that the person to be in charge of the project be registered in the discipline required for the project. "Registered" means registered in the Commonwealth of Massachusetts.]

(iv) if a joint venture, each joint venturer satisfies the requirements of this section.

(b) As a condition of application, each applicant agrees to carry, if selected for the new project, (other than a master plan, program, or construction management) professional liability insurance in the amount equal to 10% of the estimated construction cost of the project, in conformance with the provisions of Article 12 of study contract and Article 12 of the design contract, i.e. minimum coverage of \$250,000 and maximum coverage of \$5,000,000. Note that the requirement for professional liability insurance shall apply to both the Commonwealth of Massachusetts Contract for Study Services (Revised 11/10) and Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 2/10) when a project is advertised by both study and design services.

CRITERIA FOR SELECTION OF SEMI-FINALISTS AND FINALISTS

IN CONFORMANCE WITH CHAPTER 7C, SECTION 49

1. Prior similar experience best illustrating current qualifications for this project.
2. Identity and qualifications of the key persons and consultants who will work on this project.
3. Depth of the firm with respect to size and complexity of the project.
4. Past performance on public and private projects.
 - a. Quality, clarity, completeness and accuracy of contract documents and design contract.
 - b. Effectiveness of meeting established program requirements and function within allotted budget.
 - c. Accuracy of cost estimates including assessment of contractors' requisitions for payment and change order proposals.
 - d. Management ability to meet schedules including submission of design and contract documents and processing of shop drawings, contractors' requisitions and change orders.
 - e. Coordination and management of consultants.
 - f. Working relationship with contractors, subcontractors, Division of Capital Asset Management and Maintenance (DCAMM) staff and agency representatives.
5. Financial stability - including prompt payment of consultant fees.
6. Current workload with DCAMM and other public agencies.
7. Geographical location of the firm with respect to the proposed project.
8. Participation of MBEs and WBEs as prime consultants or sub-consultants in a role consistent with the participation goals set forth for the project.
 - a. The Designer Selection Board adheres to M.G.L. C.7C, § 6, Executive Orders 524 and 526 as implemented by the Division of Capital Asset Management and Maintenance establishing goals for minority business enterprise (MBE) and women business enterprise (WBE) participation on all design contracts unless otherwise noted. (See attached pages 4-8)

- b. The Minority Business Enterprise and Woman Business Enterprise participation goals established for each contract are set forth on the first page of the “Designer Selection Board Project Criteria” solicitation for that contract.

PARTICIPATION BY MINORITY OWNED BUSINESSES AND WOMAN OWNED BUSINESSES

Pursuant to M.G.L. C.7C, § 6, Executive Orders 524 and 526, the Commissioner of the Division of Capital Asset Management and Maintenance (DCAMM), as designee of the Secretary of Administration and Finance, has developed the following goals and procedures to encourage full participation by minority business enterprises (MBEs) and women businesses enterprises (WBEs) (collectively MBE/WBEs) on contracts for design services entered into by DCAMM and other public awarding authorities with MBE/WBE Participation Programs.

GOALS

Subject to the terms of this memorandum, the following MBE/WBE participation goals shall apply to the total dollar value of all study and design contracts awarded for DCAMM projects:

The Minority Business Enterprise and Women Business Enterprise (MBE/WBE) participation goal is a combined goal of 17.9%.

Applicants must utilize a mix of both MBE and WBE firms whose participation, when added together, meets the overall combined goal set for the Contract. The combined goal requires a reasonable representation of both MBE and WBE firm participation. The Combined MBE/WBE goal must be met within the list of requested prime and sub-consultants. All applicants must indicate in the prime firm’s application how they or their consultants will meet these goals and will be evaluated on that basis.

Applications from MBE and WBE firms as prime consultant are encouraged. Applicants that are themselves MBE or WBE certified will be required to bring a reasonable amount of participation by a firm(s) that holds the certification which is not held by the applicant to the project. Proposed MBE/WBE participation plans that include solely MBE or solely WBE participation, or have only nominal participation by one or the other to meet the combined goal, will not be considered responsive. Applicants are strongly encouraged to utilize multiple disciplines and firms to meet the MBE/WBE goal. Consultants to the prime can team within their disciplines in order to meet the MBE/WBE goal, but must state this relationship on the organizational chart.

If the contracting design firm is not itself an MBE or WBE, then MBE/WBE participation credit will be given for the value of any work under the contract that is actually performed by each MBE or WBE consultant, subcontractor or sub-consultant (hereafter “subcontractors”) to the Designer.

Although the contract contains a combined goal, participation by MBE and WBE firms must be reported and tracked separately.

MODIFICATION OF M/WBE PARTICIPATION GOALS FOR PARTICULAR PROJECTS

DCAMM reserves the right to reduce or waive the MBE/WBE participation goals stated above for a particular project prior to the receipt of applications to the Designer Selection Board upon its own initiative or upon the request of any applicant if DCAMM determines that it is not feasible for a non-MBE/WBE design firm to meet the MBE/WBE goal established for the project based upon any or all of the following: (i) actual MBE/WBE availability, (ii) the geographic location of the project to the extent related to MBE/WBE availability, (iii) the contractual scope of work, (iv) the percentage of work available for subcontracting to MBE/WBEs, or (v) other relevant factors as determined by DCAMM.

The MBE/WBE participation goals established for each project are set forth in the Designer Selection Board Project Criteria published for that project.

After a project is advertised, requests from prospective applicants to reduce or waive the MBE/WBE participation goals for that project, with all supporting documentation, must be submitted with the application, with a copy to DCAMM's Compliance Office, One Ashburton Place, 15th Floor, Boston, MA 02108. Except as provided below, DCAMM will not consider any request to reduce or waive the MBE/WBE participation goals for a project if the request is received after this deadline.

DETERMINATION OF MBE/WBE STATUS

A minority owned business shall be considered an MBE only if it has been certified as a minority owned business by the Supplier Diversity Office ("SDO") (formerly SOMWBA). A woman owned business shall be considered a WBE only if it has been certified as a woman owned business by SDO. Certification as a disadvantaged business enterprise ("DBE"), certification as an MBE/WBE by any agency other than SDO, or submission of an application to SDO for certification as an MBE/WBE shall not confer MBE/WBE status on a firm.

Minority owned businesses and woman owned businesses are strongly encouraged to submit applications for certification as MBE/WBEs to SDO. Information is available from SDO, One Ashburton Place, 13th Floor, Boston, MA 02108 (617) 502-8831 and at www.mass.gov/sdo

IDENTIFICATION OF MBE/WBE PARTICIPANTS BY THE SELECTED DESIGNER

The current SDO Certification Letters showing that the MBE/WBE is certified in the area of work for which it is listed on the application must be submitted for each and every MBE and WBE firm listed on the application, and must be submitted with the application.

Not later than five (5) working days after the Designer receives notice of selection for the advertised project, (A-5 Letter), the Designer shall submit to DCAMM's Compliance Office (i) a Letter of Intent for each of the M/WBEs that will perform work under the contract, and (ii) a Schedule of MBE/WBE Participation. The form of Letter of Intent and Schedule of MBE/WBE Participation are included in this application package.

