Any building or structure erected or maintained under any of the aforementioned licenses shall always be subject to such replacements and alterations in construction and to such regulations of its use in respect to protection against fire or explosion as the department may prescribe.

If, in his opinion, such a hazard would result, he shall notify the authority granting the license, and such notice when received by such authority shall constitute a revocation of such license and no further license for the same or similar use of the same land shall be granted within three years after the receipt by such authority of such notice.
