HOUSE

The House of Representatives is the lower chamber of the United States Congress. It is composed of members from each state and the District of Columbia. The House is responsible for initiating and passing legislation, as well as overseeing the executive branch of the government.

The House is currently composed of 435 members, with each state having a certain number of representatives based on population. The House is led by the Speaker of the House, who is elected by the members.

The House has several committees that are responsible for studying and reporting on legislation. The House also has the power to impeach and remove federal judges and other officials.

The House is an important part of the American government and plays a key role in the legislative process. It is responsible for representing the interests of the people of each state and the District of Columbia.