Within five (5) working days after receipt of the Letters of Intent, DCAMM's Compliance Office shall review and either approve or disapprove the Designer's submissions. Without limitation, DCAMM reserves the right to reject the Letter of Intent of any MBE/WBE that is to perform work in a category that is not listed in its SDO certification, or if the price to be paid for the MBE/WBE Work as stated in the Letter of Intent does not bear a reasonable relationship to the value of such work as reasonably determined by DCAMM. If the Designer has not submitted an appropriate Schedule of MBE/WBE Participation and appropriate Letters of Intent and SDO certification letters establishing that the MBE/WBE participation goal for the project will be met, the Designer may be considered ineligible for award of the contract and DCAMM may award the contract to the second ranked Designer, subject to that Designer's compliance with these conditions.

DCAMM reserves the right to reduce or waive the MBE/WBE participation goals for a project prior to the final selection of a designer, provided that no such reduction or waiver shall be granted except under the following circumstances: the Designer must establish and document that it has been unable to obtain commitments from MBE/WBE subcontractors sufficient to meet the MBE/WBE goals for the project after having made a diligent, good faith effort to do so; all such documentation must accompany the Designer's request to reduce or waive the MBE/WBE participation goal submitted with its application and shall include, at a minimum, the following:

- A list of all items of work under the contract that the Designer made available for subcontracting to MBE/WBEs. The Designer shall identify all items of work that the Designer did not make so available and shall state the reasons for not making such work available for subcontracting to MBE/WBEs. The Designer shall also demonstrate that, where commercially reasonable, tasks were divided into units capable of being performed by MBE/WBEs.
- Evidence that the Designer sent written notices soliciting proposals to perform the items of work made available by the Designer for subcontracting to MBE/WBEs to all MBE/WBEs qualified to perform such work. The Designer shall identify (i) each MBE/WBE solicited, and (ii) each MBE/WBE listed in the SDO directory under the applicable work

category who was not solicited and the reasons therefor. The Designer shall also state the dates notices were mailed and provide a copy of the written notice(s) sent.

- Evidence that the Designer made reasonable efforts to follow up the written notices sent to MBE/WBEs with telephone calls or personal visits in order to determine with certainty whether the MBE/WBEs were interested in performing the work. Phone logs or other documentation must be submitted.
- A statement of the response received from each MBE/WBE solicited, including the reason for rejecting any MBE/WBE who submitted a proposal.
- Evidence of efforts made to assist MBE/WBEs that need assistance in obtaining insurance, or lines of credit with suppliers if the inability of MBE/WBEs to obtain, insurance, or lines of credit is a reason given for the Designer's inability to meet the MBE/WBE goals.
- The Designer also shall submit any other information reasonably requested by DCAMM to show that the Designer has taken all actions which could be reasonably expected to achieve the MBE/WBE participation goals.

The Designer may submit any other information supporting its request for a waiver or reduction in the MBE/WBE participation goals, such as evidence that the Designer placed advertisements in appropriate media and trade association publications announcing the Designer's interest in obtaining proposals from MBE/WBEs, and/or sent written notification to MBE/WBE economic development assistance agencies, trade groups and other organizations notifying them of the contract and the work to be subcontracted by the Designer to MBE/WBEs.

Requests by a selected Designer to reduce or waive the M/WBE participation goals for a particular project based upon the Designer's inability to obtain commitments from MBE/WBE subcontractors sufficient to meet the MBE/WBE goals after having made a diligent, good faith effort to do so must be received by DCAMM not later than with that firm's application to the DSB.

The Designer's compliance with these procedures and goals is a prerequisite for award of the contract, provided that DCAMM reserves the right to waive minor defects in documents and extend time limits in its sole discretion.

SCHEDULE FOR PARTICIPATION
BY MINORITY/WOMEN BUSINESS ENTERPRISES
DIVISION OF CAPITAL ASSET MANAGEMENT AND MAINTENANCE

DCAMM Project Number _____ Project Location _____

Project Name _____

This form must be submitted to DCAMM's Compliance Office by the Designer within five (5) working days after the Designer receives notice of selection (A-5 Letter). A Letter of Intent and SDO certification letter for each MBE/WBE must be submitted with this Schedule of MBE/WBE participation.

DESIGN FIRM CERTIFICATION:

The undersigned Design firm agrees that it will subcontract with the following listed firms for the work described and for the dollar amounts listed below. For purposes of this commitment, the MBE and WBE designation means that a business has been certified by SDO as an MBE, WBE or M/WBE. The Designer must indicate the MBE/WBE firms it intends to utilize on the contract as follows (attach additional sheets if necessary):

Company Name & Address	MBE or WBE	Describe MBE/WBE Scopes of Work	Total Dollar Value of Participation

DCAMM Project Number _____ Indicate SDO Certification:

Project Name _____ ___ MBE

Project Location _____ ___ WBE

To _____ ___ M/WBE
Name of Designer

1. This firm intends to perform work in connection with the above project.
2. This firm is currently certified by SDO to perform the work identified below, and has not changed its minority/women ownership, control, or management without notifying SDO within thirty (30) days of such a change. Attached is a copy of the most recent SDO certification letter issued to my company.
3. This firm understands that if the Designer referenced above is awarded the contract, the Designer intends to enter into an agreement with this firm to perform the activity described below for the prices indicated. This firm also understands that the above-referenced firm, as Designer, will make substitutions only as allowed by the Contract and applicable law.
4. This firm understands that under the terms of the Contract, only work actually performed by an MBE/WBE will be credited toward MBE/WBE participation goals, and this firm cannot assign or subcontract out any of its work without prior written approval of the DCAMM Compliance Office, and that any such assignment or subcontracting will not be credited toward MBE/WBE participation goals.

THIS OFFICIAL FORM MAY NOT BE ALTERED
POLICY ON EMPLOYMENT OF STUDY CONSULTANTS FOR SUBSEQUENT DESIGN PROJECTS

Amended by the Designer Selection Board on December 15, 2000

1. The Commissioner may appoint a designer to perform continued or extended services if the following conditions are met:
 - (i) *a written statement is filed with the Board explaining the reasons for the continuation or extension of services;*
 - (ii) *the program for the design services is filed with the Board if one is required by the regulations of the division; and*
 - (iii) *the Board approves the appointment of the designer for continued or extended services and states the reasons therefor.*

2. When the Board has required that applicants list consultants which the applicants may employ, in no event shall a consultant be used who is debarred pursuant to Section forty-four C of Chapter one hundred and forty-nine as amended, and any change or addition to the consultants named in the application and allowed by the Board upon appointment must be approved by the Deputy Commissioner and reported to the Board, along with a written statement by the designer or construction manager of the reasons for the change.

