**ADDITIONAL INFORMATION** This is a Construction Management at Risk project under MGL Ch. 149A. Interested firms must submit a Qualification Statement by the deadline and be pre-qualified if they are interested in later bidding on the project. DCAM certification applies for this project. This RFQ is then first part of a two step selection process for Trade Subcontractors. First, interested firms must submit the Qualification Statement and then, at a later date, only the pre-qualified firms will be invited to submit bids for the category of work in which they were pre-qualified. This required Qualification Statement is different from DCAM Certification. All firms must be pre-qualified for this project, even if they are DCAM Certified.