GENERAL INSTRUCTIONS FOR FILING APPLICATIONS

1. As of 05/2014, the application form required for submission to the Designer Selection Board has been updated. The form is as follows: DSB Application Form (Updated May 2014) (included herein). All specific project applications must be submitted on the DSB (Updated May 2014) Application form. Failure to supply above documents will result in rejection of application.
2. Please mail One Original copy of the Master File Brochure to: **Designer Selection Board, One Ashburton Place, Room 1004, Boston, MA 02108**. Electronic copies are not accepted.
3. An electronic copy of the DSB Master File Brochure (Updated February 2011) and the DSB Application Form (Updated May 2014) are available for download from the Web site address: www.mass.gov/dcam/dsb.
4. Applications should be limited to the application plus a maximum of **3 supplementary pages** (double sided) unless otherwise noted. **Please ensure that the Original copy of the application that contains the sub-consultant acknowledgement and the SDO certifications are clearly marked ORIGINAL.** Computer generated forms are allowed provided they do not substantially deviate from the DSB format. **Submit 16 copies. Please duplicate forms double-sided, if possible, to minimize paper waste.**
5. No cover letters, binders and superfluous material. **Please staple upper right corner, landscape.**
6. DSB recommends that the principal who would be in charge of the project make sure that the form is complete including appropriate signature. Unsigned applications will not be considered.
7. Out of State Prime Firms MUST be registered with the Secretary of State. Please attach (one copy only with Original application) firm's State Registration Certificate – Registered to do business with the Commonwealth of Massachusetts.
8. When citing work performed by the applicant while employed by another firm, make certain said firm is properly identified including the individual's level of responsibility.
9. By including a firm as a sub-consultant the applicant certifies that the listed firm has been advised that it was being included in the applicants team and it has agreed to work on this Project should the team be selected. It is a requirement that all applicants supply a signed DSB SC-A's (Sub-Consultant Acknowledgement). There can be no change in consultants from those named unless approved by DCAMM and reported to the Designer Selection Board (C.7C, §51) It is a requirement that all applicants supply the signed document, attached to the application, by the listed sub-consultants stating that they are aware and agree to being nominated by said applicant. Failure to supply above documents may result in rejection of application.
10. DCAMM contracts require that the Prime and Sub-Consultant personnel must be registered by the Commonwealth of Massachusetts in their respective disciplines and therefore, when applicable, the DSB **requires** registration in the disciplines listed in order to satisfy DCAMM contract requirements.
11. A person may not submit more than one application as a "prime" applicant on the same project. The applications of any such applicant shall be considered disqualified. This rule does not preclude a person applying as a "prime" applicant even though the applicant is also listed as a consultant on one or more other "prime" applications on the same project. For the purposes of this paragraph the term "person" means an individual, corporation, association, partnership or other legal entity.
12. Eligibility requirements are set forth in this Public Notice in item 8(a). Sub-paragraph (iii) of item 8(a) requires: 1) the majority of directors or a majority of the stock ownership to be persons who are Mass. registered architects, landscape architects or engineers; 2) the chief executive officer to be a person who is so registered; and 3) the person to be in charge of the project to be so registered in the discipline required for the project.
13. When the Prime applicant is to fulfill any of the requested consultant roles in the advertisement, then that role shall be defined in the organization chart as the applicant. It should also be referenced in Section 7 (resume) and Section 8 (experience) such that it proves the applicant is skilled in supplying these roles on the project.
14. Current SDO Certification Letters showing that the MBE/WBE is certified in the area of work for which it is listed on the application must be submitted for each and every MBE and WBE firm listed on the application, and must be submitted with the original application.
15. Applicants are advised to apply only for those projects for which they are demonstrably qualified, as it reflects negatively on the applicant's credibility if the firm applies for every job advertised when only marginally qualified.
16. Applications should be mailed to the **Designer Selection Board, One Ashburton Place, Room 1004, Boston, MA 02108**.
17. The Board relies almost exclusively on the information submitted on the applications to arrive at a short list of semi-finalists. Therefore, do not include statements that refer to the Master File Brochure for additional information. The Master File Brochures are usually considered upon request of a DSB member when additional supplementary information is needed.

18. Joint ventures are not encouraged. However, they may be advantageous for complex building types in which the participants have a combination of unique skills with a previous successful record of working together.
19. Current workload with DCAMM, other public agencies and the private sector are taken into consideration, however, usually only after the DSB has narrowed down the original applicants to a short list of qualified semi-finalists. The Board fosters effective broad-based participation in public work within the design professions.

NOTE **CMR 810 Publication/Instructions for Designers** (Form 9) was replaced by Designers Procedures Manual available on the Web site: <http://www.mass.gov/anf/docs/dcam/dlforms/designers-procedures-manual-aug08.pdf>

() OTHER:

MBE/WBE PARTICIPATION:

In accordance with M.G.L. C.7C, §6 and Executive Orders 524 and 526, DCAMM has established a minimum combined MBE/WBE participation goal of 17.9% of the overall value of the study and final design contracts for this project. Applicants must utilize a mix of both MBE and WBE firms whose participation, when added together, meets the overall combined goal set for the Contract. The combined goal requires a reasonable representation of both MBE and WBE firm participation. The Combined MBE/WBE goal must be met within the list of requested prime and sub-consultants. All applicants must indicate in the prime firm's application how they or their consultants will meet these goals and will be evaluated on that basis. Further information about the MBE/WBE Program appears in the DSB Public Notice at pages 4-8 titled "Participation by Minority Owned Businesses and Woman Owned Businesses," in the Commonwealth of Massachusetts Contract for Study Services (Revised 9/13) at Attachment C, in the Commonwealth of Massachusetts

Contract for Final Design and Construction Administration Services (Revised 9/13) at Attachment E, and on the Supplier Diversity Office (formerly SOMWBA) website: <http://www.mass.gov/sdo>. Applications from MBE and WBE firms as prime consultant are encouraged. Applicants that are themselves MBE or WBE certified will be required to bring a reasonable amount of participation by a firm(s) that holds the certification which is not held by the applicant to the project. Proposed MBE/WBE participation plans that include solely MBE or solely WBE participation, or have only nominal participation by one or the other to meet the combined goal, will not be considered responsive. Applicants are strongly encouraged to utilize multiple disciplines and firms to meet the MBE/WBE goal. Consultants to the prime can team within their disciplines in order to meet the MBE/WBE goal, but must state this relationship on the organizational chart (Section 6 of the application form).

APPROPRIATION LANGUAGE:

1102-2008: For costs associated with planning and studies, dispositions, acquisition of land and buildings and interests therein by purchase, lease for a term, including any extensions, not to exceed 50 years, gift or other transfers, or by eminent domain under chapter 79 of the General Laws, for the preparation of plans and specifications, repairs, construction, renovations, improvements, asset management and demolition, disposition and remediation of state-owned and former county facilities and grounds and for costs associated with repair and maintenance of buildings and building systems and equipment at various facilities of the commonwealth . . .

GENERAL SCOPE OF WORK:

The selected Designer will prepare a certifiable study for renovation of 226 Main St. in Brockton, MA as the site of a collaborative regional facility jointly operated by Massasoit Community College (MCC), Bridgewater State University (BSU), and the University of Massachusetts Boston (UMB). The project is the first of two phases that will enhance Brockton’s downtown by creating construction and permanent jobs, attracting more people to the area, increasing foot traffic, and providing access to short-term training, certificate, and degree programs at the three institutions.

226 Main Street, Brockton, MA

Project Background

The Downtown Brockton Higher Education Collaborative

The City of Brockton, the Commonwealth of Massachusetts, Higher Education partners, Brockton 21st Century Corporation, the area legislative delegation and local business interests are working together to further state priorities and advance growth and opportunity through investment in education in Downtown Brockton. This project represents the first collaborative educational campus in Southeastern, MA. The 226 Main St. renovation will enhance the Downtown by bringing in more people to enliven the area, increasing foot traffic on Main St., promoting shared services among academic institutions, and by creating construction and permanent jobs.

The Higher Education Partners

The educational programs for this first facility launching the new Downtown Brockton campus will be offered to students by a collaborative of higher educational institutions (the Collaborative) consisting of Massasoit Community College, Bridgewater State University, and the University of Massachusetts Boston. The Collaborative's mission is to "... bring their strengths together to create a downtown Brockton-centered learning community providing support and a seamless pathway to student success using effective and innovative technologies and pedagogies." This effort will provide accessible, affordable certificate, degree and short-term training programs for students, "[it will be a place] where current and future students can attain their educational goals."

Massasoit Community College

Massasoit Community College believes that all people should have access to affordable, quality education. The Downtown Brockton Learning Center will provide the community with relevant and meaningful educational opportunities through a variety of instructional delivery systems, many of which increasingly integrate teaching with advanced technology. In collaboration with Bridgewater State University and the University of Massachusetts Boston, the Learning Center will provide a working and learning environment that is devoted to innovation, creativity, and the open exchange of ideas, creating a campus climate based upon openness and trust, integrity, clear communication, involvement in decision making, and respect for individuals. The collaboration will allow the three institutions to direct their human and material resources

where they will provide the greatest benefit to the most students and to the communities we serve. The new facility will create a learning environment that is supportive, yet fosters high expectations for achievement and will be recognized by the community as a caring institution, committed to high academic standards and dedicated to inspiring students to reach their full potential.

Bridgewater State University

Bridgewater State University has a responsibility to educate the residents of Southeastern Massachusetts and the Commonwealth, and to use its intellectual, scientific and technological resources to support and advance the economic and cultural life of the region and the state. As of the fall of 2013, there are 11,267 students enrolled in undergraduate and graduate programs and studies. Projections to 2015 are for a total headcount of 12,500 students. Currently, the University has 328 full time faculty members with the expectation of continued growth.

Programmatic offerings at the Brockton site will represent the University's colleges of Business, Education & Allied Studies, Humanities & Social Sciences, Science & Mathematics, the College of Graduate Studies and the School of Social Work. Offerings will be coordinated with those of the University of Massachusetts Boston and Massasoit Community College. On site student services and support such as admissions, financial aid, and academic advising are to be provided. Classrooms and instructional technology will be equal to that of the Bridgewater campus standards.

University of Massachusetts Boston

Off-campus learning centers serve as a pathway for access to the University of Massachusetts Boston. Providing opportunities for high demand traditional classroom learning offerings and serving as a portal for students to enroll in online courses and programs, off-campus locations fulfill our mission of community engagement. Extensive, deeply rooted, and continually informed by our work as educators and researchers, the off-campus partnership with Massasoit Community College and Bridgewater State University affords the University of Massachusetts Boston the capability to serve a broad spectrum of students from a wide range of backgrounds and to help prepare them to compete and thrive at the highest levels. Additionally, the collaborative nature of this project is necessary to successfully meet the need for new knowledge or the capacity to apply that knowledge in a manner that properly responds to the demands of societies.

The Site

226 Main Street is a vacant retail property in the City of Brockton. It is a state-listed historic property built in 1927 and consists of three 9,600 GSF floors above grade and a basement below. The masonry terra-cotta clad storefront is in very good condition but the roof, interior and structure are in very poor condition, the basement ceiling height is low and the structural columns too densely spaced for flexible reuse as classroom space.

Project Program

A Program Fit and Budget report for re-use of 226 Main Street by the Collaborative was completed in July 2014 by Icon Architecture. The vision, operational concept and architectural program proposed by the report were developed in a series of workshops and meetings including representatives of DCAMM, the Collaborative, the City, and the state delegation. The proposed 33,400 GSF program includes

- An office for a program manager representing the Collaborative
- Nine high technology general, SCALE-UP (Student-Centered Active Learning Environment for Undergraduate Programs), and flex lab classrooms
- A computer lab and lecture hall
- Shared entry/information area, information commons, collaboration rooms, and vending space
- Four advising offices
- Large and small conference rooms
- Nine faculty offices
- Support, storage, and reception space

The report also recommends:

- Retaining the building façade
- Demolition and replacement of the interior structure and rear façade
- Replacing and raising the roof to accommodate HVAC distribution
- Adjusting the floor to floor heights to allow for basement level program use and a first floor mezzanine.

Design Objectives

Design for Collaborative Instruction

The renovated facility will be architecturally flexible, transparent, and connected internally and to the street beyond. It will provide state-of-the-art, appropriately sized and equipped instructional space incorporating the most current and best practices and technology for education and training representing the collaborative vision and instructional needs of MCC, BSU and UMB. In addition to a physically networked environment, the Brockton Learning Center will be virtually networked to all three campuses and their on-line resources.

Design for Downtown Brockton

The project will be the first of two phases that will create an urban campus complementing and enhancing Brockton's Downtown commercial and institutional resources and physical image. The study will include, and proceed in the context of a fully articulated vision for Brockton's downtown developed with and shared by representatives of the Collaborative, DCAMM, the City, local businesses, and the state legislative delegation.

Design for Operations and Maintenance

The project design will optimize facility maintainability and minimize maintenance time and effort. The study and design process will include maintenance considerations and requirements based on input from the DCAMM Management and Maintenance team, and the designer will provide a detailed outline of considerations for operations and maintenance as part of the study.

Design for High Performance and Renewable Energy Sources

The project will achieve the highest feasible energy efficiency and will consider geothermal, solar and other renewable energy sources, including opportunities for electric vehicle charging. Civil and landscape design will emphasize water conservation and low-maintenance ecologically appropriate planting design.

DETAILED SCOPE OF WORK

Study Purpose

The Designer will prepare a certifiable study that establishes the scope and estimated construction cost (ECC) of the project for final design as described in *Study Phases* below.

Study Process

The Designer is responsible for the development, documentation, coordinated analysis, and presentation of all data and products required to assist DCAMM and the collaborating institutions in selecting the preferred design option, to support pre-schematic design, and to develop an accurate ECC. Key conditions, issues, and options will be presented for discussion and review at a series of meetings with DCAMM and the Collaborative scheduled at bi-weekly intervals throughout the study, recorded in the Designer's meeting minutes, and documented in bound reports at the end of Phases 2 and 5. Presentation of findings to the City, regulating agencies, and other stakeholders at key points in the process will also be required.

Study Phases

Phases, tasks and deliverables for the study may be performed and delivered concurrently according the schedule developed by the Designer in Phase 1 (see *Study Schedule*, below).

1. Problem Definition and Schedule

Participate in initial project meeting with a design committee representing the Collaborative; review Icon report and available documentation, identify stakeholders, develop project goals and problem statement and project schedule for Collaborative and DCAMM review and approval, including

- A statement of the vision and design goals for the project and the problems to be addressed
- A statement identifying funding sources and confirming the target construction budget
- A draft study schedule for DCAMM review and approval (see *Study Schedule*, below)

2. A. Downtown Campus Analysis

This phase will identify, document, and analyze all conditions relevant to the development of an urban design vision including the selection of 226 Main St. and additional potential sites for a downtown educational campus expansion in Brockton. Documentation and analysis will be based on visual inspection and documentation of the social, cultural, economic, historic, educational and physical urban context by the design team and information (including plans and

data) available from DCAMM, the City, the Collaborative, and other local and regional sources. It is anticipated that the selected designer will contract with an Urban Affairs Consultant to assist with this phase as an extra service.

Deliverables: all meetings with and presentations to representatives of the Collaborative, the City, local businesses, and the state delegation required to fully present and evaluate conditions, develop urban design vision and goals and siting criteria, including but not limited to

- A statement of jobs creation associated with the 226 Main St. project.
- A statement of social, cultural, educational and other economic impacts of the project
- A draft outreach strategy for community/stakeholder/businesses to present the project, solicit feedback and identify community/stakeholder/business resources to complement this project
- A statement of opportunities and constraints to be addressed by the downtown campus
- A statement of urban design vision, goals and guidelines for the downtown campus
- Parking areas identified for the project
- A statement of site selection criteria
- Recommended sites for future phases of development with budget costs

2. B. Existing Conditions Analysis

The Existing Conditions phase will identify, document and analyze all relevant existing building and site conditions at 226 Main Street in detail sufficient to support the study design and cost estimate. Documentation and analysis will be based as far as possible on visual inspection of conditions by the design team and information available from DCAMM, the City, the Collaborative, and other sources. Additional surveys, borings and tests recommended by the Designer will be extra services and must be requested and authorized by DCAMM under the terms of the Study Contract.

Deliverables: all meetings and presentations required to fully present and evaluate conditions including but not limited to

- The existing condition narrative survey of 226 Main Street and its site documented in Uniformat II Level 3 with illustrative photographs
- Site access issues
- Location, capacity and condition of available civil and utility systems
- Ch. 34/IEBC 2009 Code analysis and permit review
- Architectural, structural and MEP systems drawings as required for demolition contract specification (extra service)
- Hazardous materials survey (extra service)
- Any required topographical surveys, wetlands surveys, geotechnical investigations, or hazardous materials investigations (extra services)

2.C. Program Analysis

The Program Analysis phase will review the preliminary program proposed by Icon Architecture; review and confirm the operational/staffing plan and list of proposed course offerings, class sizes, schedule, and utilization projections prepared by the Collaborative; interview relevant Collaborative instructional staff; hold all workshops required to document and analyze the Collaborative's space needs; and confirm a preferred architectural program for the renovation of 226 Main Street that meets all relevant DCAMM and educational space standards and utilization benchmarks.

Deliverables: all workshops, meetings and presentations required to develop and present an analysis of the Collaborative's space needs, identify and review program options and confirm a Preferred Program for the new building, including but not limited to

- A prioritized preliminary program table with grossing factors
- Program options and costs analysis meeting the requirements of the *Consultants Estimating Manual*
- A Program Table for the preferred option selected by the Collaborative and DCAMM that includes all net spaces, with grossing factors
- Adjacency diagrams
- Typical weekly utilization schedules for any specialized (FICM 200) instructional spaces included in the Preferred Program
- Draft room diagrams and data sheets for all net spaces in the Preferred Program for DCAMM and Collaborative review

2. D. Existing Urban and Architectural Conditions, Urban Design Goals, and Program Report

When Phases 2.A, 2.B. and 2.C have been completed and approved the Designer shall deliver

- A draft report documenting, narrating and graphically illustrating Phase 2 for DCAMM and Collaborative review, and
- A final report incorporating all revisions as directed by DCAMM for final DCAMM review and approval.

3. Options Analysis

The Designer will develop and present a range of conceptual design options for the Preferred Program for the renovation meeting all project design goals and the target construction budget and confirm a preferred architectural, MEP, civil and site design approach for the project.

Deliverables: all meetings and presentations required to clearly illustrate and evaluate options and costs and confirm the preferred design solution.

4. Preferred Solution and Cost Estimate

The Designer will prepare and deliver to the cost estimator a scope of design for the Preferred Solution that includes:

- Dimensioned pre-schematic floor plans, sections, and elevations
- A plan to scale showing building footprint and all proposed site, civil, and landscape work included in the estimate
- Final Room data sheets for all net program spaces listed in the Tabular Architectural Program
- Pricing narratives for all architectural, MEP, structural, civil, and landscape work
- An outline specification
- A schedule for permitting, design and construction

The project cost estimator will prepare (1) a preliminary estimate based on the scope of design in Unifomat Level II format as required by DCAMM's *Consultants Estimating Manual* for review. If the estimate is in excess of the target construction budget, the Designer will develop and recommend appropriate adjustments to the scope of design and, if necessary, the Preferred Program as required until the (2) final estimate is reconciled to the target construction budget.

5. Final Report

When Phases 1 – 5 have been completed and approved the Designer will deliver

- A draft *Preferred Solution Report* documenting the Preferred Solution for DCAMM and Collaborative review, and
- A final *Preferred Solution Report* incorporating all revisions as directed by DCAMM for final DCAMM and Collaborative review and approval.

Study Schedule

The schedule prepared and approved in Phase 1 will assume DCAMM approval of the final version of the *Preferred Solution* report within six months of the initial project meeting and will include dates of delivery for all products and the dates, times, and agendas for all proposed project meetings. Activities should be concurrent as required for efficient progress. The schedule will allow

- Sufficient time for DCAMM to review and comment in advance on all meeting presentations, and
- A minimum of two weeks for DCAMM and the Collaborative to review and comment on draft and final reports.

ADDITIONAL SUPPORTING DOCUMENTS:

The scope of work for this project is supported by the materials listed below, which are available for review and download on the Designer Selection Board website.

- *Feasibility Study for a Downtown Brockton Campus*, by ICON Architecture, dated July 2014
<http://www.mass.gov/anf/docs/dcam/dsblist/dsb141401-14-07-18-226-main-st-final-report.pdf>

GENERAL CONDITIONS OF THIS CONTRACT:

Study Contract

DCAMM has established a goal of six months to complete a study. If selected for study services, the applicant agrees to execute the Commonwealth of Massachusetts Contract for Study Services (Revised 9/13) ("Study Contract") or its

successor, without revisions or modifications. DCAMM compensates the designer during the Study Phase for approved products in accordance with the approved work plan.

<http://www.mass.gov/anf/docs/dcam/dlforms/forms/dcam-standard-study-contract.pdf>

Design Contract

DCAMM has established a goal of twelve months to complete design (SD, DD and CD). At the conclusion of the study, if the applicant is requested by DCAMM to perform final design services, the applicant agrees to execute the Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 9/13)¹ (“Design Contract”) or its successor, without revisions or modifications.

<http://www.mass.gov/anf/docs/dcam/dlforms/forms/dcam-standard-design-contract.pdf>

SDVOBE Participation- Chapter 108 of the Acts of 2012; Executive Order 546

The Commonwealth encourages the participation of Service-Disabled Veteran-Owned Business Enterprises (“SDVOBE”) on its design projects. The benchmark for SDVOBE participation on DCAMM and other state agency design projects is 3% of the contract price as set forth in the standard DCAMM Study and Design Contracts referenced above.

Financial Statement

Chapter 7C, Section 51 requires that on public design contracts where the total design fee is expected to exceed \$10,000 or for the design of a project for which the estimated construction cost is expected to exceed \$100,000 the designer shall:

- a) File its latest CPA or PA audited financial statement with the Division of Capital Asset Management and Maintenance (DCAMM), and continue to do so annually throughout the term of the contract;
- b) Submit a statement from a CPA or PA that states that they have examined management’s internal auditing controls, and expresses their opinion regarding those controls.

DCAMM Procedures

The designer will follow the procedures established in DCAMM’s Designer Procedures Manual dated August 2008 (<http://www.mass.gov/anf/docs/dcam/dlforms/designers-procedures-manual-aug08.pdf>). Applicants are urged to review and become familiar with the following supplemental material, which is available on the web at:

<http://www.mass.gov/dcam>.

PMAS

Consultants will be required to use DCAMM’s electronic web-based Project Management and Accounting System (PMAS) as a repository for all project correspondence, documentation, and project budgeting, and scheduling. No special software is required.

Workshops

DCAMM and the Designer will hold periodic workshops to ensure that critical issues are not overlooked and that all team members have an opportunity to contribute their expertise, to anticipate potential obstacles, to identify potential solutions, and to expedite the decision-making process. Attendance by key design team members will be required at all workshops.

Executive Order 484

This project shall comply with all applicable requirements of Executive Order 484 (EO 484): see

<http://www.mass.gov/governor/legislationexecorder/executiveorder/executive-order-no-484.html>.

All building studies shall include preliminary estimates of the project’s energy use, water use, and greenhouse gas emissions using protocols established by EOEEA or as determined by DCAMM. No building study shall be certified for final design unless all means, methods, and commitments required to mitigate the project’s impact on the operating agency’s plan for meeting EO 484’s goals are documented in the consensus solution, implementation plan, and estimated construction cost.

LEED Certification

This project shall be certifiable at a level of Silver or higher, including Mass LEED Plus requirements. All measures proposed to achieve a LEED rating shall be incorporated into Final Design as part of the Designer’s base fee; administration of the certification process by the Designer during the Final Design and Construction phases of the project will be considered an extra service.

¹ The Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 9/13) replaces the former DCAM Form C-2 Contract for Designer Services.

Universal Design

Design solutions provided under this contract are expected to provide environments elements that meet the diverse and changing needs of users across age, ability, language, ethnicity and economic circumstance. DCAMM welcomes innovative design strategies that are usable by the widest range of people operating in the widest range of situations without special or separate design.

Accessibility

The consultant's design must comply, *at a minimum*, with 521 CMR, The Rules and Regulations of the Architectural Access Board (<http://www.mass.gov/eopss/consumer-prot-and-bus-lic/license-type/aab/aab-rules-and-regulations.html>), as well as the 2010 ADA Standards for Accessible Design (<http://www.ada.gov/regs2010/2010ADASTandards/2010ADASTandards.htm>). When the requirements of these two laws differ the consultant shall comply with the one that provides the greater degree of accessibility. The consultant is also expected to understand and reflect in its design the civil rights obligations of the Commonwealth under Title II of the Americans with Disabilities Act (http://www.ada.gov/regs2010/titleII_2010/titleII_2010_regulations.htm) to provide equal access to programs, services and activities. DCAMM may use its Accessibility Consultants to provide technical assistance and provide oversight for accessibility compliance during the design process.

Environmental and other supplemental services

DCAMM reserves the right to obtain supplemental services through independent consultants who will collaborate with the Principal-in-Charge (P.I.C.) and the project team.

Construction Specifications

The designer shall utilize the DCAMM Standard Specification.

Cost Estimating

Cost estimates, cost models, and estimator participation in both the study and the design phases shall meet the requirements of the current DCAMM *Cost Estimating Manual* and will be submitted in Unifomat II in the study phase and in both Unifomat II to Level 3 and CSI Masterformat in the design phase. The *Cost Estimating Manual* can be found at <http://www.mass.gov/anf/docs/dcam/dlforms/cem-feb06.pdf>, and Unifomat II can be found at <http://fire.nist.gov/bfrlpubs/build99/PDF/b99080.pdf>.

Building Information Modeling (BIM)

Building Information Modeling (BIM) will be used in the study, design, and construction phases of the project. The BIM List of Services can be found at <http://www.mass.gov/anf/docs/dcam/dlforms/dcam-bim-list-of-services.pdf>. This List of Services document is a general statement of DCAMM's current requirements regarding the use of Building Information Modeling technology in agency projects. The specific requirements regarding use of the BIM will vary depending on the nature of the project, the Levels of Development delineated in the DCAMM approved BIM Execution Plan for the project, and the diverse purposes for which DCAMM will use the BIM during the life cycle of the facility from design through facility operations. In all instances, the language of the project contract(s) will be controlling.

Building Commissioning

DCAMM will include an independent third party building commissioning as part of this project. The Commissioning Agent will develop in collaboration with DCAMM an operations and maintenance plan as a reimbursable expense during the building commissioning phase. The commissioning agent will meet with DCAMM's design team during planning, design and construction to evaluate design proposals and make recommendations to ensure the maintainability and operational efficiency of the new building.

CM at Risk

The construction of this project will be performed utilizing a construction management at-risk (CMAR, sometimes referred to as CM/GC) contract in accordance with MGL Chapter 149A. It is anticipated that the CM will be on board during the Schematic Design phase of Final Design project.

Integrated Project Delivery Approach/Lean Construction Tools

DCAMM may elect to use an Integrated Project Delivery (IPD) approach, as generally described in the AIA document *Integrated Project Delivery: A Guide* (2007) – (see http://info.aia.org/SiteObjects/files/IPD_Guide_2007.pdf for informational purposes). DCAMM's preliminary approach to IPD will use Construction Manager at Risk procurement with the goal that DCAMM, Client Agency, Designer, CM, Trade Partners, and other key stakeholders will work as an integrated project delivery team within the existing statutory and contractual frameworks.

DCAMM may elect to use Lean Construction Tools as part of the IPD project delivery approach. The Lean Tools that DCAMM may use in connection with the project include Value Stream Mapping, Set Based Design, Target Value Design, A3 Decision-making, and Last Planner™ - (see http://www.leanconstruction.org/pdf/6_Lichtig_Howell_LCI_Glossary.pdf) for informational purposes).

CONDITIONS FOR APPLICATION:

Current or updated Master File Brochures must be on file with the Board. As a condition of application, each applicant, if selected for the new project, agrees to carry professional liability insurance in an amount equal to the lesser of \$5,000,000 or 10% of the Project's Fixed Limit Construction Cost, but in no event less than \$250,000 per claim in accordance with the Study Contract and Design Contract (i.e., minimum coverage of \$250,000 up to \$5,000,000 depending on the construction cost). DCAMM may seek additional coverage for the selected designer, and if so will bear the cost of the additional coverage. Note that the requirement for professional liability insurance shall apply to both the Contract for Study Services and Contract for Final Design and Construction Administrative Services when a project is advertised for both study and design services.

APPLICATION EVALUATION – PERSONNEL

Applications will be evaluated based on the applicant and consultant's personnel and extent of compliance with MBE/WBE participation goals. Please see Section 6 on DSB Application Form: On the organizational chart, identify the team by listing them in the same order as below. Include resumes for all personnel.

- | | |
|---------------------------------|--|
| 1. Architect (P.I.C.)* | 7. Specifications Consultant (independent consultant required) |
| 2. Mechanical Engineer (M/P/FP) | 8. Cost Estimator (independent consultant required) |
| 3. Electrical Engineer | 9. MA Code Consultant (independent consultant required) |
| 4. Structural Engineer | 10. Higher Education Facilities Planner |
| 5. Civil Engineer | 11. Urban Designer |
| 6. Landscape Architect | 12. Historic Preservation Specialist |

*Should the advertisement require the applicant to be either an Architect or an A&E firm, the P.I.C. or P.M. must be a Registered Architect in the Commonwealth of Massachusetts.

Where an "independent consultant" is required the Applicant may not provide the services "in house." If the Applicant plans to fulfill any of the other sub-consultant roles, so indicate on the organizational chart. Project Managers for Study and Final Design should be listed separately on the organizational chart.

APPLICATION EVALUATION – PROJECT EXPERIENCE

Applications will be evaluated based upon the requirements of M.G.L. Ch. 7C §49 and the work listed on DSB Application Form Sections 8, 9 AND 10 which illustrate current qualifications in the following areas:

- | | |
|---|---|
| 1. <u>Architect and Higher Education Facilities Planner</u> : planning, design and construction of university, college, and community college instructional space, including collaborative educational facilities | 3. <u>Architect, Structural Engineer, and Historic Preservation Specialist</u> : renovation of historic urban buildings of comparable size and type |
| 2. <u>Architect and MEP Engineers</u> : design and construction of high-performance renovations of comparable region, size and type; previous experience as team preferred | 4. <u>Architect and Landscape Architect</u> : design and construction of universally accessible buildings and landscapes |
| | 5. <u>Urban Designer</u> : management of public process; planning and site selection analysis for urban educational campuses |

APPLICANTS PLEASE NOTE

A copy of the most current Application Form and General Instructions - **DSB Application Form (Updated May 2014)** are included with this Public Notice and available for download at www.mass.gov/dcam/dsb

Applications that are incomplete will be rejected. Applications that are submitted on a form other than **DSB Application Form (Updated May 2014)** may be rejected as non-compliant and not be considered by the Board. Applications received at the DSB Office after the advertised deadline will not be considered.

**COMMONWEALTH OF MASSACHUSETTS
DESIGNER SELECTION BOARD PROJECT CRITERIA**

DSB LIST # 14-14 **ITEM #** 2 **DSB PUBLIC NOTICE DATE:** July 30, 2014

LAST DATE FOR FILING APPLICATION IS: August 20, 2014 at 2:00 PM

The Board requests applications to be submitted by any of the following firms:

<input checked="" type="checkbox"/> Architect	<input type="checkbox"/> Engineer
<input checked="" type="checkbox"/> Architect/Engineer (A/E)	<input type="checkbox"/> Other:

PROJECT NUMBER: **SDH-2015**

PROJECT TITLE: **Study and Design for General Building Renovations, Repairs and Upgrades**

PROJECT LOCATION: **Ludlow, Chicopee, and Springfield**

AWARDING AGENCY: **Sheriff's Department Hampden (SDH)**

APPROPRIATION SOURCE: **N/A**

AVAILABLE AMOUNT: **\$500,000 per contract**

ESTIMATED CONSTRUCTION COST: **Less than \$2 million for each project**

TOTAL FEE, excluding reimbursables, based on scopes of work and services authorized, shall not exceed:

Lump sum established set fee per M.G.L. C.7C, §50 \$500,000 Dollars

IMMEDIATE SERVICES AUTHORIZED:

- CERTIFIABLE BUILDING STUDY
- SCHEMATIC PLANS AND OUTLINE SPECIFICATIONS
- DESIGN DEVELOPMENT PLANS AND SPECIFICATIONS
- CONSTRUCTION PLANS AND SPECIFICATIONS
- ADMINISTRATION OF CONSTRUCTION CONTRACT
- OTHER

MBE/WBE PARTICIPATION:

In accordance with M.G.L. C.7C, §6 and Executive Orders 524 and 526, SDH has established a minimum combined MBE/WBE participation goal of 17.9% of the overall value of the study and final design contracts for this project. Applicants must utilize a mix of both MBE and WBE firms whose participation, when added together, meets the overall combined goal set for the Contract. The combined goal requires a reasonable representation of both MBE and WBE firm participation. The Combined MBE/WBE goal must be met within the list of requested prime and sub-consultants. All applicants must indicate in the prime firm's application how they or their consultants will meet these goals and will be evaluated on that basis. Further information about the MBE/WBE Program appears in the DSB Public Notice at pages 4-8 titled "Participation by Minority Owned Businesses and Woman Owned Businesses," in the Commonwealth of Massachusetts Contract for Study Services (Revised 9/13) at Attachment C, in the Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 9/13) at Attachment E, and on the Supplier Diversity Office (formerly SOMWBA) website: <http://www.mass.gov/sdo>. Applications from MBE and WBE firms as prime consultant are encouraged. Applicants that are themselves MBE or WBE certified will be required to bring a reasonable amount of participation by a firm(s) that holds the certification which is not held by the applicant to the project. Proposed MBE/WBE participation plans that include solely MBE or solely WBE participation, or have only nominal participation by one or the other to meet the combined goal, will not be considered responsive. Applicants are strongly encouraged to utilize multiple disciplines and firms to meet the MBE/WBE goal. Consultants to the prime can team within

their disciplines in order to meet the MBE/WBE goal, but must state this relationship on the organizational chart (Section 6 of the application form).

N.B.1: This contract will be a “house doctor” contract. Multiple projects of the type described in the General Scope of Work may be assigned, and fee increments approved, up to the total value of the contract.

N.B.2: The Awarding Agency may award up to three (3) contracts, each with a total value of \$500,000 to qualified designers under this contract.

APPROPRIATION LANGUAGE:

N/A

GENERAL SCOPE OF WORK:

The Sheriff’s Department Hampden consists of multiple state-owned buildings as follows:

1. Hampden County Jail and House of Corrections
Pre-Release Center
Ludlow
 - 575,220 gross square feet
 - 10 buildings constructed in 1992
3 are pre-fabricated concrete- 5 floors
7 are Butler buildings- 2 floors
2. Western Massachusetts Regional Women’s Correctional Center
Chicopee
 - 106,410 gross square feet
 - 2 buildings, 1 constructed in 2007 and 1 constructed in 2014
1 pre-fabricated concrete- 3 floors
1 pre-fabricated concrete- 2 floors
3. After Incarceration Support Services
Springfield
 - 6,000 gross square feet
 - 1 building constructed in 1975
brick- 1 floor

The Sheriff’s Department Hampden seeks House Doctor Designers to investigate, evaluate, and prepare certifiable studies, final design documents, and provide construction administration services for a variety of renovations, alteration, modernization, repairs and general building upgrades, as requested on a case-by-case basis.

The types of building systems for which professional services will be sought may include, but are not limited to: roof, building envelope, structural, mechanical, HVAC, electrical, plumbing, civil engineering, environmental compliance, and fire protection services.

The scope of work may include but is not limited to:

1. Investigating the nature and severity of the problem.
2. Documenting existing conditions.
3. Recommending detailed repairs and magnitude of cost for such repairs.
4. Proposing alternate methods of repairs for resolution of the problem, including energy efficient alternatives.
5. Developing the preferred solution to schematic design and/ or design development.
6. Preparing construction specifications and documents, cost estimates, and providing construction administration for the solution.

Consideration in the analysis should include energy costs, sustainability principles, expected remaining useful life of building systems and related life cycle costs. Particular attention should be paid to the constructability, reliability, durability and maintainability of building systems and materials.

Immediate Scope of Work:

An immediate scope of work includes bidding and construction to replace 33 roof top units. The design work for this project was completed on June 30, 2014. Funding approval for this project is expected for the fall of 2015. If the selected designer is appointed for final design, the General Scope of Work will be defined by the certifiable building study and the current version of the DCAMM Designer Procedures Manual.

Asbestos inspection, design and monitoring, and indoor air quality testing and monitoring will be extra services under this contract.

ADDITIONAL SUPPORTING DOCUMENTS:

The scope of work for this project is supported by the materials listed below, which are available for review and download on the Designer Selection Board website.

N/A

GENERAL CONDITIONS FOR THIS CONTRACT:

Contract

This contract is limited to projects with an estimated construction cost of less than \$2,000,000 as per M.G.L. C.7C §5, as amended by C. 159 §15 of the Acts of 2000, C. 245 §22 of the Acts of 2002 and C. 120 §8 of the Acts of 2009. **The designer must prepare studies for all projects under this contract, and all studies must be certified by the DCAMM Director of Programming before final design can proceed.**

The applicant agrees to execute Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 9/13)¹ (“Design Contract”) or its successor, without revisions or modifications. <http://www.mass.gov/anf/docs/dcam/dlforms/forms/dcam-standard-design-contract.pdf>

SDVOBE Participation- Chapter 108 of the Acts of 2012; Executive Order 546

The Commonwealth encourages the participation of Service-Disabled Veteran-Owned Business Enterprises (“SDVOBE”) on its design projects. The benchmark for SDVOBE participation on DCAMM and other state agency design projects is 3% of the contract price as set forth in the standard DCAMM Study and Design Contracts referenced above.

Financial Statement

Chapter 7C, Section 51 requires that on public design contracts where the total design fee is expected to exceed \$10,000 or for the design of a project for which the estimated construction cost is expected to exceed \$100,000 the designer shall:

- a) File its latest CPA or PA audited financial statement with the Division of Capital Asset Management and Maintenance (DCAMM), and continue to do so annually throughout the term of the contract;
- b) Submit a statement from a CPA or PA that states that they have examined management’s internal auditing controls, and expresses their opinion regarding those controls.

DCAMM Procedures

The designer will follow the procedures established in DCAMM’s Designer Procedures Manual dated August 2008 (<http://www.mass.gov/anf/docs/dcam/dlforms/designers-procedures-manual-aug08.pdf>). Applicants are urged to review and become familiar with the following supplemental material, which is available on the web at: (<http://www.mass.gov/dcam>).

Executive Order 484

Projects undertaken under this contract shall comply with all applicable requirements of Executive Order 484 (EO 484): see <http://www.mass.gov/governor/legislationexecorder/executiveorder/executive-order-no-484.html>.

All building studies shall include preliminary estimates of the project’s energy use, water use, and greenhouse gas emissions using protocols established by EOEA or as determined by DCAMM. No building study shall be certified for final design unless all means, methods, and commitments required to mitigate the project’s impact on the operating agency’s plan for meeting EO 484’s goals are documented in the consensus solution, implementation plan and estimated construction cost.

¹ The Commonwealth of Massachusetts Contract for Final Design and Construction Administration Services (Revised 9/13) replaces the former DCAMM Form C-2 Contract for Designer Services.

Universal Design

Design solutions provided under this contract are expected to provide environments elements that meet the diverse and changing needs of users across age, ability, language, ethnicity and economic circumstance SDH welcomes innovative design strategies that are usable by the widest range of people operating in the widest range of situations without special or separate design.

Accessibility

The consultant's design must comply, *at a minimum*, with 521 CMR, The Rules and Regulations of the Architectural Access Board (<http://www.mass.gov/eopss/consumer-prot-and-bus-lic/license-type/aab/aab-rules-and-regulations.html>), as well as the 2010 ADA Standards for Accessible Design (<http://www.ada.gov/regs2010/2010ADASTandards/2010ADASTandards.htm>). When the requirements of these two laws differ the consultant shall comply with the one that provides the greater degree of accessibility. The consultant is also expected to understand and reflect in its design the civil rights obligations of the Commonwealth under Title II of the Americans with Disabilities Act (http://www.ada.gov/regs2010/titleII_2010/titleII_2010_regulations.htm) to provide equal access to programs, services and activities. SDH may use its Accessibility Consultants to provide technical assistance and provide oversight for accessibility compliance during the design process.

Construction Specifications

The designer shall utilize the DCAMM Standard Specification.

Cost Estimating

Cost estimates, cost models, and estimator participation in both the study and the design phases shall meet the requirements of the current DCAMM *Cost Estimating Manual* and will be submitted in Uniformat II in the study phase and in both Uniformat II to Level 3 and CSI Masterformat in the design phase. The *Cost Estimating Manual* can be found at <http://www.mass.gov/anf/docs/dcam/dlforms/cem-feb06.pdf> and Uniformat II can be found at <http://fire.nist.gov/bfrlpubs/build99/PDF/b99080.pdf>.

CONDITIONS FOR APPLICATION:

The applicant's current or updated Master File Brochure must be on file with the Board prior to the date of application. As a condition of application, each applicant, if selected for the new project, agrees to carry professional liability insurance in an amount equal to the lesser of \$5,000,000 or 10% of the Project's Fixed Limit Construction Cost, but in no event less than \$250,000 per claim in accordance with the Design Contract (i.e., minimum coverage of \$250,000 up to \$5,000,000 depending on the construction cost). The Agency may seek additional coverage for the selected designer, and if so will bear the cost of the additional coverage.

APPLICATION EVALUATION – PERSONNEL

Applications will be evaluated based on the applicant and consultant's personnel and extent of compliance with MBE/WBE participation goals. Please see Section 6 on DSB Application Form: On the organizational chart, identify the team by listing them in the same order as below. Include resumes for all personnel.

- | | |
|---------------------------------|--------------------------------|
| 1. Architect (P.I.C.)* | 6. Landscape Architect |
| 2. Mechanical Engineer (M/P/FP) | 7. Specifications Consultant |
| 3. Electrical Engineer | 8. Cost Estimator |
| 4. Structural Engineer | 9. MA Building Code Consultant |
| 5. Civil Engineer | |

*Should the advertisement require the applicant to be either an Architect or an A&E firm, the P.I.C. or P.M. must be a Registered Architect in the Commonwealth of Massachusetts.

Where an "independent consultant" is required the Applicant may not provide the services "in house." If the Applicant plans to fulfill any of the other sub-consultant roles, so indicate on the organizational chart. Project Managers for Study and Final Design should be listed separately on the organizational chart.

APPLICATION EVALUATION – PROJECT EXPERIENCE

Applications will be evaluated based upon the requirements of M.G.L. Ch. 7C §49 and the work listed on DSB Application Form Sections 8, 9 AND 10 which illustrate current qualifications in the following areas:

1. Design of phased renovations/modernizations in occupied buildings of similar size and scope.
2. Renovations/repairs to building infrastructure and envelope.
3. Renovation/repair/installation of mechanical, HVAC, electrical, plumbing, and fire protection systems in institutional and public facilities.

APPLICANTS PLEASE NOTE

A copy of the most current Application Form and General Instructions - **DSB Application Form (Updated May 2014)** are included with this Public Notice and available for download at www.mass.gov/dcam/dsb

Applications that are incomplete will be rejected. Applications that are submitted on a form other than **DSB Application Form (Updated May 2014)** may be rejected as non-compliant and not be considered by the Board. Applications received at the DSB Office after the advertised deadline will not be considered.
